INTRODUCTION SECTION

Village of Bloomingdale

"Growth with Pride"

Franco A. Coladipietro
Village President

Jane E. Michelotti
Village Clerk

May 13, 2013

To the Village of Bloomingdale Board of Trustees:

It is our great privilege to present the Village of Bloomingdale, Illinois' Approved Budget for the Fiscal Year Ending April 30, 2014 (FY14). The budget functions as an important tool to manage revenues, expenses, programs and projects, and is the de facto financial plan for the Village's fiscal year. The projections contained herein follow months of discussions and calculations regarding revenue estimates, service levels, programs, projects and expense levels.

As in the past, the budget is published in two (2) forms. One form is a "summary form" that provides high-level information that focuses on department initiatives, objectives and activities. The primary intent of the "summary form" is to promote discussion and consideration of key policy issues rather than a time-consuming presentation of individual budgetary line items and accounts. To facilitate this approach, summarized financial data is included in the Introduction section. Should the reader want to review additional financial data, an abundant of detailed financial schedules are found in the Financial section. The second form is a "detail form" that includes all of the content of the "summary form", but adds copious supporting detail and specific information for each of the almost 1,300 expense line items. Both forms of the budget are available on the Village's web site located at, http://www.villageofbloomingdale.org/our-government/financial/annual-budgets.

According to State Statute, a separate document in the form of an Appropriations Ordinance, serves as the Village's actual legal spending authority. This Ordinance will be adopted subsequent to the approval of the budget, and is based on the spending plan contained in the budget. A complete calendar or timeline of the FY14 budget process, including the approval of the Appropriations Ordinance, can be found later in this Introduction section.

The FY14 budget comprises a $33.41 million spending plan, of which $26.72 million covers operational costs, and $6.69 million of capital outlays and debt service. Fiscal year revenue is expected to support $33.00 million of the spending plan, $10,500 will come from other financing sources and the remaining $397,535 will be provided from accumulated fund balances. The Village's 1% share of the State sales tax is projected to support 49% of the General Fund's spending plan. The Village's additional .50% home rule sales tax is projected to support over $3.15 million of capital or "capital-like" improvements. A 6% hotel use tax is contributing $610,000 to economic development, community events and public relations communication. The waterworks and sewerage system will derive 99% of its operating revenue or $8.66 million from approximately 9,800 customers through user rate charges (i.e. – water & sewer rates). Greens and cart rental fees will generate 86% or $1.17 million of the golf course's revenue through the play of over 32,900 rounds of golf during the 2013 golf season.

201 South Bloomingdale Road / Bloomingdale, Illinois 60108-1487 / (630) 893-7000 / FAX: (630) 893-5136

We are pleased to report that three (3) of the Village's four (4) primary operating Funds - the General, Community Relations & Events, and Water & Sewer Funds - reflect an operating surplus for FY14. A surplus of over $1.31 million is projected to be generated from these three (3) funds which will be used to provide additional funding for various purposes including the enhancement of fund balances. The Golf Course Fund (the fourth primary operating Fund) is projecting a $17,105 operating deficit primarily related to a few significant maintenance projects that are planned for FY14.

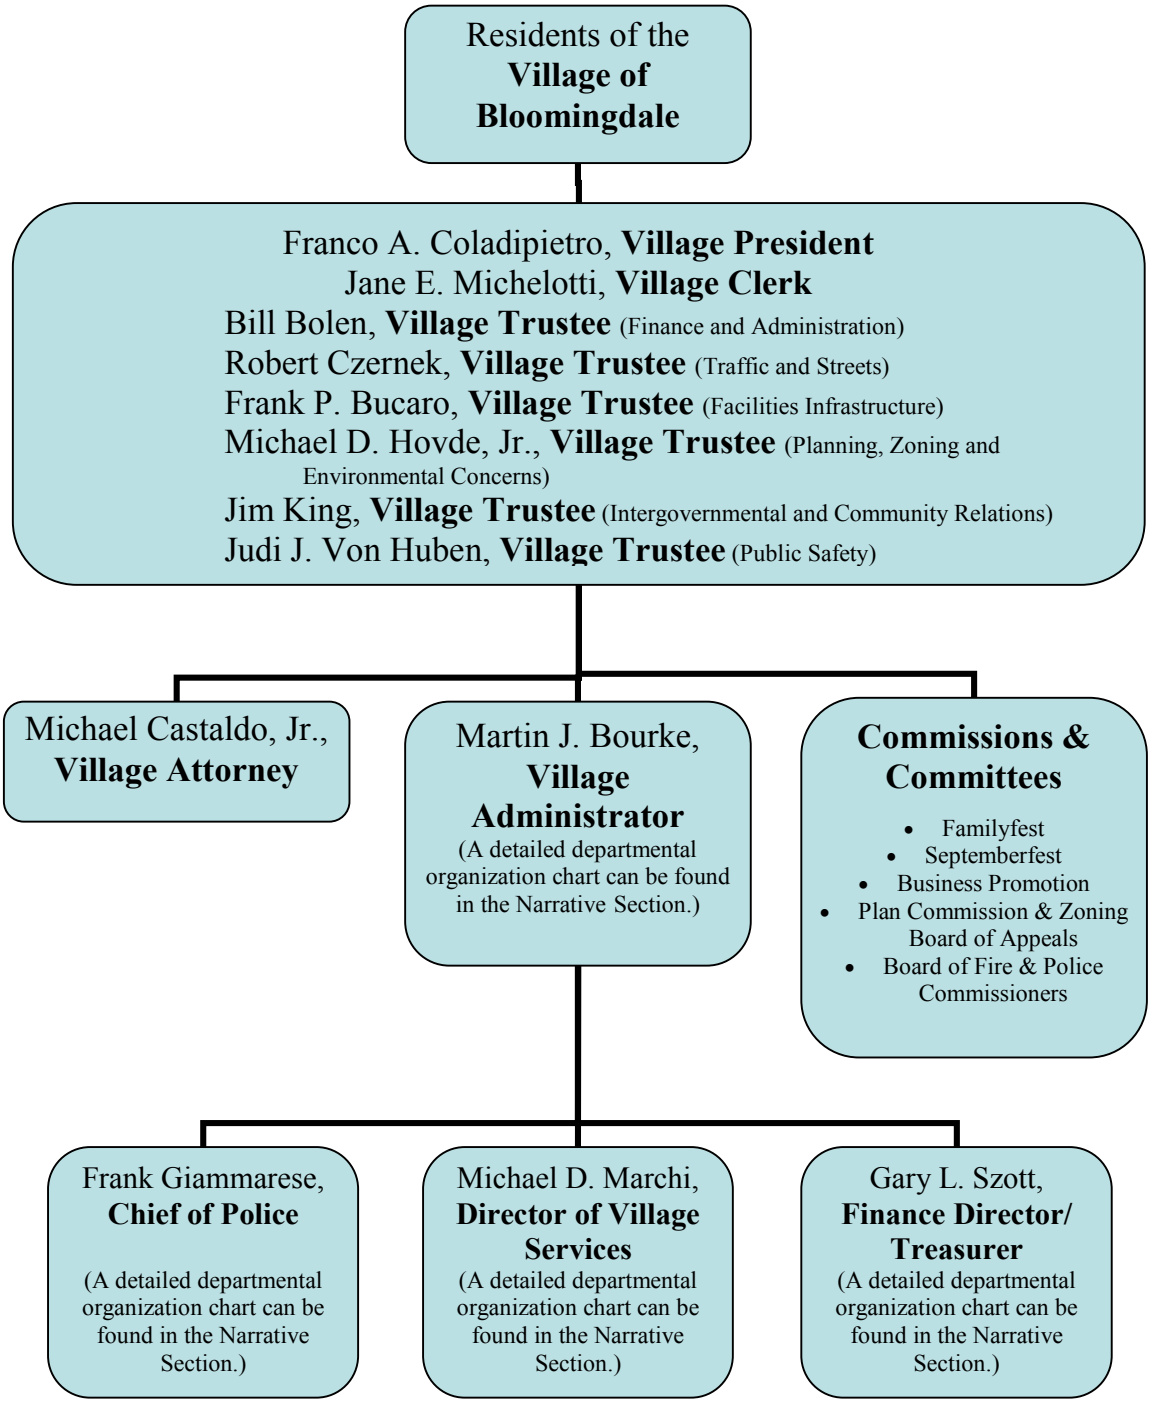
All of the other seventeen (17) Funds, to which the Village Board has direct control, are projected to perform as expected. This will allow those Funds to provide funding as planned in such areas as capital improvements, economic development and the continuation of the long-standing debt service abatement program. Additional explanation about fund balances, significant revenue sources and expense categories, including capital outlays for the fiscal year and outstanding debt obligations, can be found throughout this budget.

Because the Village Board does not have direct control or discretion over the Police Pension Fund, its budget and the monies invested by the fund, related amounts and balances are excluded from any discussion herein, although interested readers will find the fund's budget and accompanying financial schedules in the Financial section. The Board of Trustees of the Police Pension Fund approved the budget at its meeting in April, 2013.

The Village is a home-rule community, as provided for in State Statute, and provides a full range of services including police protection, construction and maintenance of streets and infrastructure, building permit and inspection services, recreational and social events, water and sewer services and other general government services. It operates under the statutory Village form of government which includes a President (or Mayor) and six (6) Trustees, who collectively form the Village Board of Trustees, or Village Board. All Village Board members are elected at-large, including the office of Village Clerk. The Trustees serve staggered four-year terms with at least three (3) of the Trustees elected every two (2) years. By local ordinance, the Board of Trustees created the Office of Village Administrator to run daily operations. The Village Administrator is appointed by the Village President, with the advice and consent of the Trustees. Each Trustee is assigned to specialize in one (1) of six (6) operational areas which serve toward accomplishing the Village's mission and realizing the collective vision. An organization chart illustrating the Village's governance structure is found on the following page.

Residents are also served by the Bloomingdale Public Library, which is governed by a separately elected Board of Trustees, and from a practical perspective, the Library Board acts independently and adopts a separate budget. Fire suppression and emergency medical services are provided by the Bloomingdale Fire Protection District or the Carol Stream Fire Protection District and additional recreational activities are provided by the Bloomingdale Park District. There are five (5) elementary school districts and two (3) high school districts providing public education for Village residents. Further, many community colleges and four-year colleges and universities throughout the Chicago metropolitan area offer opportunities for higher learning. All of the aforementioned districts are separate legal standing entities, except for the Library, and not fiscally dependent on the Village. All of the above entities are excluded from this document.

The Village of Bloomingdale, Illinois organization chart -



Guiding policy decisions and forming the basis for Village-wide goals and objectives that are contained within this budget are the Vision and Mission Statements crafted during a strategic planning retreat held in 1997. Nearly seventeen (17) years later, these Statements continue to guide, proving the foresight of those that served before. We are proud that the Vision has been seen, continues to be before us and carries-on into tomorrow.

VISION STATEMENT

Bloomingdale will be an amiable community within which to live, work and shop. The Village will be a picturesque suburb with well-maintained homes and generous open space. It will be a model town, operated in a fiscally prudent manner by its elected officials and staffed by an enthusiastic work force.

MISSION STATEMENT

- **To preserve and enhance the Quality of Life through aesthetically pleasing and environmentally conscious growth, that is both reasonable and in keeping with our Community image and identity.**
- **To protect the health, safety and welfare of all Village residents, businesses, inter-governmental partners, and employees.**
- **To gather input, to communicate openly and regularly with all community stakeholders, and to incorporate all learnings gained into our decision making and goal selection process.**
- **To embrace change as needs and opportunities arise, in the development and administration of Village services.**
- **To conduct the business of the Village in an ethical, professional, and fiscally responsible manner.**
- **To provide a positive and attractive employment environment, including opportunities for employee growth and professional development.**

The long-standing conservative approach to forecasting revenues, the attentiveness to and acute awareness of costs, and a thoughtful commitment to expenses, has perpetuated stable fund balances and has provided the Village Board the ability to continue to provide numerous services to which residents have become accustom. Maintaining minimum levels of fund balance provides financial stability to address cash flow nuances, unforeseen events or even extraordinary circumstances such as the recent national recession. From a practical perspective, the fund balance of each Fund constitutes the "reserves" of that Fund. Internal policy provides that access to fund balance is generally unrestricted provided that use is within the scope and purpose of the Fund. The limited instances where fund balance has been committed or assigned is detailed in the Financial section.

In the context of the budget, the fund balance categories of restricted, committed, assigned and unassigned fund balance have been aggregated and reported as one total. Any nonspendable fund balance has been excluded from the fund balance totals because these amounts are not available to spend or support the fiscal year budget. A definition of fund balance and its five categories can be found in the Glossary section.

The summary below depicts each Fund's fund balance and the projected change from the prior year.

Summary of FY14 Fund Balances

Fund		Fund Balance at Beginning of Year	FY14 Net Change		Fund Balance at End of Year
#	Name	(May 1, 2013)	$	%	(April 30, 2014)
01	General	$ 5,725,322	226,290	4%	5,951,612

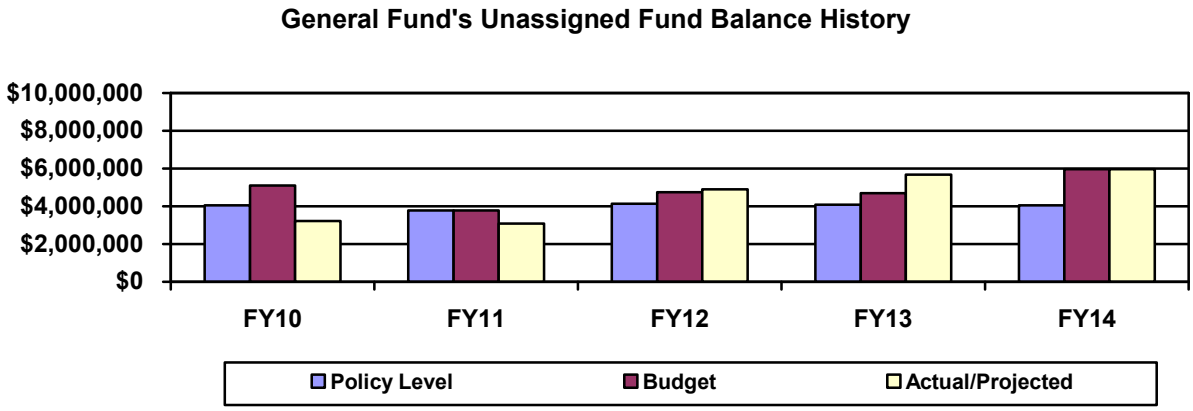
40	Water & Sewer	6,852,850	(35,460)	-1%	6,817,390
45	Golf Course	865,338	(425,605)	-49%	439,733
	Total	**$ 25,032,023**	**(397,535)**	-2%	**24,634,488**

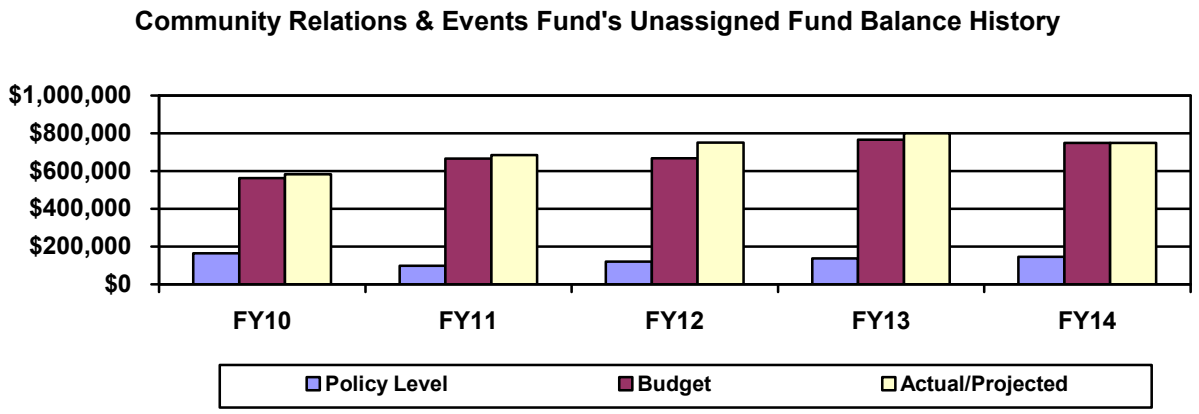
In total, fund balance of all Funds is projected to decrease from the prior year. This is primarily attributable to Water & Sewer and Golf Course funds. The Water & Sewer fund's decrease is primarily due to scheduled debt service payments. In FY04, the Village Board determined that all future sewer tap-on fees and an annual allocation of $600,000 of home rule sales tax receipts would be committed to repay the 2008 IL EPA revolving fund loan and monies have accumulated from prior years and are now being used to repay the loan. At May 1, 2013, approximately $5.25 million of fund balance is restricted for this purpose. The annual debt service payment of $799,262 is contributing to the fund balance change and will continue to "draw-down" fund balance in future years. Recognizing that approximately 78% of fund balance is restricted, water rates were increased by approximately 5% in June 2012 in the effort to provide sufficient funding to continue to sustain operations.

The Golf Course fund's decrease in fund balance is attributable to several, infrequent, club house maintenance projects that are scheduled for FY14 the most significant being the possible replacement of its roof. While $275,000 has been budgeted for the roof replacement, if it is deemed prudent, other funding options, such as internal or external debt financing, will be reviewed in an effort to preserve fund balance. Information on the fund's maintenance projects can be found in the Narrative section.

The **General Fund's** FY14 unassigned fund balance is projected to increase $226,290 or 4% over the projected FY13 End-of-Year (EOY) fund balance to a total of $5.95 million. The Village's fiscal objective is to maintain unassigned fund balance at a level that is no less than the average of 25% of total revenues, including other financing sources and 25% of total expenditures, including capital outlays and other financing uses. Using this formula, a fund balance of $4.05 million at April 30, 2014 is the desired goal. Projected unassigned fund balance will be $1.90 million or 47% over the fiscal policy objective. Presented below is a history of actual unassigned fund balance as compared to the policy level and budget fund balances. Additional explanation of the fund's revenue sources and expenses can be found later in this Introduction section and in the Financial section.

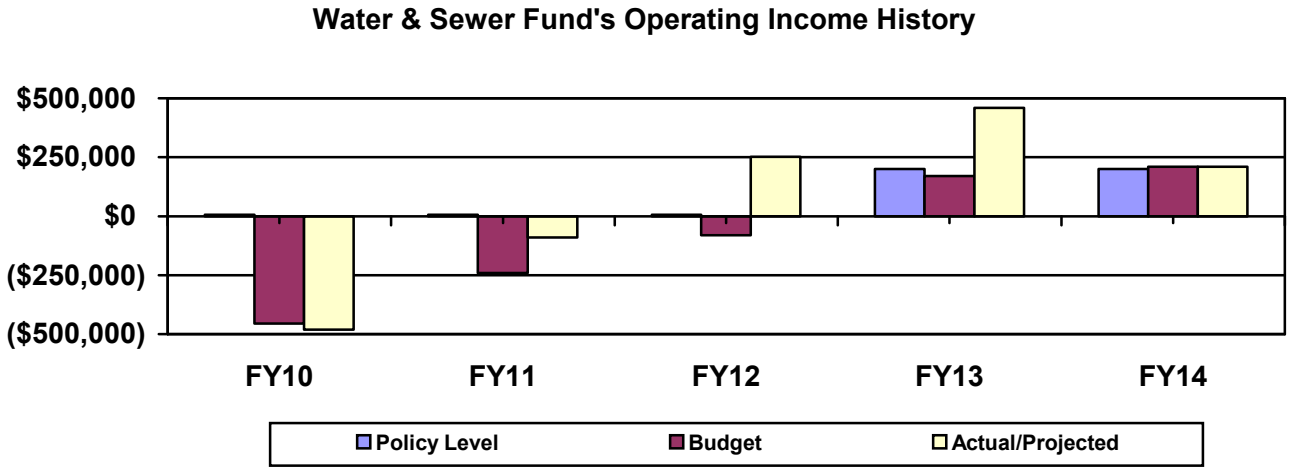


The **Community Relations & Events Fund's** fund balance is projected to decrease $50,040 or 6% from the projected FY13 EOY fund balance. According to Village fiscal policy objectives, the fund balance is to maintained at a level that equals to 25% of total expenditures, including capital outlays and other financing uses. Using this formula, a fund balance of $146,391 at April 30, 2014 is the desired goal. Projected fund balance will be $749,310 or 412% over the fiscal policy objective. Fund balance has grown over the past several years as hotel use taxes continue to provide a stable revenue stream, while at the same time, a limited number of activities have been supported by this source. In recent years though, including FY14, these monies have been and are being used to sustain, or develop new communication and promotional activities. A history of actual fund balance as compared to the policy level and budgeted fund balance follows on the next page. Additional information on the fund's revenue sources and expenses can be found in the Financial section.



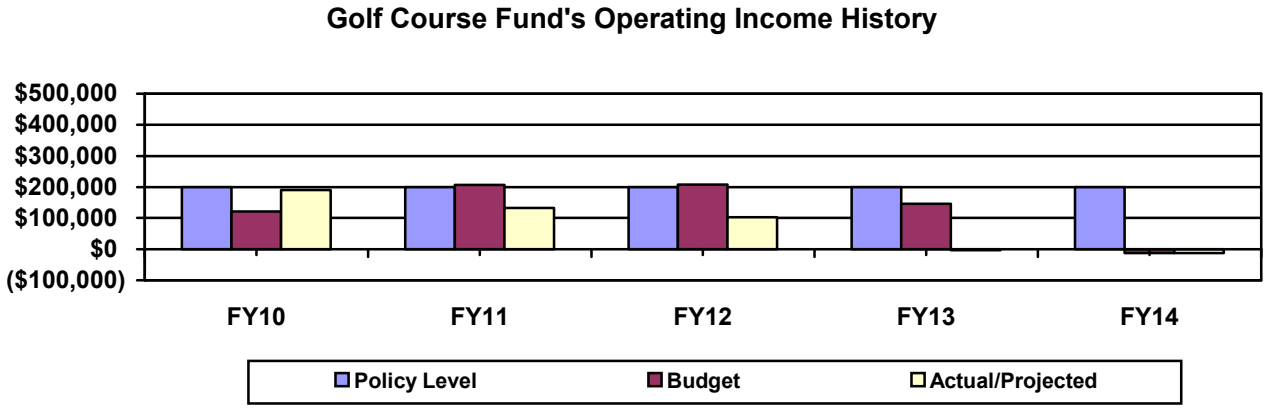
As touched-upon previously, the **Water & Sewer Fund's** fund balance is projected to decrease $35,460 or 1% from the projected FY13 EOY fund balance. According to Village fiscal objectives, the fund's focus is upon operations and working cash - versus promoting increased fund balance - and creating net income, from operations, of $200,000 before depreciation in order to ensure the delivery of a reliable potable water source and efficient and responsible treatment of wastewater. Prior to FY13, the fiscal objective was to "break-even", before depreciation, but with declining fund balances in recent years, it was foreseen that this approach was not sustainable and the objective was modified.

To monitor the fiscal health of the Water & Sewer Fund, an annual 5-Year Forecast is prepared for review during the annual budget process and it projects that the Fund will attain its objective as operating revenues will exceed operating expenses by $209,205. In determining and calculating this projection, the Village has determined that certain sources and uses of resources be included in operations such as certain long-term debt interest payments as well as non-operating revenues such as interest income. Therefore, because of this inconsistency with GAAP, operating income for fiscal objective measurement purposes typically differs from operating income represented in the Village's annual financial report and annual budget. Following is a history of actual operating income as determined from the 5-Year Forecast compared to the policy level and budget operating income. Additional explanation of the fund's revenues and expenses can be found in this Introduction and in the Financial section.



The **Golf Course Fund's** fund balance, as touched-upon previously, is projected to decrease $425,605 or 49% from the projected FY13 EOY fund balance. According to Village fiscal objectives, the fund's focus is on operations and working cash - versus promoting increased fund balance - and strives to produce net income, from operations, of $200,000 before depreciation in the effort to maintain a strong and viable recreational resource and an open space area in which the community can be proud.

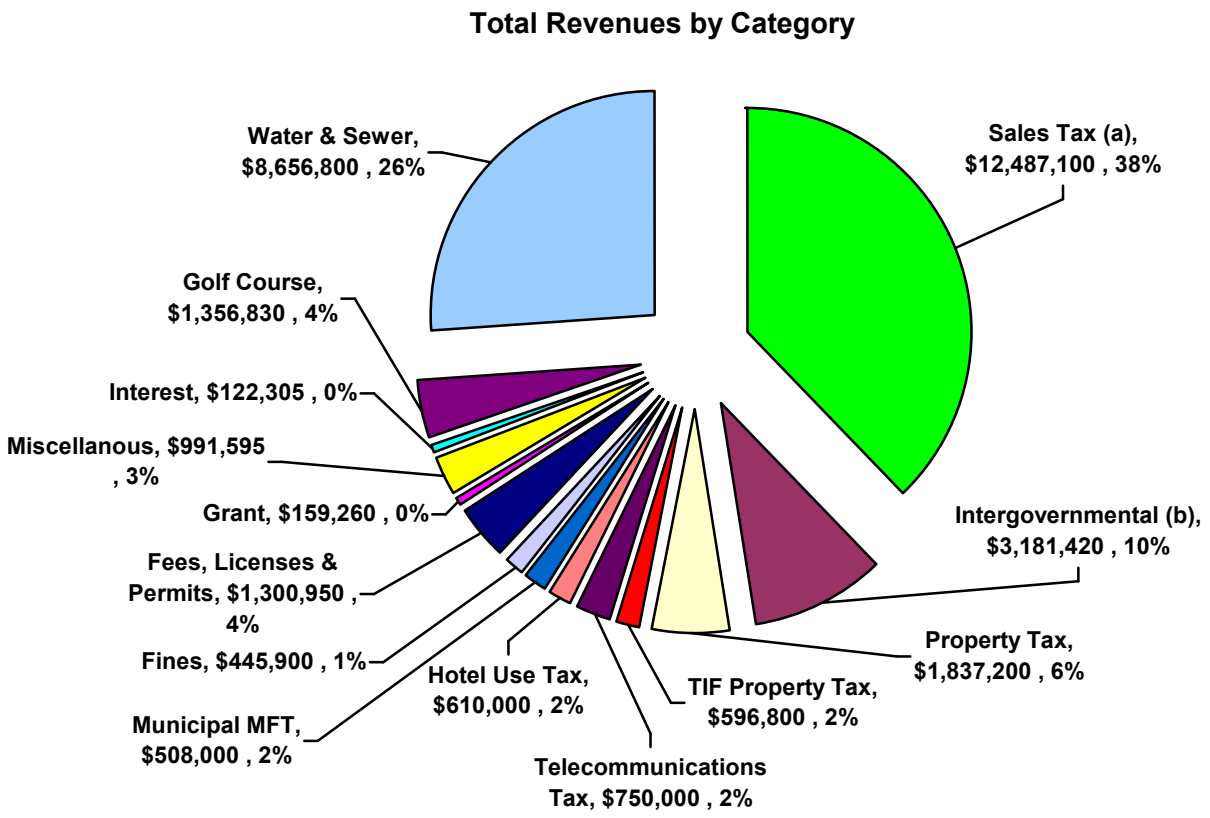
To monitor the fiscal health of the Golf Course Fund, an annual %-Year Forecast is prepared for review during the annual budget process and it projects that the Fund will not attain its objective as operating expenses will exceed operating revenues by $12,515. The overall economy, weather conditions and interest in golf will have significant influences on the whether the Fund will be able to perform as projected. In determining and calculating results from operations, the Village has determined that certain expenses categorized as operating expenses for GAAP purposes may be classified as capital outlay for measuring attainment of its fiscal policy objective. Therefore, operating income for fiscal objective purposes typically differs from operating income represented in the Village's annual financial report and annual budget. Following is a history of actual operating income as compared to the policy level and budget operating income. Additional explanation of the fund's revenue and expenses can be found later in this Introduction and in the Financial section.



We are grateful that the economy appears to have stabilized and that national economic data is producing "whispers" of improvement giving hope for a stronger local economy in the near future; however, it seems that with the release of a few positive economic reports, a negative report is released that instills enough caution to signal a reason to temper any excitement. Until the "whispers" of economic strength are manifested in actual positive results as demonstrated primarily through sales tax, income tax and real property value growth, a cautious and conservative approach is being applied to the revenue projections in the FY14 budget.

Total Village revenues in FY14, from all sources, are projected to be $33.00 million. The following graph depicts the various sources of revenue grouped in major categories. Further explanation of these major categories and the specific revenues of each and the projections for FY14 are found further in this Introduction section.

A long-standing, fundamental policy of the Village Board is the reliance upon the vast retail sales tax base to produce and provide a substantial portion of the funding for the annual budget. The graph below illustrates the diversity of the Village's revenue sources and how this policy is being achieved. Additional detail about sales tax and other revenue sources can be found further in this Introduction section.



(a) - Includes the Village's 1% share of the State sales tax, the .50% home rule sales tax and Business District sales tax
(b) – Includes income tax, use tax, State motor fuel tax, games tax, and personal property replacement tax

Similar to prior years, the Village will, once again, be able to authorize property tax abatements and the FY14 budget includes "setting-aside" over $2.66 million for this purpose. The abatements are associated with the debt service of three (3) separate General Obligation (GO) bond series issued for specific projects. Prior to the approval and issuance of each series of GO bonds, policy discussion and comprehensive financial analysis took place that culminated in an overall funding approach that would not burden the property tax levy. Even though the GO bonds hold a pledge of property taxes as security, the Village Board has never envisioned levying the tax. The GO debt was issued solely to obtain the lowest cost of money possible at the time the debt was issued. The abatements will save each property owner considerable amounts in real estate taxes. For example, abatements approved in FY13 are projected to result in a savings of approximately $254 to a typical single family residence for taxes to be paid in 2013. Similar savings are projected to occur in 2014 and the primary conduit used to achieve the savings is the Village's home rule sales tax.

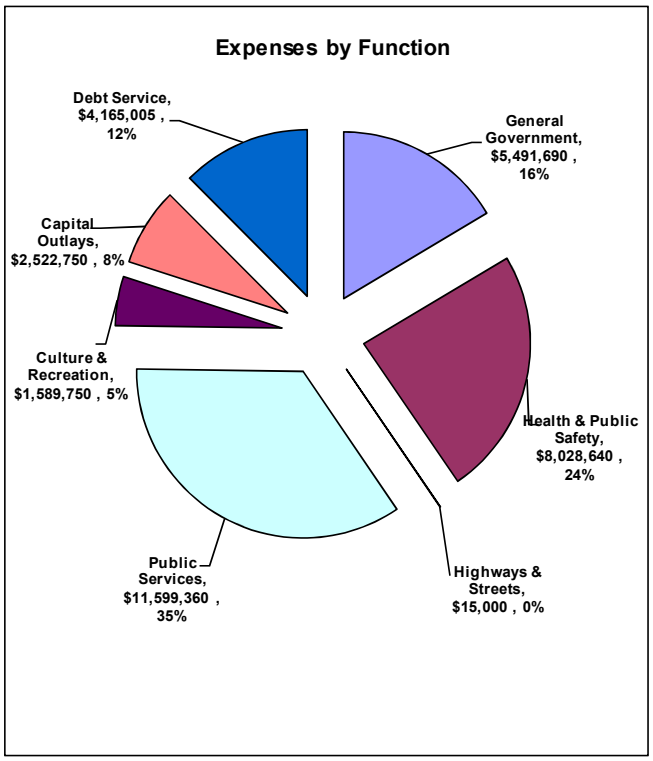
The Illinois Department of Revenue continues to be tardy on its payments to the Village, more specifically income tax payments. In an effort to address this, the Village, and the other members of the DuPage Mayors & Managers Conference (the "DMMC"), must be very vigilant in convincing the General Assembly to require the timely distribution of monies to units of local government and, further, not to divert or eliminate any other municipal revenue, including income tax payments, for its own programs, as this could severely impact this budget proposal. For FY14, the shared income tax revenue has been budgeted at $1.88 million, which equates to approximately 12% of overall General Fund expenses. Additional detail into this revenue source can be found further in this Introduction section.

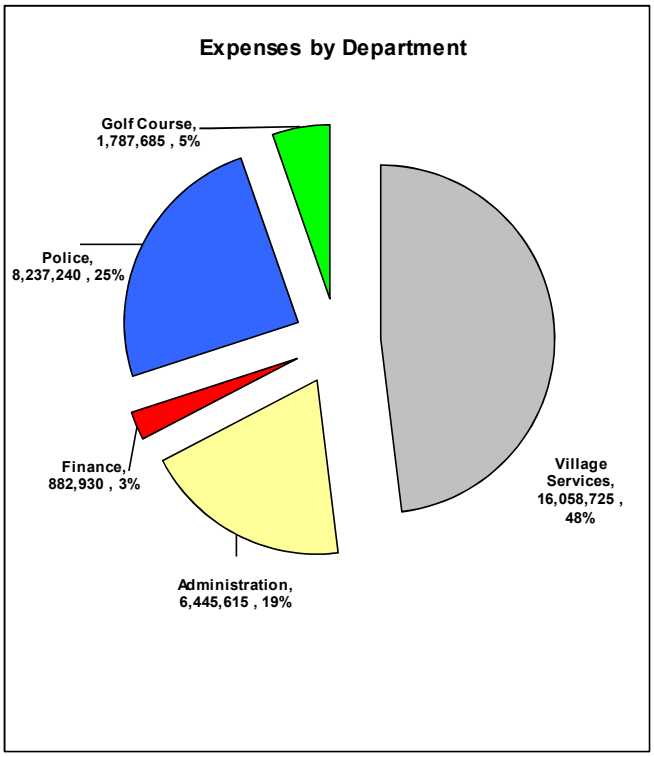
At the Federal level, concerns also exist that certain actions taken in Washington D.C. will negatively impact the Village's ability to operate autonomously and for the direct benefit of the community. The series of Federal budget cuts, otherwise being referred to as "the sequester", that took effect March 1st could eventually trickle-down and adversely affect the Village. Although no immediate, direct impact has been or is expected to impact the FY14 budget, the long-term potential of balancing the State or Federal budgets at the burden of local government is a real concern.

The day-to-day execution of the Village's Vision and Mission Statements is accomplished by a work-force of 130.89 full-time equivalent (FTE) employees employed in forty-eight (48) different position titles. As a service organization, it is through its human resource that the Village has become and continues to be a vibrant community. Actions taken over the past several fiscal years, in reaction to the national recession and an on-going awareness of a need to maintain a structurally balanced budget, have reduced the number of FTEs from a high of 149.78 in FY08. We are confident that these reductions have been absolutely necessary to maintain reasonable service levels to the satisfaction of our residents. We are proud of the dedication and the continued quality of work of our employees in their continuing efforts of serving the community.

As of January 31, 2013, eighty-one (81) or 63% of all employees were members of a collective bargaining unit and forty-seven (47) or 37% of all employees were not represented. Additional information on the collective bargaining units can be found in the Narrative section. Three (3) of the four (4) collective bargaining agreements are current, while one (1) has expired. This means that forty-five (45) or 56% of represented employees are "under contract". The reliability of projecting related personnel costs is greater for those employees "under contract" than for those employees whose collective bargaining agreement remains in negotiations. As such, the FY14 budget does not reflect costs of any wage adjustments for employees not "under contract" nor does it reflect costs related to any potential adjustment to the compensation plan for non-represented employees.

Total Village expenses are projected to be $33.41 million. The following graphs depict how the Village allocates its financial resources toward accomplishing its Vision. One graph delineates expenses by function and the other by department. Further explanation of expenses and the projections for FY14 are found further in this Introduction section.





As one might expect in a service organization, personal services represent a significant portion - 55% - of the Village's total operating costs. Personal services includes not only wages, salaries and overtime, but also the costs of providing benefit insurance and statutorily required employer pension contributions. The Village provides a State sponsored defined benefit plan for all qualifying civilian employees (Illinois Municipal Retirement Fund or IMRF) and maintains a local defined benefit plan (Police Pension Fund) for sworn officers. As was previously mentioned, certain actions have been taken to control personal services costs, including the consolidation of emergency dispatch operations through an Intergovernmental Agreement with the neighboring Village's of Addison and Bensenville effective December 1, 2012. Additional information about this action can be found in the Narrative section.

A new operational and financial challenge emerged in 2010 and continues to impact the FY14 budget. Throughout the entire Chicago suburban area, the emerald ash borer (the "EAB") is causing devastation to the urban forest. This green beetle, which is native to Asia, has intruded North America as an invasive species and has become highly destructive to ash trees. It bores into the ash trees and feasts on the cambium layer of the tree, ultimately killing the tree. A response plan has been developed by the Village Services department, but at a high price to the Village, not only in terms of direct dollars spent but also in terms of personnel resource time, community aesthetics and even increased energy costs to residents and businesses due to the removal of the tree-shade canopy. Ultimately, the entire Village ash tree inventory must be replaced over a 15-year period. The FY14 budget includes $99,500 for this effort with more information available about this endeavor in the Narrative section.

Home rule sales tax revenues continue to provide flexibility to pursue projects that enhance the quality of life in Bloomingdale. These monies are dedicated toward the preservation of open space, the retirement of debt, the construction of recreational pathways and other capital improvements such as roadways and any other use deemed appropriate and necessary by the Village Board. The FY14 budget includes over $3.76 million to be used to fund no less than eleven (11) different projects. A summary and brief history of the projects funded by this revenue source follows.

Summary of Home Rule Sales Tax Uses & Sources

		FY11	FY12	FY13	FY14
	Uses				
[1]	G.O. Bond Debt Service - golf course	$ 1,091,950	1,130,600	1,064,200	1,084,050

The Village of Bloomingdale Board of Trustees
Approved FY14 Budget
May 13, 2013

In the past, and continuing in FY14, the Village has postponed or deferred some operating and capital purchases and projects in order to work toward and sustain an operating surplus and reasonable fund balances. A "deferred" expense is one that has been incurred in the past or was expected to be incurred in FY14 but because of financial constraints it is being postponed to a future fiscal year and is not being included in the FY14 budget. A deferred expense can pertain to an ongoing, operational expense, project or program or it can pertain to a one-time capital expense, project or program. It is not an expense that was reduced, eliminated or cut from the budget. A listing of these expenses can be found in the Financial section. We believe there is sound justification – both financial and operational - for deferring these expenses to a future fiscal year and no negative consequences are being created.

Significant effort has been dedicated to the preparation of this budget document by the Department Directors and many other staff members and they are all to be commended for their input, diligence and perseverance in compiling this budget. We wish to further recognize their efforts and dedication throughout each and every day for the work they do serving Bloomingdale.

Respectfully submitted,

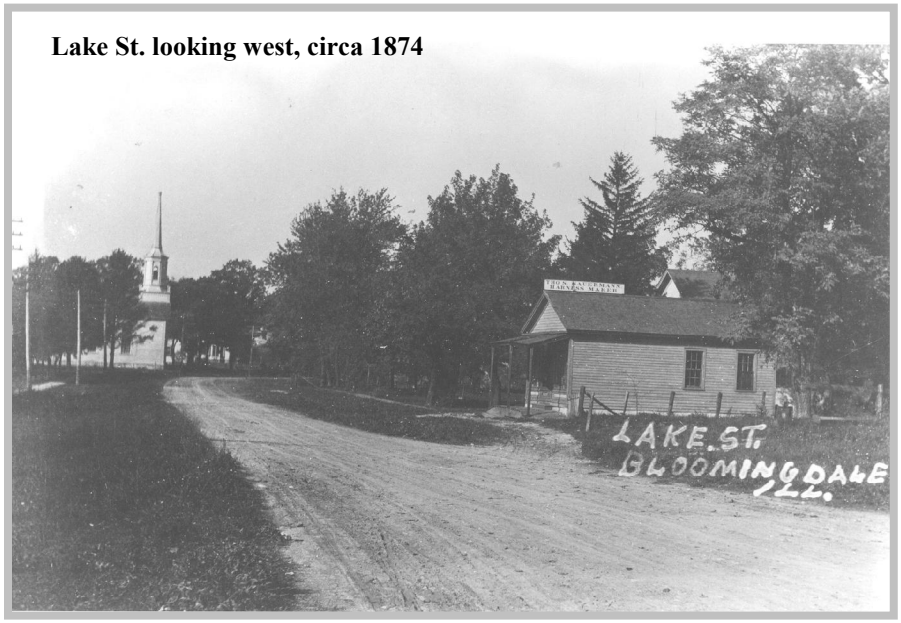
VILLAGE OF BLOOMINGDALE, IL

Franco A. Coladipietro, Village President

Martin J. Bourke, Village Administrator

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

The Village traces its name and founding to a family of settlers whose name was also given to the Township. The Bloomingdale family settled in a grove, named Bloomingdale Grove, just east of an area known as Meacham's Grove. The brothers Lyman, Silas and Harvey Meacham started farming an area of 1,200 acres of land in 1833 in an area now known as Medinah. By 1837 a post office was established and in 1845 the area that is now known as the Village of Bloomingdale, Roselle, and unincorporated Medinah became the third town platted in the newly formed county of DuPage, Illinois. In 1849, the area's first permanent building, a Baptist church, was built. Around 1873, the Chicago and Pacific Railroad came through the northern part of the newly platted town bringing additional settlement and retail activity to an area already graced with two boot and shoemakers, a men's clothier and tailor shop, two carpenters, a wagon maker/blacksmith and a cheese factory. Several original buildings have been restored and still stand in an area known as "Old Town." In the early 1900s, Bloomingdale and neighboring Roselle shared library books and a fire engine, alternating their locations every six months. In 1922, the villages separated and reincorporated individually; Bloomingdale in 1923. Bloomingdale remained a small farming community until the post World War II growth of the 1950s, when the population almost quadrupled from 338 residents in 1950 to 1,262 in 1960



Lake St. looking west, circa 1874

The 1960's saw the creation of a full-time police department and in 1975 the Village's library opened at the corner of Bloomingdale Road and Fairfield Way. In the late 1970's, Indian Lakes Resort was completed, featuring more than 300 guest rooms and 36 holes of championship golf. Stratford Square Mall opened its doors on March 9, 1981 to a 1.3 million square foot indoor shopping mall that included six anchor tenants. In 1996, the Village purchased the 72 year old Glendale Golf Course, with a commitment to create a challenging course with outstanding amenities within a country club-like setting and in the fall of 1998 course renovations were completed.

Today, the Village encompasses approximately seven (7) square miles of land and has an estimated 2011 population of 21,952. With its convenient location, approximately twenty-five (25) miles west of the City of Chicago, activity abounds from business and residential development and renovation to recreational activities and convenient access to shopping. The 2012 assessed value is $824,496,272 which represents a $103.53 million or 11% decrease from the prior year as the Village has not been immune to the housing "bubble". According to the U.S. Census Bureau, in 2011 the median age of a Village resident was 42.4 years, the median household income was $70,173 and the average home value was $298,600. Additional "Village Profile" statistics are presented on the following page.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

BUDGET PRESENTATION - The FY14 Budget format, in respect to the financial schedules and presentation, is consistent with the Village's accounting structure which is organized to reflect its Departmental organization structure. Fundamental to the accounting structure is the concept of separate "entities" known as funds to segregate revenues that have been identified for a particular purpose of carrying on specific activities to attain certain objectives in accordance with special regulations, restrictions or limitations. Fund accounting is used to aid management in demonstrating compliance with legal and contractual provisions and fiscal accountability. Twenty two (22) funds, including a fiduciary fund, are reported in this document, although one (1) fund was closed in the prior year. The closed fund is retained herein to maintain the integrity of any multi-year comparisons or trend analysis. All active funds are guided by a formal budget.

An annual budget is best managed by focusing on near-term inflows and outflows and balances of spendable resources; however, it is also recognized that a broader, long-term perspective provides valuable information and insight into the financial and economic stability of the Village. As such, long-term planning discussions and analysis occur throughout the year and often provide the basis for the Annual Budget plan. 5-Year Forecasts are prepared annually for all Governmental Funds (excluding TIF District Funds), the Water & Sewer Fund and the Golf Course Operations Fund. The Village's budget structure and approach has not changed as a result of the Governmental Accounting Standards Board's government-wide, full accrual accounting and reporting requirements promulgated in Statement No. 34.

The Village has the following fund classifications and types:

GOVERNMENTAL FUNDS - These funds are used to account for the Village's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers all revenues available if they are collected within 60 days of year end (April 30) with the exception of income tax revenue. Due to the State of Illinois' fiscal difficulties and the resulting delay in distributing receipts to local municipalities, the 60 day availability period for state income tax receipts is extended to consistently record twelve (12) months of revenue.

Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

GOVERNMENTAL FUNDS – (continued)

The Village's Governmental funds (Fund # in parentheses) include the following:

The **General Fund** (01) – a Major Fund as defined by Governmental Accounting Standards Board (GASB) Statement No. 34. This fund accounts for most of the day-to-day operating expenditures, as well as, all of the financial resources of the Village not required to be accounted for, by federal or state law or local ordinance or intent, in another Fund.

Special Revenue Funds are used to account for resources that are legally restricted, pursuant to federal or state law or local ordinance or intent, to expenditure for specific purposes. They are:

- Motor Fuel Tax Fund (06)
- Home Rule Sales Tax Fund (07) – a Major Fund as defined by GASB 34
- Indian Lakes Resort (ILR) Business District Tax Fund (08)
- Stratford Square Business District Tax Fund (09)
- Community Relations & Events Fund (11)

Debt Service Funds are used to account for the resources necessary to service the current portion of general long-term debt of the Village, not being financed by proprietary or fiduciary funds. They are:

- Westgate TIF Notes Fund (24)
- Springbrook TIF Note Fund (25)
- 2009 General Obligation Refunding Bonds Fund (26)
- Lake St & Rosedale Ave TIF Note Fund (27)
- 2007A General Obligation Bonds Fund (28)
- 2007B General Obligation Bonds Fund (29)

Capital Projects Funds are used to account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary funds. They are:

- Capital Equipment Replacement Fund (CERF) (10)
- Building Program Fund (30)
- Army Trail Road Expansion Fund (31) (this Fund was closed in FY13 but included herein to maintain multi-year comparisons)
- Recreational Path Fund (33)
- Westgate TIF Construction Fund (34)
- Springbrook TIF Construction Fund (35)
- Lake St & Rosedale Ave TIF Construction Fund (37)

PROPRIETARY FUNDS are used to account the Village's business type activities. There are two types of proprietary funds - enterprise funds and internal service funds. The Village has two (2) enterprise funds and no internal service funds. Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting whereby revenues are recorded when earned and expenses are recorded at the time the liability is incurred. However, for budget purposes, the Village focuses on near-term inflows and outflows and balances of spendable resources. As such, debt, debt payments and capital expenses of Proprietary funds are budgeted on a cash basis.

The Village's Proprietary Funds include the following:

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business, or where the Village Board has decided that the determination of revenue earned, costs incurred and/or net income is necessary for management accountability. They are:

- **Water & Sewer Fund** (40) accounts for all resources used to operate and supply water to Village residents, as well as the collection and treatment of wastewater. Revenue sources include usage charges, connection fees and investment income.

- **Golf Course Operations Fund** (45) accounts for the resources used in maintaining and operating the Bloomingdale Golf Club. Revenue sources include greens fees, cart and golf club rentals, practice range fees, pro shop sales, rental income and investment income.

FIDUCIARY FUNDS account for assets held by the Village in a trustee capacity or as an agent on behalf of others. One type of fiduciary fund is a Pension Trust Fund. This fund accounts for assets held by the Village under the terms of a formal trust agreement. The Police Pension Fund Board of Trustees approves an annual budget for the Fund and it is included in this document. The Village Board of Trustees does not have discretion over this budget or the monies in the fund. As such, all amounts and balances are excluded from financial schedules and other discussion in this document.

The Village's Fiduciary Fund includes the following:

- The **Police Pension Trust Fund** (68)

Financial transaction activity is recorded using an **Account Structure** devised to reflect the Village's organization chart. It consists of a Fund designation, a Department, a Division and a Subdivision. A *Department* is a major organizational unit, which has management responsibility for one or more Divisions and/or Subdivisions. A *Division* is an organizational unit of a Department with operational responsibility for a specific function. A *Subdivision* is a further delineation of a Division that has operational responsibility for a specific function. Furthermore, *account numbers*, which are the smallest unit of budgetary accountability and control, are used to record specific and distinguishable activities performed by an Organizational Unit.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

BUDGET CONTROL - The budget is approved by the Village Board of Trustees and is employed by management as a control tool throughout the year. Budgeted amounts may be legally exceeded without the approval of the Village Board, provided the total amount expended from any single Fund does not exceed the amount set forth in a separate, appropriation ordinance. Management is accountable for exceeding budgeted amounts. Pursuant to Statutory provisions, the Village derives its legal spending authority and limit from its Appropriations Ordinance. If required, the Village Board of Trustees may approve budget transfers throughout the year and they may approve a supplemental appropriation ordinance, provided certain other conditions exist.

An overview of the process adhered to in approving the annual budget and passing the appropriation ordinance entails:

1. A proposed budget is prepared by the Village Administrator and Department Heads and is reviewed by the Village Board through a series of public meetings.
2. The proposed budget is amended as needed and approved by a Resolution of the Village Board.
3. An annual appropriation ordinance is prepared based upon the approved budget.
4. The appropriation ordinance, subsequent to a public hearing, is passed and approved by the Village Board prior to the end of the first quarter of the fiscal year. This deadline is prescribed by State Statute.

At the March 25, 2013 meeting, the Village Board approved the following timeline, as amended, to approve the annual budget and pass the annual appropriations ordinance.

Date	Focus	Action
Week of September 4, 2012	Budget	Release line items and distribute prior year final Narratives to Staff to begin preparation of FY14 Budget
No later than October 5, 2012	Tax Levy	Receive preliminary Police Pension tax levy
October 15, 2012 SCOW meeting	Tax Levy	Present and discuss Estimated Tax Levy
November 1, 2012	Budget	All Departments complete preliminary FY13 End-of-Year estimates and FY14 Budget estimates
November 12, 2012 Village Board meeting	Tax Levy	Announce and Approve (i.e. – Levy Determination) 2012 Estimated Tax Levy
No earlier than November 26, 2012 & No later than December 2, 2012	Tax Levy	Publish Truth in Taxation Act Public Hearing notice
December 3, 2012 SCOW meeting	Budget & Tax Levy	• Present Preliminary Budget Indication for Governmental Funds • Discuss 2012 Tax Levy • Present 5-Year Forecast for the Golf Course Fund
Week of December 3, 2012	Budget	Village Administrator meets with Department Heads and Finance Director to review Department Budgets
December 10, 2012 Village Board meeting	Tax Levy	• Hold Truth in Taxation Act Public Hearing • Adopt 2012 Tax Levy Ordinance

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

Date	Focus	Action
No later than December 25, 2012	Tax Levy	File 2012 Tax Levy with the DuPage County Clerk
December 28, 2012	Budget	Draft Budget Narratives are due to Village Administrator with a copy to the Finance Director
January 31, 2013	Budget	• Final Budget Narratives due • "Lock-Down" line items and begin production of the Draft Budget document • Department Heads submit future Capital Outlay plans for inclusion in 5-Year Forecasts
No later than March 11, 2013 Village Board meeting	Tax Levy	Discuss, Approve and File 2012 Tax Levy Abatements with the DuPage County Clerk
March 8, 2013	Budget	Draft Budget is released and made available for review at Village Hall, Library and on the Village Website
March 18, 2013 SCOW meeting	Budget	• Overview of FY14 Draft Budget • Discuss Administration, Finance and Police Department Budgets
March 18, 2013 SCOW meeting	Budget	• Overview of FY14 Draft Budget • Discuss Administration, Finance and Police Department Budgets
April 1, 2013 SCOW meeting	Budget	Discuss Village Services Budget
April 15, 2013 SCOW meeting	Budget	• Discuss Village Services Budget, if necessary • Present 5-Year Forecast for the Governmental Funds • Present 5-Year Forecast for the Water & Sewer Fund
April 22, 2013 Village Board meeting	Budget	• Discuss 5-Year Forecasts, if necessary • Discuss any and all Outstanding Budget Items
Week of April 29, 2013	Appropriations Ordinance	Distribute draft Appropriations Ordinance to Department Heads for review
No later than April 29, 2013	Open Meetings Act	Make available statutorily required Compensation report and post notice of availability on Village Website
No later than May 10, 2013	Appropriations Ordinance	Department Heads submit comments on draft Appropriations Ordinance to Finance Director
May 13, 2013 Village Board meeting	Budget	Approve FY14 Budget
No Later than June 13, 2013	Appropriations Ordinance	• Proposed Appropriations Ordinance made available for Public Inspection • Publish Notice of Public Hearing
June 17, 2013 SCOW meeting	Appropriations Ordinance	Present Proposed Appropriations Ordinance
June 24, 2013 Village Board meeting	Appropriations Ordinance	• Hold Public Hearing on Proposed Appropriations Ordinance • Approve FY14 Appropriations Ordinance
Within 30 days of adoption but no later than July 31, 2013	Appropriations Ordinance	File Appropriations Ordinance with DuPage County Clerk

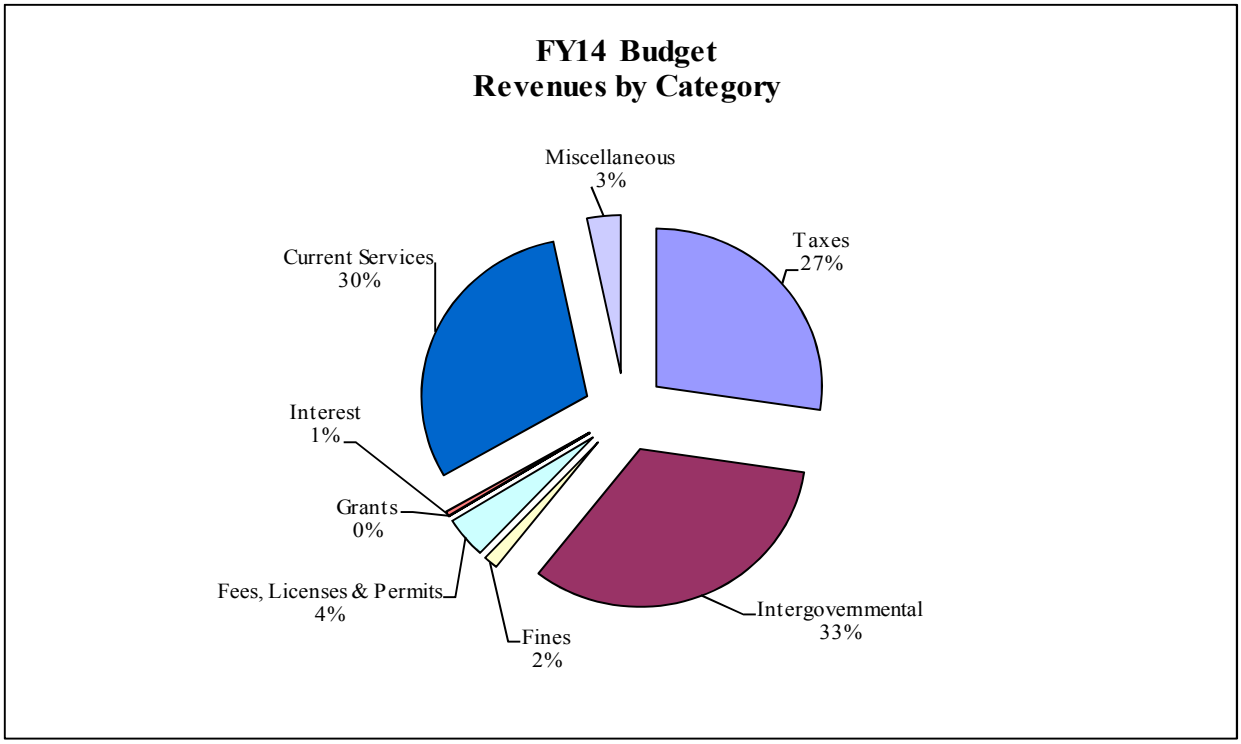
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

REVENUES - The Village's total budgeted revenues for FY14 are $33.00 million, which represents a $1.29 million or 4% increase over the FY13 budget and an $85 or 0% increase over the estimated FY13 End-of-Year (EOY) projections.

The Village derives its revenues from a variety of individual sources which are grouped into eight (8) broad categories to facilitate administration and reporting. For budgetary purposes, revenues are estimated using a current financial resources measurement focus, the objective of which is to report near-term inflows of financial or spendable resources. Further discussion on major revenues within each category is detailed below and on the ensuing pages.

Revenues by Category - All Funds

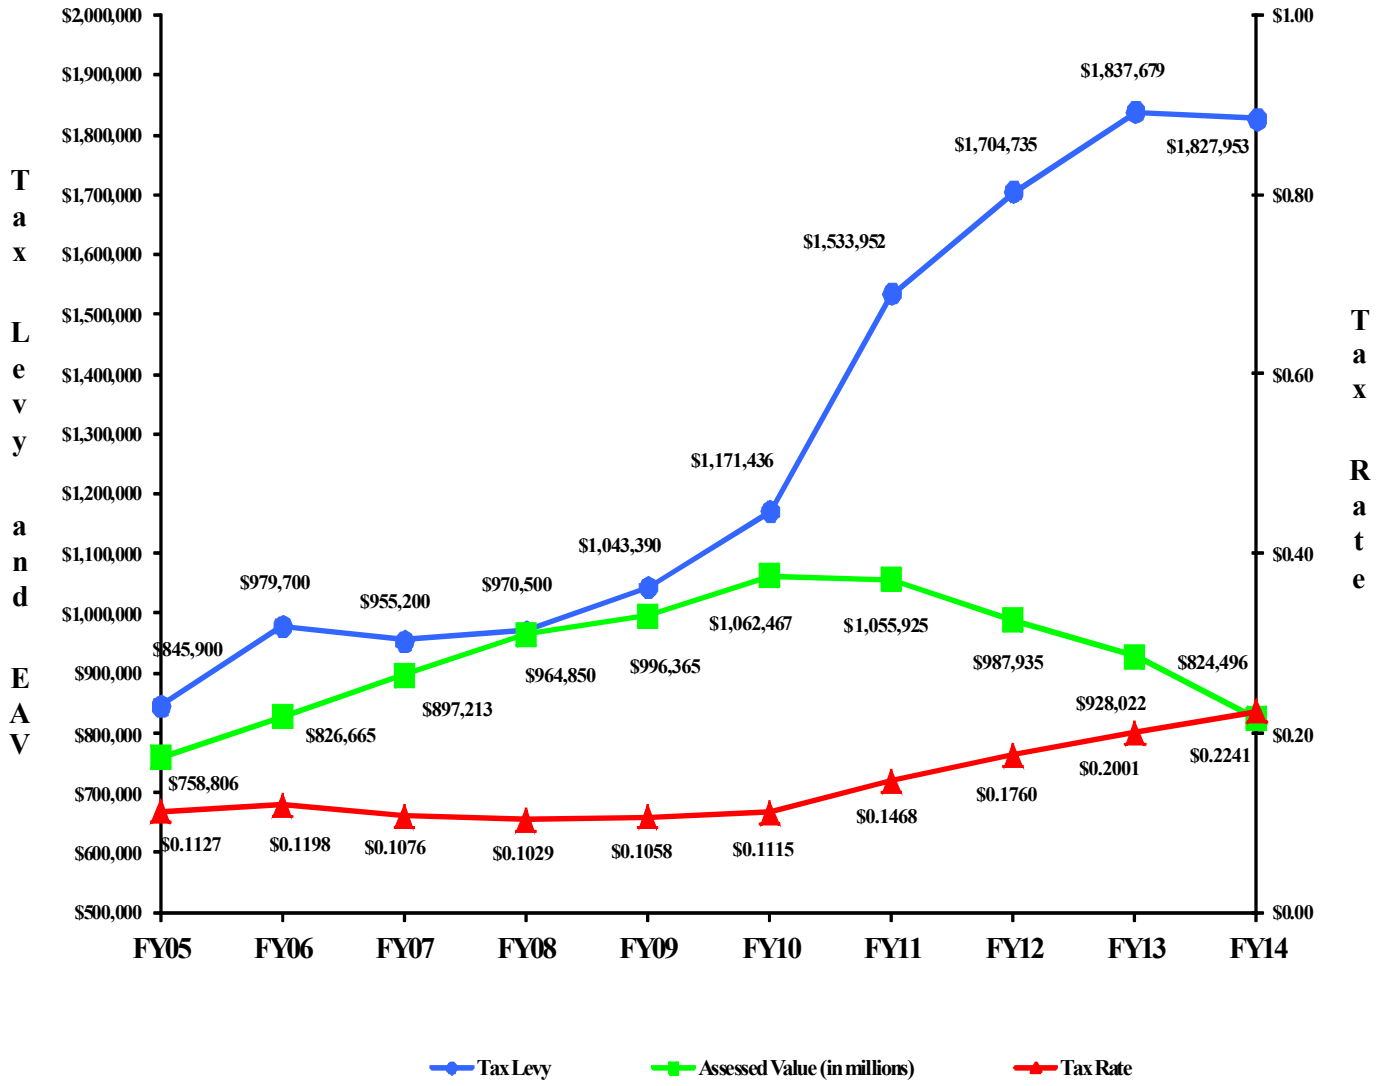
Category	FY13 Budget	FY13 EOY	FY14 Budget
Taxes	$ 8,677,025	8,887,280	8,878,000
Intergovernmental	10,520,170	10,935,390	11,092,520
Fines	445,900	441,240	445,900
Fees, Licenses & Permits	1,332,600	1,466,545	1,300,950
Grants	10,500	287,155	159,260
Interest	147,105	102,250	122,305
Current Services	9,540,810	9,683,370	10,013,630
Miscellaneous	1,035,455	1,200,845	991,595
Total Revenues	**31,709,565**	**33,004,075**	**33,004,160**



Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

TAXES include monies generated from locally imposed or required contributions from persons, groups or businesses within the domain of the Village. Major sources within this category include property taxes, Tax Increment Financing (TIF) District incremental property taxes, home rule sales taxes and telecommunication taxes. Taxes are budgeted to provide $8.88 million or 27% of total budgeted revenue in FY14, which represents a $200,975 or 2% increase over the FY13 budgeted taxes. A brief discussion describing the significant taxes follows:

- **Current Property Tax –** The 2012 property tax levy, which will be collected in FY14, is $1.83 million, which represents a $9,726 or less than 1% decrease from the prior year. This levy amount combined with the decrease in EAV referenced earlier in this Introduction is projected to result in a tax rate of $.2241 per $100 of assessed value versus the prior year's tax rate of $.2001 per $100 of assessed value. The following graph depicts a ten-year history of the property tax levy, assessed value and tax rate.



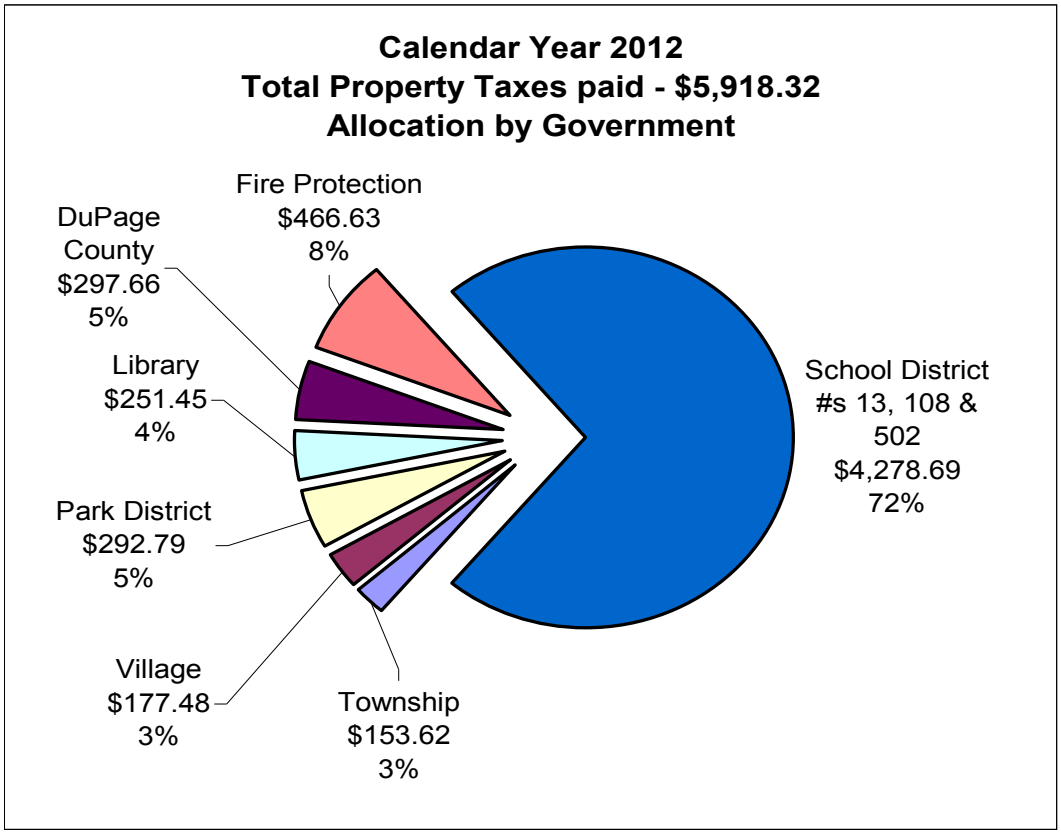
TAXES - continued -

- **Current Property Tax (continued) –** Detailed components of the tax levy include:

  1. The **Corporate Levy** is $809,000 and is being used to finance statutorily required, non-sworn employee pension benefits (i.e. – IMRF) and general corporate expenses. This tax levy decreased by $23,000 or 3% from the prior year, and

  2. The **Police Pension Levy** is $1.02 million and is being used to finance statutorily required sworn employee pension benefits. This tax levy increased by $13,274 or 2% over the prior year. The Village is required to fund the Police Pension Fund per 40 ILCS 5/3-125, the amount of which is determined by an independent actuary.

  The Village is just one of several government entities levying a property tax. The chart below is a representation of the property taxes paid in calendar year 2012 based on a home having a 2011 market value of $284,116. It reflects the various governmental units that assess a property tax and the amount paid to each governmental unit based on a total property tax bill of $5,918.32. The Village expects a similar distribution to occur in calendar year 2013.



TAXES - continued -

- **Current Property Tax (continued) –** The Village has three (3) TIF districts which were created to provide incentive for development. When establishing a TIF, the equalized assessed value (EAV) of the property within the district is "frozen." When development occurs, the property's value increases over-and-above the frozen value and the difference between the frozen EAV and the new, "developed" EAV is known as the increment. The property taxes resulting from this increment are paid to the Village, deposited into the respective TIF Fund, and used to service related debt or to pay development costs. The Village's TIFs are:

  Springbrook TIF - This district was created in 1999 to revive a shopping area. It is located along Lake Street and Ridge Avenue and has a revised frozen EAV of $1,428,230 and a 2012 current EAV of $3,805,250. It is scheduled to expire in FY24.

  Westgate TIF - This district was created in 2003 to foster residential and commercial development. It is located along Lake Street and Rosedale Avenue and has a revised frozen EAV of $1,004,000 and a 2012 current EAV of $6,059,740. It is scheduled to expire in FY27.

  Lake Street and Rosedale Avenue TIF – This district was created in 2006 to foster a retail bank development. It is located at the northeast corner of Lake Street at Rosedale Avenue and has a frozen EAV of $139,240 and a 2012 current EAV of $521,060. It is scheduled to expire in FY29.

- **Telecommunications Tax** applies to the privilege of originating or receiving intrastate and interstate telecommunications and DSL services purchased, used, or sold by a provider of internet access or to provide internet access. DSL services purchased, used, or sold by a non-provider of internet access are also subject to the tax. The Village uses this tax to support general corporate expenses of the General Fund.

  The tax became effective in FY11, more specifically July 1, 2010. In response to resident concerns that arose during the approval process, the Village Board agreed to review the need for the tax on an annual basis in conjunction with the review of the annual budget. It is believed that the information contained herein provides sufficient evidence of the need to continue the tax.

  The FY14 budgeted revenues are $750,000 which represents a $34,000 or 4% decrease from the FY13 budget. The aggressive marketing campaigns, bundling of services and pricing policies of the service providers coupled with household's evaluating and eliminating unnecessary expenses may be impacting the tax "base" and may provide an explanation for the decline or lack of growth in this revenue source. Through February 2013, State-wide total tax receipts have declined 1% year-over-year and neighboring communities are experiencing, average, year-to-date declines of 7% and have experienced average declines of 3% per year over the past three (3) fiscal years.

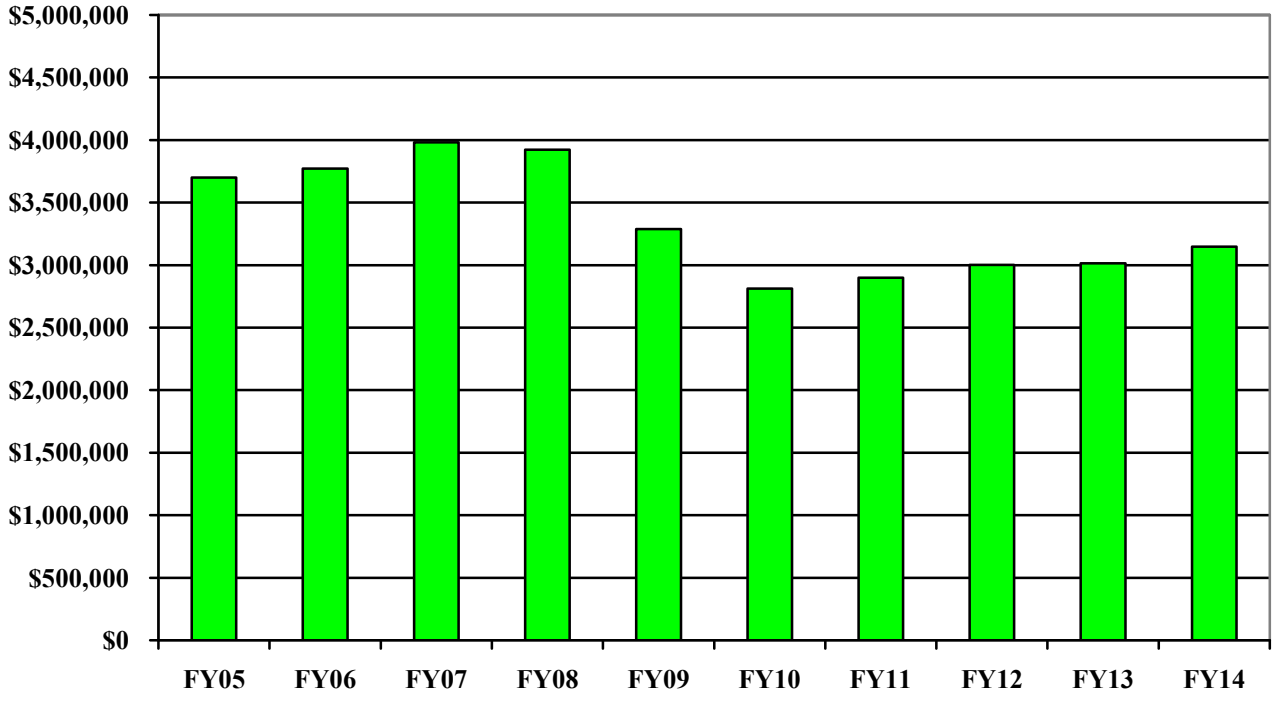
TAXES - continued -

- **Home Rule Sales Tax** was originally approved at a rate of .25% in October 1996 and then subsequently increased to .50% in March 2002 where it currently stands. It provides the revenue necessary to pay the annual principal and interest requirements on Village debt obligations, more specifically debt issued to acquire the Bloomingdale Golf Club, open space property adjacent to Indian Lakes Resort and $600,000 annually toward the Water & Sewer Fund's 2008 IL EPA loan. Further, it is committed to provide resources toward open space preservation, recreational pathway construction, roadway improvements and other capital improvements, as deemed necessary.

  The FY14 budgeted revenues are $3.15 million which represents a $134,000 or 1% increase over the FY13 budget. This revenue source has experienced average monthly growth of 3% over the past twenty four (24) months with only four (4) of those months reflecting a year-over-year decline. This general stability from local retail sales activity is providing confidence to derive the FY14 budget while recognizing the tepid economic recovery.

  The Illinois Department of Revenue (IDOR) collects theses taxes and pays them to the Village on a monthly basis. Actual receipt of these revenues "lag" the "point of sale" date by three (3) months and fluctuate in amount paid on a monthly basis, due to seasonal retail sales activity.

Home Rule Sales Tax History



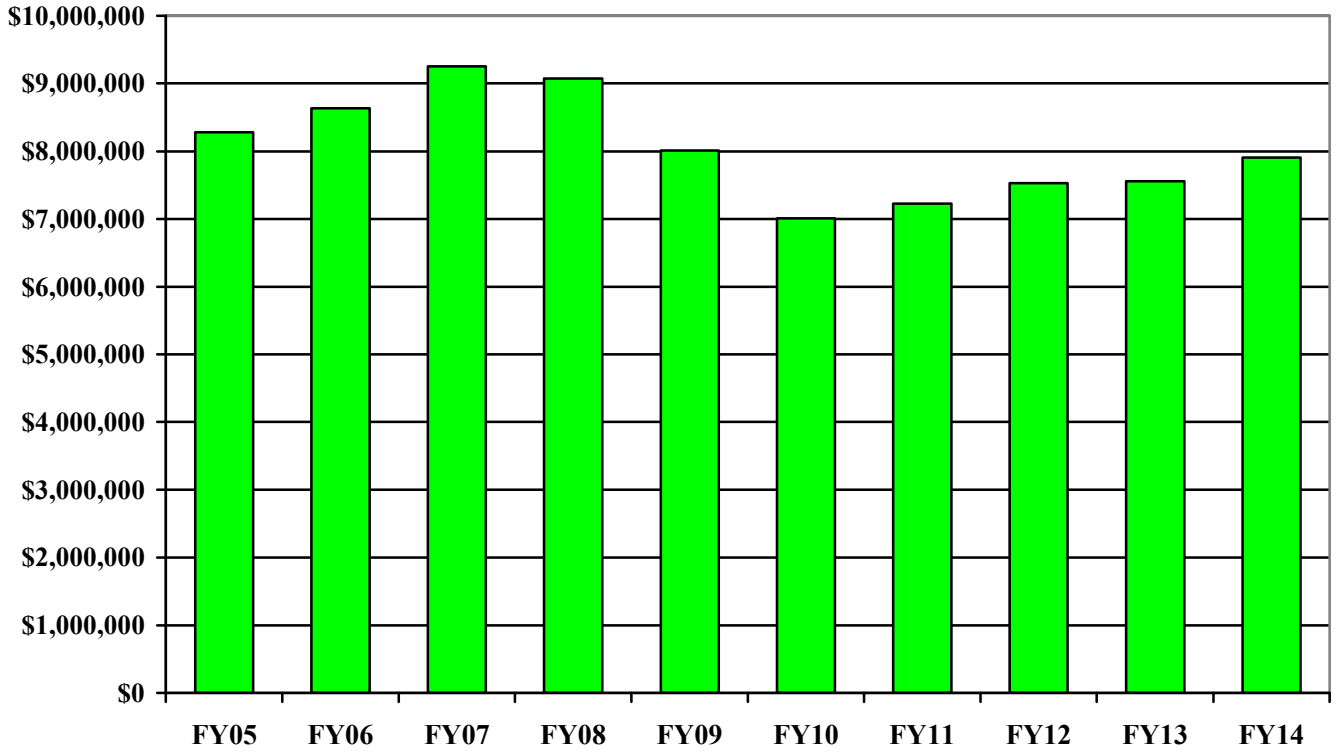
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

INTERGOVERNMENTAL includes revenues received from other governments, primarily the State of Illinois. These revenue sources are imposed by other governments and, for various reasons, shared with the Village. Major sources within this category include the Village's share of the State sales and income tax. Intergovernmental revenues are budgeted to provide $11.09 million or 34% of total budgeted revenue in FY14 which represents a $572,350 or 5% increase over the FY13 budgeted intergovernmental revenues. A brief description of the significant components of intergovernmental revenues is as follows:

Sales Tax – The State of Illinois levies a 6.25% state-wide sales tax, of which 1% is remitted to the Village on a "point of sale" basis, meaning that the location of the "sale" determines the recipient (i.e. - municipality) of the tax. The FY14 budgeted revenues are $7.91 million which represents a $352,100 or 5% increase over the FY13 budget. This revenue source has experienced average monthly growth of 3% over the past twenty four (24) months with only four (4) of those months reflecting a year-over-year decline. Additionally, it is projected that the expansion of Wal-Mart (see Narrative section discussion) will enhance these receipts. The general stability from local retail sales and development activity is providing confidence to derive the FY14 budget while recognizing the tepid economic recovery. Individual companies or isolated sectors of the Villages' retail base may experience varied results.

The IDOR collects the tax from retailers and remits it to the Village on a monthly basis. Actual receipt of these revenues "lag" the "point of sale" date by three (3) months and fluctuate in amount paid on a monthly basis due to seasonal retail sales activity.

Sales Tax History



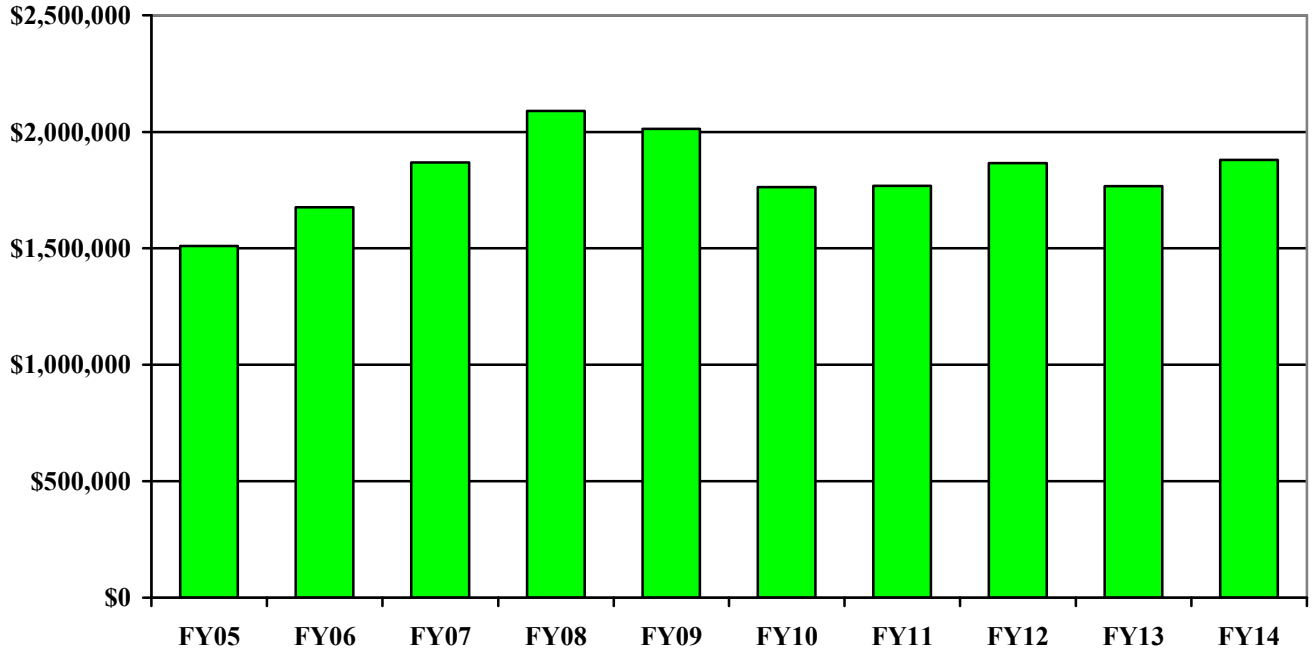
INTERGOVERNMENTAL - continued -

- **Income Tax** - The State of Illinois taxes the privilege of earning or receiving income within, or as a resident of, the State. The Village anticipates receiving approximately 6% of the net, personal income tax and 6.86% of the net, corporate income tax revenue received by the State.

  The FY14 budgeted revenues are $1.88 million which represents a $113,000 or 6% increase over the FY13 budget. This revenue source has experienced average monthly growth of 5% over the past twenty four (24) months with only six (6) of those months reflecting a year-over-year decline with three (3) of those six (6) months dating back to 2010. A continuing improvement in the business climate and labor markets is providing some confidence to the increased budget outlook while also recognizing the tepid economic recovery. It is cautioned that should the State legislature act and divert any of the Local Government Distributive Fund monies, the budget projection may have to be revised.

  Income taxes are based on a per capita calculation. The FY14 budget equates to $85.38 per capita based on the 2010 census of 22,018. IDOR pays income tax revenues to the Village each month typically "lagging" the actual receipt of the revenues by the State by one (1) month. Monthly payments fluctuate based upon individual and corporate earnings and various tax-filing deadlines. In recent years, due to the State of Illinois' extreme financial stress, payments have been approximately three (3) to four (4) months in arrears and cumulatively amount to $450,000 – $650,000. The Village has been able to adjust to the decreased cash flow.

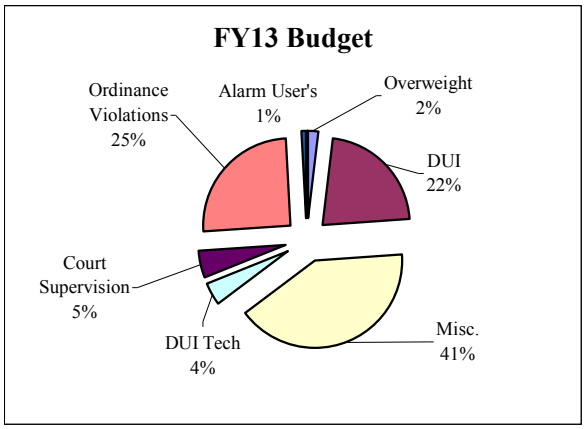
Income Tax History

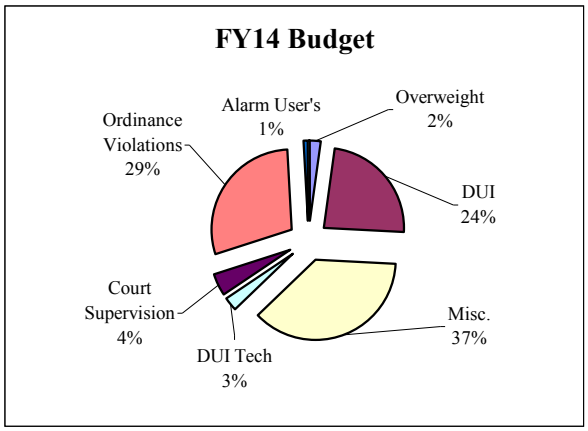


Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

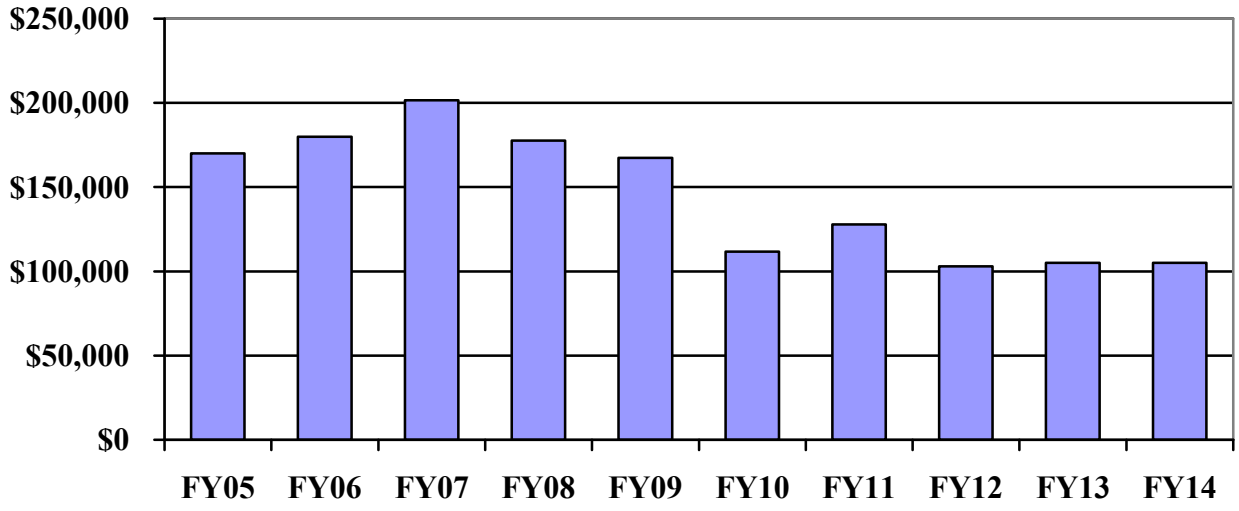
FINES – Village ordinances and state law provide for fines to be assessed for the violation of local ordinances and state laws. Major sources within this category include ordinance violation revenues generated by situations such as parking violations and false alarm fines. Court fines are collected by the Clerk of the 18th Judicial Circuit Court for citations such as overweight vehicle violations, speeding violations and DUI convictions. Fines revenues are budgeted to provide $445,900 or 1% of total budgeted revenue in FY14 which represents no change from the FY13 budgeted fines revenue. The following charts and graphs provide additional information on this revenue category.

Court fines are paid to the Village by the Clerk of the 18th Judicial Circuit on a monthly basis, typically with a one to two month "lag" from the date collected by the Circuit Clerk. Ordinance violations and false alarm fines are paid directly to the Village and are deemed to be revenue when paid.





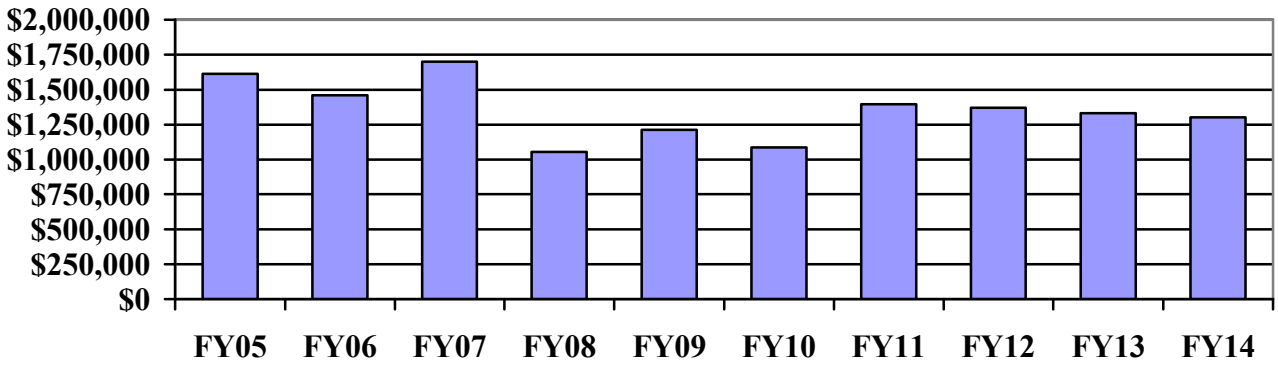
DUI Fines History



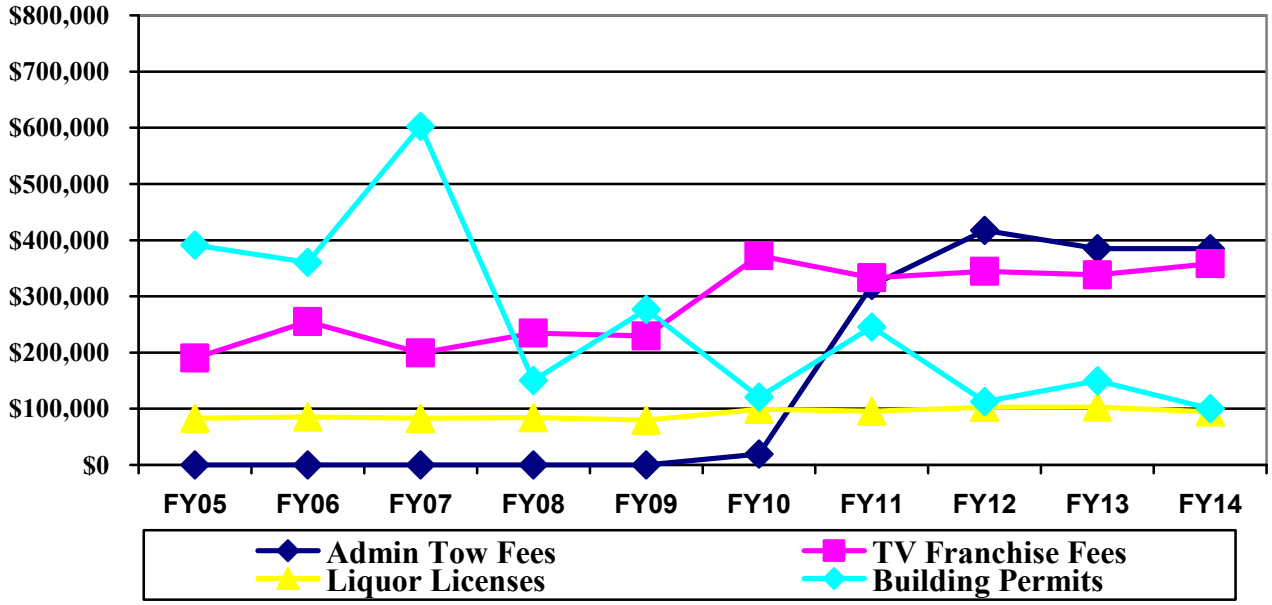
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

FEES, LICENSES & PERMITS – Village ordinances provide for assessing certain fees, licenses and permits. This revenue category includes the largest number of individual sources than any other revenue category with notable major sources being administrative towing fees, cable tv and video service franchise fees, liquor licenses and building permits. Some revenues in this category are recurring and susceptible to multi-year trend analysis (licenses and franchise fees) and others are one-time revenues beholden to economic activity (permits). Fees, licenses & permits revenues are budgeted to provide $1.30 million or 4% of total budgeted revenue in FY14 which represents a $31,650 or 2% decrease from the FY13 budgeted fees, licenses & permits revenues. The following charts and graphs provide additional information on this revenue category.

Fees, Licenses and Permits History



Major Sources of Fees, Licenses & Permits History



GRANTS consist of contributions of cash or other assets to the Village in support of a particular purpose or activity. This source of revenue is often a one-time transactions; not an annual, reliable source. Grants revenues are budgeted to provide $159,260 or less than 1% of total budgeted revenue in FY14 which represents a $148,760 or 1,400% increase over the FY13 budgeted grants revenue. A $150,000 grant application has been submitted to the State of Illinois which would assist in financing a drainage improvement project.

INTEREST represents the earnings created from the investment of idle cash balances, which is primarily comprised of the various funds' operating reserves. Interest income is dependent on the levels of available cash balances and is extremely susceptible to short-term interest rates which closely correlates with the strength of the economy. Interest revenue is budgeted to provide $122,305 or less than 1% of total budgeted revenue in FY14 which represents a $24,800 or 17% decrease from the FY13 budgeted interest revenue. The decrease reflects the current, historically low short-term interest rate environment and the economic malaise which is not necessarily expected to change in any material way during FY14.

CURRENT SERVICES represent fee revenue collected from charges to external users of goods or services provided by the Village. Water and sewer rate charges and golf course greens and cart fees comprise the current services source of revenue category. Current services are budgeted to provide $10.01 million or 30% of total revenue in FY14 which represents a $472,820 or 5% increase from the FY13 budgeted current services revenue. The increase is attributable to water rate charges increasing as a result of a recent water rate increase that went or will go into effect for water used beginning January 1, 2013 and January 1, 2014.

- **Water and Sewer Charges** - The primary source of revenue for the Water & Sewer Fund is rate revenue which is generated based upon the quantity of water consumed by the users of the water and sewer system and billed in accordance with rates established by ordinance. The Village invoices all accounts in the system on a staggered, bi-monthly basis with due dates, at least, 15 days after the mailed date (i.e. - invoice date). Revenues are collected on a monthly basis and cash flow is relatively consistent and constant throughout the year.

  The FY14 budgeted revenues are $8.66 million which represents a $565,050 or 7% increase over the FY13 budget. The FY14 budget reflects a weighted average water rate of $6.68 per 1,000 gallons for residential use and $7.64 per 1,000 gallons for non-residential use and a sewer rate of $4.46 per 1,000 gallons for both residential and non-residential customers. The DuPage Water Commission (DWC) approved a series of rate increases it charges the Village for the Lake Michigan water that is purchased from the DWC. The rate increases were in response to increases assessed to the DWC from the City of Chicago from whom the DWC purchases water. This required the Village to approve water rates increases of approximately 10% on average each January 1, 2013 through 2015.

- **Golf Course Charges** - Inherent in golf course activities is the collection of greens fees and cart fees from paying customers. The FY14 budgeted revenues are $1.36 million which represents a $92,230 or 6% decrease from the FY13 budget. Greens and cart rental fees will remain unchanged from the prior year. The number of "rounds" played and cart rentals is budgeted to achieve the five-year average activity or 32,900 "rounds" of golf and 28,100 cart rentals for the 2013 golf season. Revenues are primarily collected April through October although expenses are somewhat consistent throughout the year which then does require additional cash flow analysis and monitoring.

MISCELLANEOUS consists of several sources, not specifically associated with any other category. Typically small in dollar amounts, these revenues are generated from various activities. Two (2) sources that spurn this typical characteristic are the administrative service charge and the information systems service charge. Miscellaneous revenues are budgeted to provide $991,595 or 3% of total budgeted revenue in FY14 which represents a $43,860 or 4% decrease from the FY13 budgeted miscellaneous revenues.

OTHER FINANCING SOURCES - This category is used to isolate certain one-time inflows of financial resources that might otherwise distort regular, on-going revenue trends and includes bond proceeds and operating transfers in, the latter being illustrated below in further detail.

- **Operating Transfers In** or sometimes referred to as Interfund Transfers, represent the exchange of financial resources from one Fund to another Fund. The schedule below summarizes the FY14 exchanges.

Amount	Receiving Fund	Disbursing Fund	Purpose
$27,225	General	Home Rule Sales Tax	Drainage improvements
$62,800	General	Home Rule Sales Tax	Sales tax reimbursements
$364,570	General	CERF	FY14 actual vehicle and equipment replacements
$9,700	General	Recreational Path	Recreational path maintenance
$347,235	CERF	Home Rule Sales Tax	Future vehicle and equipment replacement funding
$75,000	Springbrook TIF Note	General	Incremental sales tax
$1,084,050	2009 GO Debt Service	Home Rule Sales Tax	FY14 principal & interest
$376,060	2007A GO Debt Service	Home Rule Sales Tax	FY14 principal & interest
$54,000	2007B Debt Service	ILR Business District Tax	FY14 principal & interest
$385,000	2007B Debt Service	Community Relations & Events	FY14 principal & interest
$890	TIF Construction funds	TIF Debt Service funds	Administrative costs
$600,000	Water & Sewer	Home Rule Sales Tax	WRF FPA Phase 1 debt service
$670,000	Water & Sewer	Home Rule Sales Tax	2009 GO Refunding debt service
$4,056,530	**Total**		

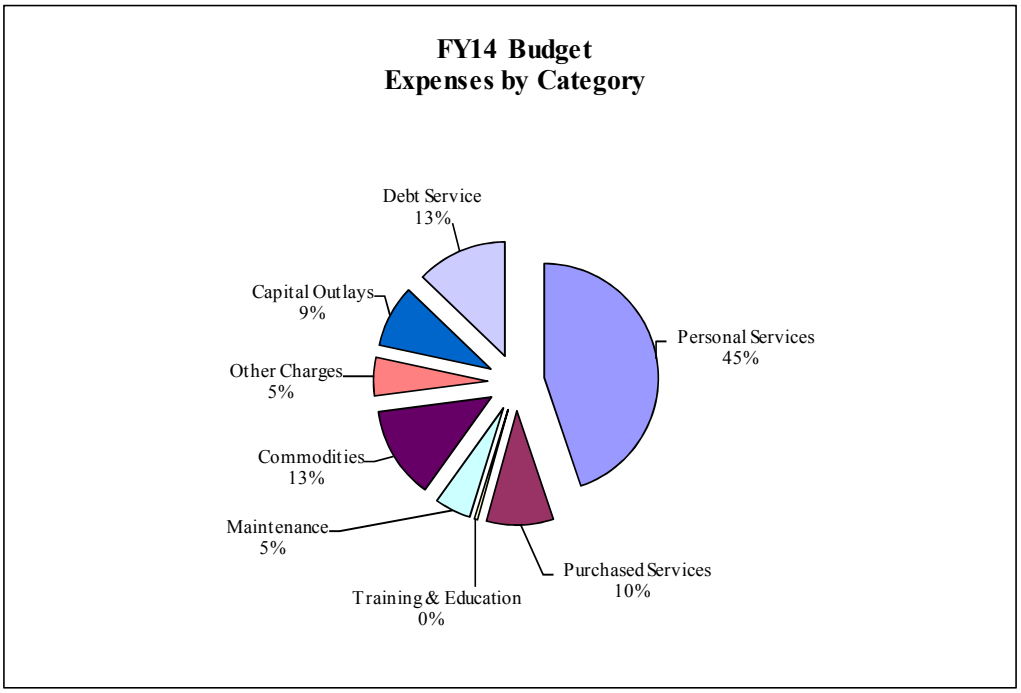
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

EXPENSES - The Village's total budgeted expenses for FY14, including operating, capital outlays and debt service, are $33.41 million which represents a $573,690 or 2% increase over the FY13 budget and a $1.55 million or 5% increase over the estimated FY13 End-of-Year (EOY) projection.

FY14 total operating expenses are budgeted at $26.72 million which represents a $991,325 or 4% increase over the FY13 budgeted operating expenses. FY14 capital outlay and debt service expenses are budgeted to be $6.69 million which represents a $417,635 or 6% decrease from the FY13 budgeted capital outlays and debt service expenses. Summary financial data **by Category** is shown in the schedule below and additional discussion describing activity in each category ensues.

Expenses by Category - All Funds

Category	FY13 Budget	FY13 EOY	FY14 Budget
Operating Expenses			
Personal Services	$ 14,712,525	14,690,360	14,575,850
Purchased Services	3,117,825	3,076,670	3,481,320
Training & Education	155,530	132,005	169,130
Maintenance	1,689,575	1,655,805	1,888,575
Commodities	4,273,400	4,094,425	4,834,385
Other Charges	1,784,260	1,928,220	1,775,180
Total Operating Expenses	**25,733,115**	**25,577,485**	**26,724,440**
Capital Outlays	2,890,585	2,228,045	2,522,750
Debt Service	4,214,805	4,057,720	4,165,005
Total Capital Outlays and Debt Service	**7,105,390**	**6,285,765**	**6,687,755**
Total Expenses	**32,838,505**	**31,863,250**	**33,412,195**



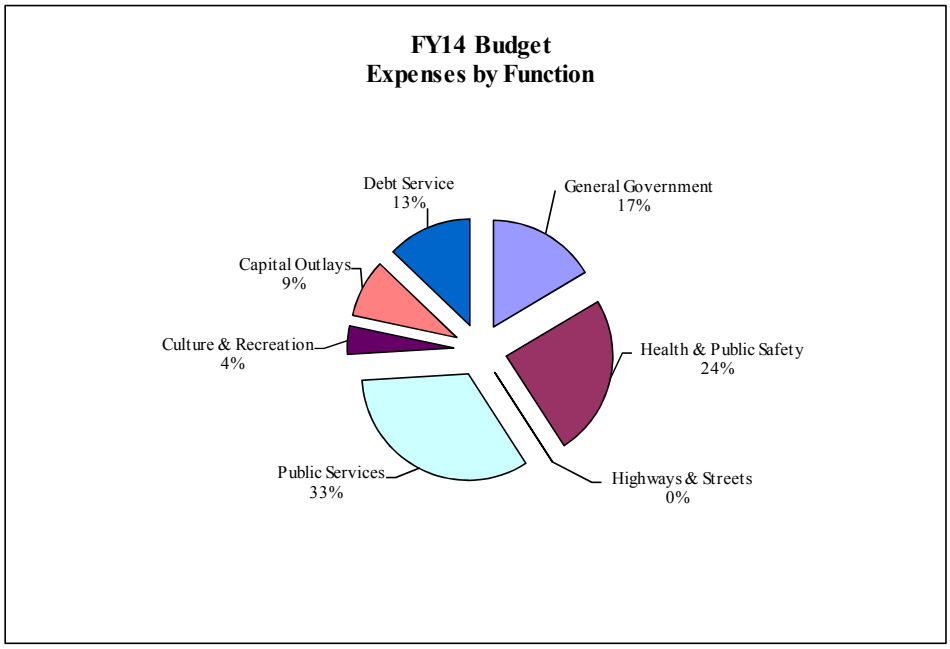
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

Expenses, more specifically operating expenses, are often categorized by **Functional Groups** as shown below. This provides another perspective for further analysis and understanding. Additional detail on functional expense groups can be found in the Financial section.

1. **General Government** - includes the Administration and Finance departments, the Building & Grounds and Equipment Maintenance divisions, and economic development expenses.
2. **Health & Public Safety** – includes the Police department.
3. **Highways & Streets** – includes certain operating expenses in the Home Rule Sales Tax Fund.
4. **Public Services** – includes the Village Services department, except for the Building & Grounds and Equipment Maintenance divisions, and the Water & Sewer Fund.
5. **Culture & Recreation** – includes the Community Relations & Events, Recreational Path and Golf Course Funds.

Expenses by Function - All Funds

Function	FY13 Budget	FY13 EOY	FY14 Budget
Operating Expenses			
General Government	$ 5,405,870	5,470,445	5,491,690
Health & Public Safety	8,012,870	8,000,550	8,028,640
Highways & Streets	15,000	-	15,000
Public Services	10,878,510	10,683,605	11,599,360
Culture & Recreation	1,420,865	1,422,885	1,589,750
Total Operating Expenses	**25,733,115**	**25,577,485**	**26,724,440**
Capital Outlays	2,890,585	2,228,045	2,522,750
Debt Service	4,214,805	4,057,720	4,165,005
Total Capital Outlays and Debt Service	**7,105,390**	**6,285,765**	**6,687,755**
Total Expenses	**32,838,505**	**31,863,250**	**33,412,195**



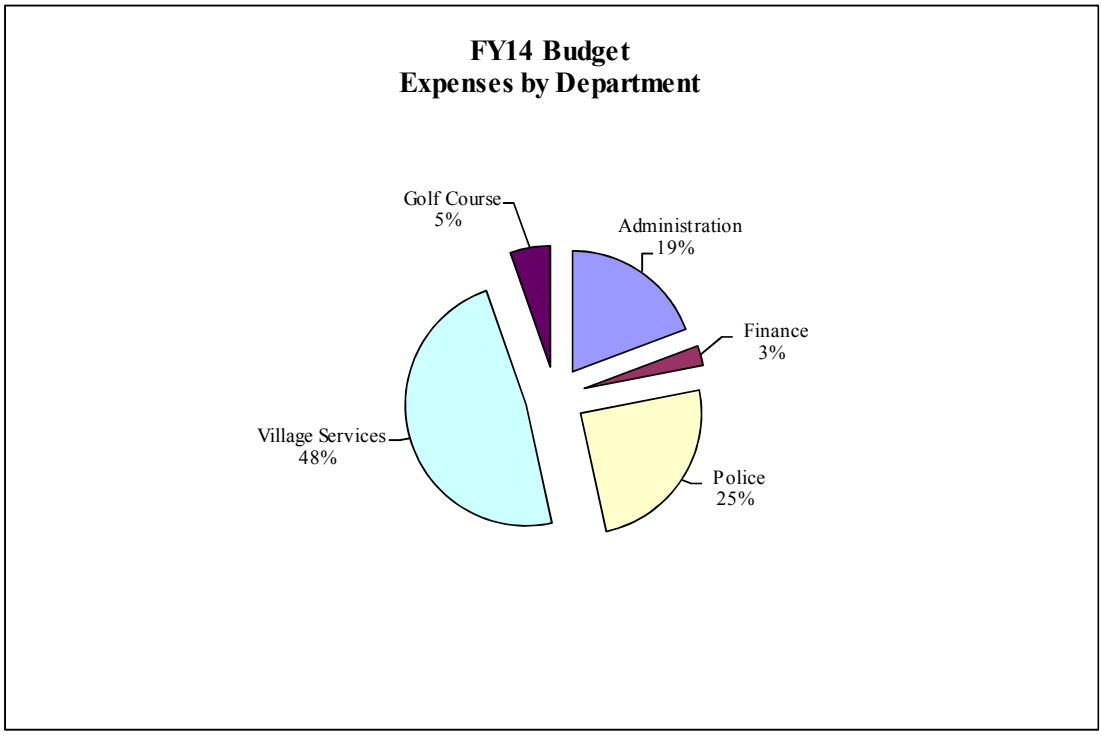
Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

Expenses are also commonly grouped by **Department** to easily identify with the services being provided. This additional perspective provides for further analysis and can provide understanding of how the Village prioritizes spending. Additional detail about each department and its expenses can be found in the Narrative and Financial sections.

1. **Administration** - consists of the Administration department across all Funds including activity in the Community Relations & Events Fund, economic development initiatives and non Water & Sewer Fund related debt.
2. **Finance** – consists of the Finance department across all Funds.
3. **Police** – consists of the Police department.
4. **Village Services** – consists of the Village Services department across all Funds and Water & Sewer Fund related debt
5. **Golf Course** – consists of the Golf Course Operations Fund

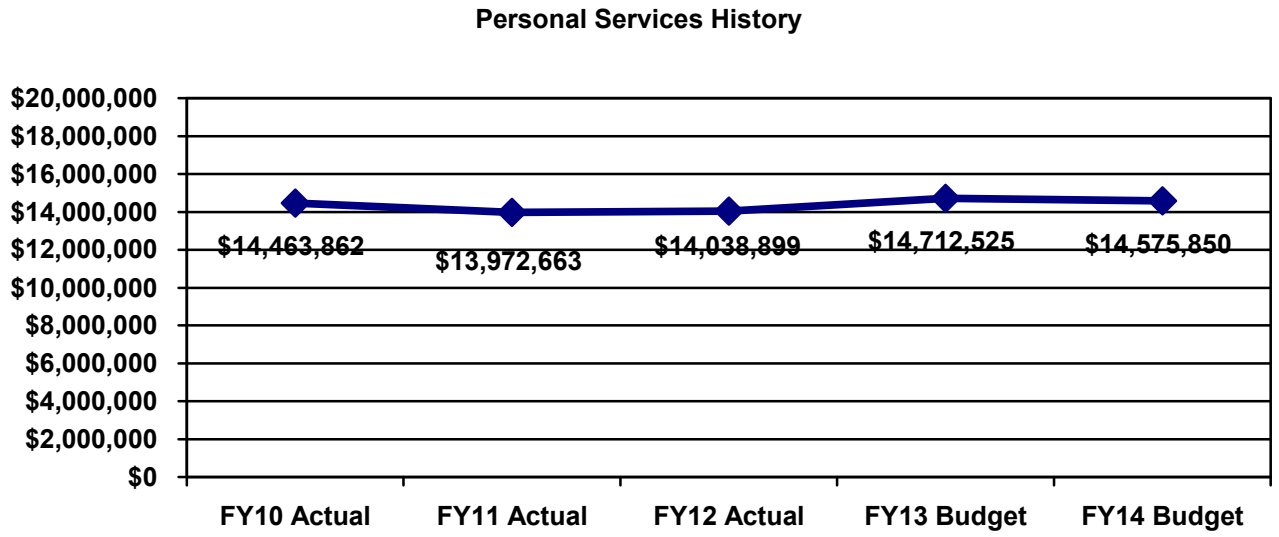
Expenses by Department - All Funds

Department	FY13 Budget	FY13 EOY	FY14 Budget
Administration	$ 6,291,100	6,452,650	6,445,615
Finance	871,835	841,950	882,930
Police	8,313,540	8,317,150	8,237,240
Village Services	15,989,530	14,945,520	16,058,725
Golf Course	1,372,500	1,305,980	1,787,685
Total Expenses	**32,838,505**	**31,863,250**	**33,412,195**



Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

PERSONAL SERVICES consists of employee salaries, wages and fringe benefits, such as benefit insurance and retirement contributions. Personal services are budgeted to consume $14.58 million or 44% of total budgeted expenses which represents a $136,675 or 1% decrease from the FY13 budgeted personal services. The decrease is attributable to controlled wage adjustments as negotiated in the Village's four (4) collective bargaining agreements, consolidation of emergency dispatch services (for further information see the Narrative section of this document) which is reducing wages by approximately $300,000, the retirement of several tenured employees and replacing those positions with new employees at lower rates of pay and modest adjustments to benefit insurance costs and required retirement contributions. Additional information on the changes occurring to wages, salaries, overtime and benefits can be found in the Administration division - Human Resources Narrative section and Personnel section.



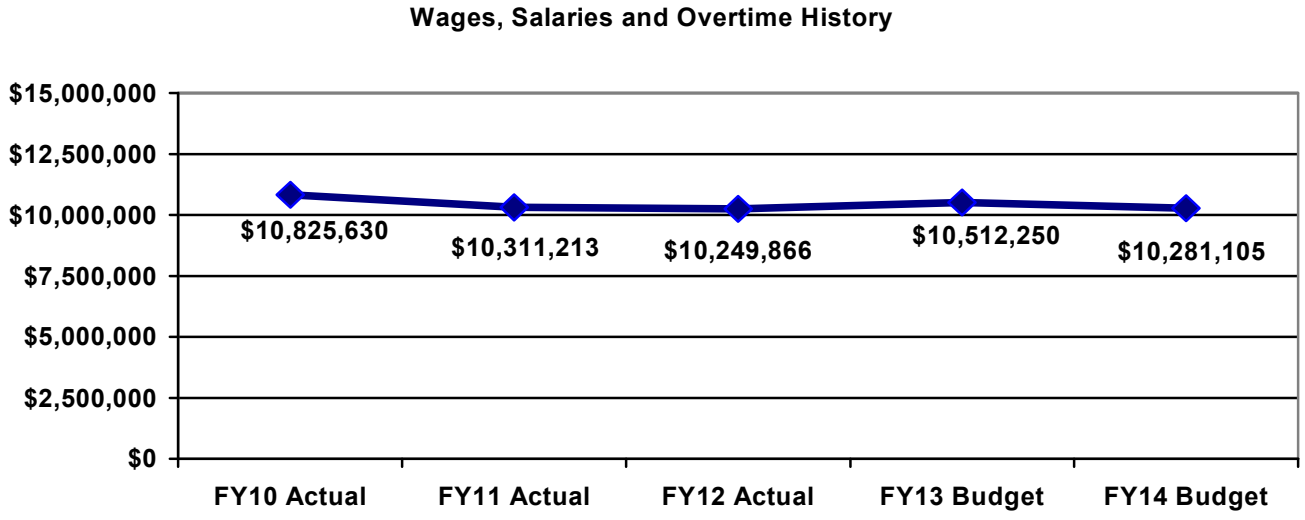
Further analysis of the three major components of Personal Services:

1. Wages, Salaries and Overtime
2. Benefit Insurance
3. Retirement Contributions

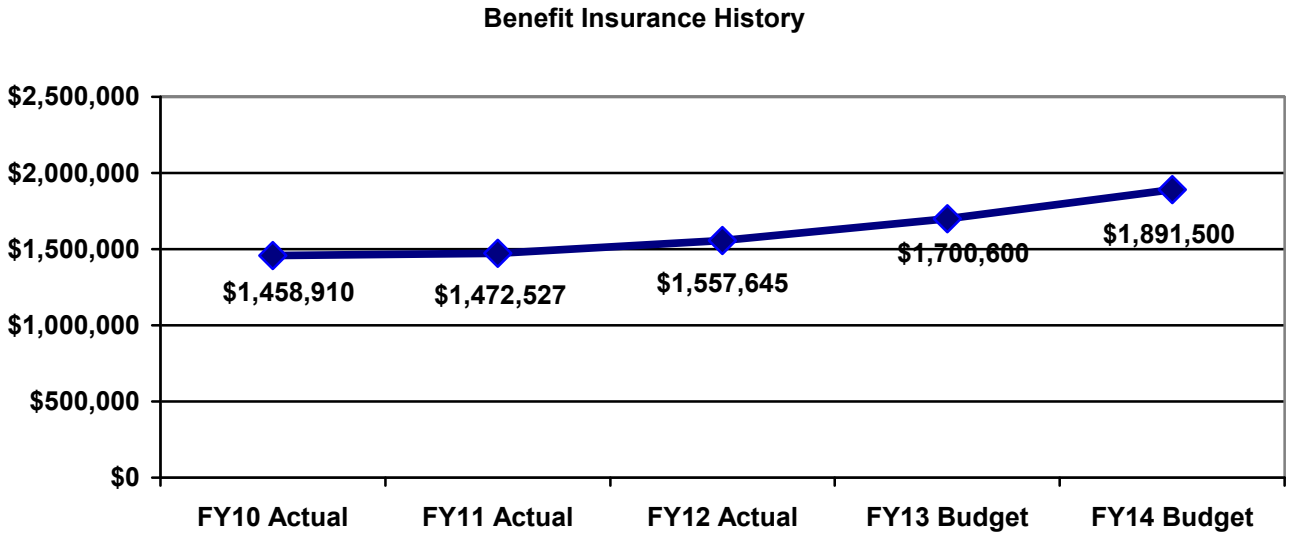
can be found on the following pages.

PERSONAL SERVICES (continued)

- **Wages, Salaries and Overtime** is budgeted at $10.28 million or 31% of total budgeted expenses which represents a $231,145 or 2% decrease from the FY13 budgeted wages, salaries and overtime. The decrease is attributable to the consolidation of emergency dispatch services in the Police department.



- **Benefit Insurance (**health, dental and life) is budgeted at $1.89 million or 6% of total budgeted expenses which represents a $190,900 or 11% increase over the FY13 budgeted benefit insurance. The increase is primarily the result of four (4) retirements occurring in the prior year and the election of the retirees to continue coverage under on the Village's insurance plan. The retirees pay a portion of the annual cost of the coverage; however 100% of the cost is expensed and the retirees contribution is accounted for as revenue. Additional information on the changes occurring to benefit insurance costs can be found in the Administration division - Human Resources narrative.

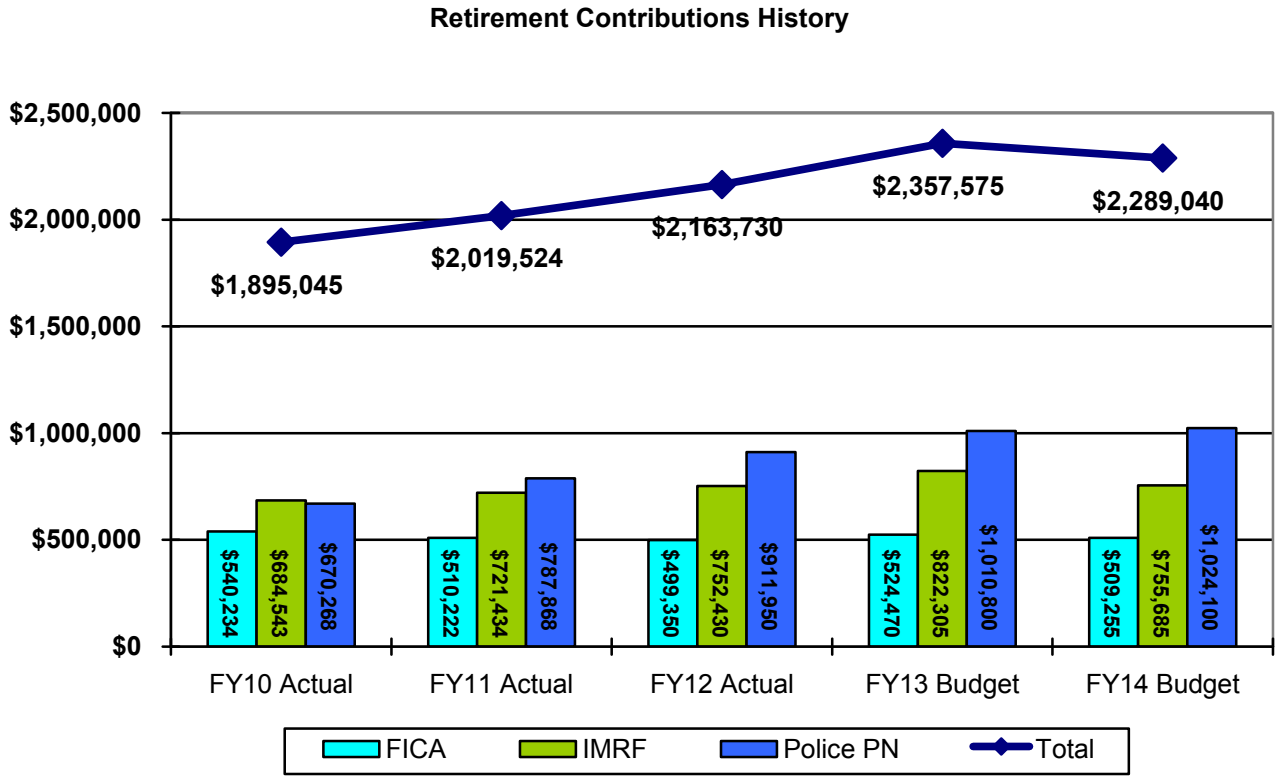


PERSONAL SERVICES (continued)

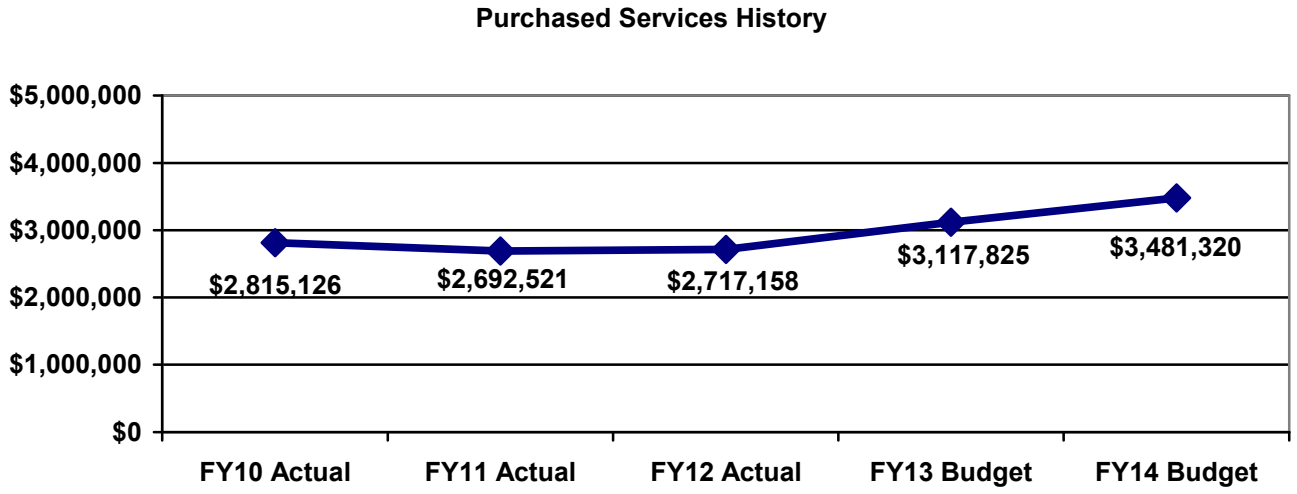
- **Retirement contributions** (FICA, IMRF and Police Pension) are budgeted at $2.29 million or 7% of total budgeted expenses which represents a $68,535 or 3% decrease from the FY13 budgeted retirement contributions.

  FICA and IMRF contributions are budgeted at $1.26 million which represents a $81,835 or 6% decrease from the FY13 budgeted contributions. Police Pension contributions are budgeted at $1.02 million which represents a $13,300 or 1% increase over the FY13 budgeted contributions.

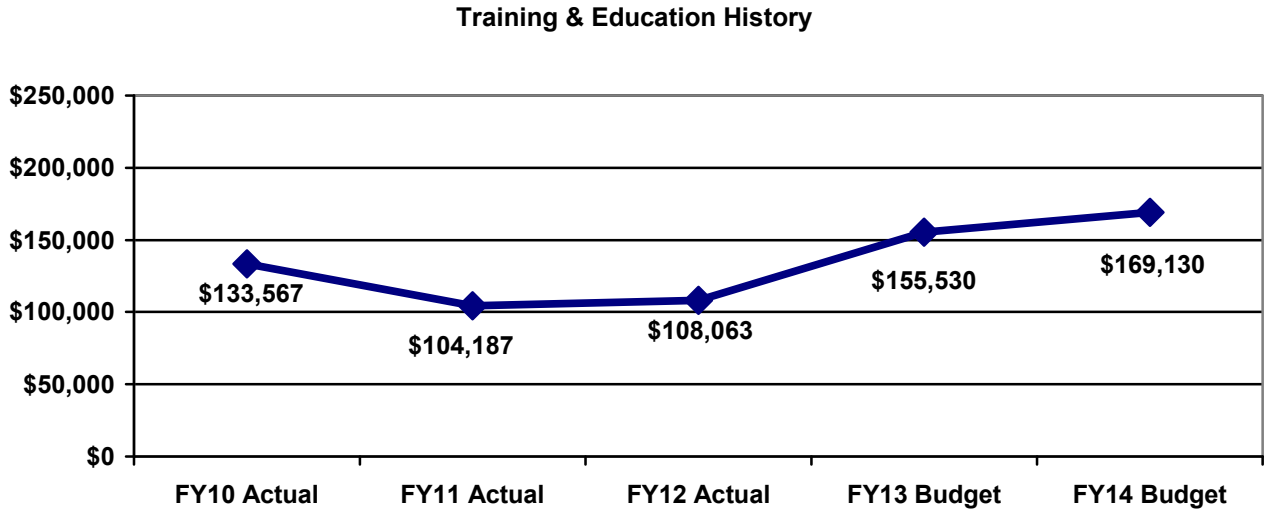
  The employer FICA rate is 7.65% (6.20% for Social Security and 1.45% for Medicare). The Village's 2013 IMRF rate is 13.51% and the 2014 rate is 13.36% of covered payroll. The Village's required contribution to the Police Pension Fund equates to an approximate rate of 26% of covered payroll.



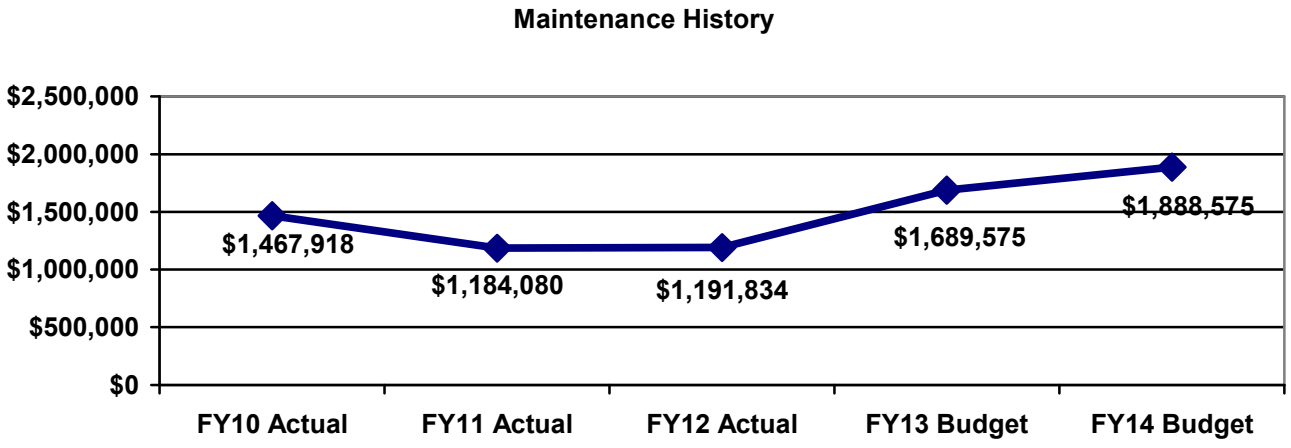
PURCHASED SERVICES consists of legal, engineering, audit, various consulting and other professional services. Purchased services are budgeted to consume $3.48 million or 10% of the total budgeted expenses which represents a $363,495 or 12% increase over the FY13 budgeted purchased services. The increase is primarily attributable to the emergency dispatch annual service fee that is now being incurred which, in prior years, was in the form of personal services costs. Projects or areas that are experiencing decreases include a reduction in plan commission legal fees, the Board of Fire and Police Commissioners will not be testing again in FY14, the completion of a water distribution system leak detection project, a reduction in the sanitary sewer televising and cleaning program and a decrease in sludge removal costs.



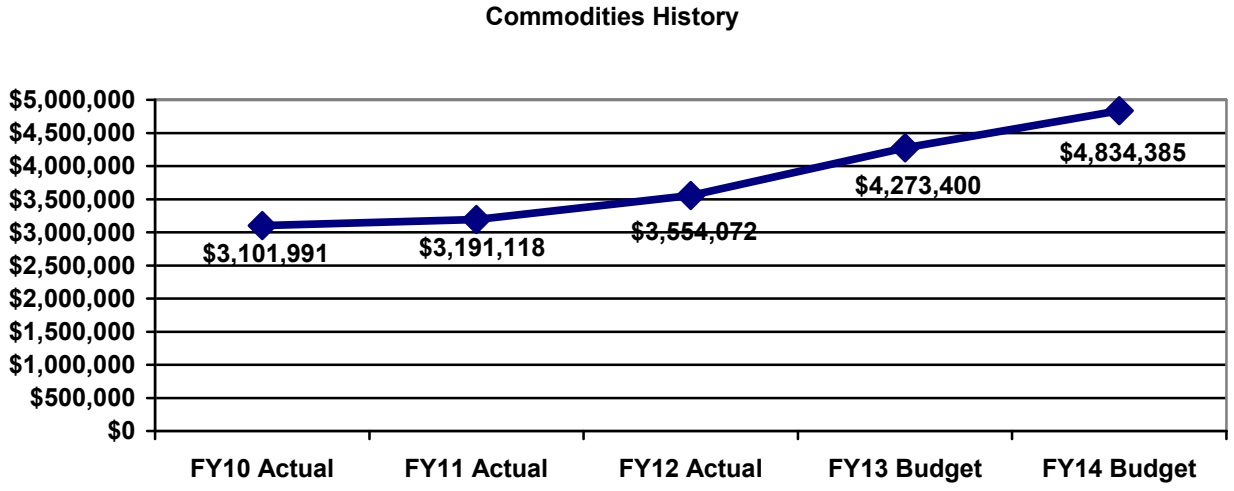
TRAINING & EDUCATION consists of seminars, travel, meetings, membership dues and subscriptions. Training & Education is budgeted to consume $169,130 or 1% of the total budgeted expenses which represents a $13,600 or 9% increase over the FY13 budgeted training & education. The increase can be traced primarily to the development of a new Village website and the Police department.



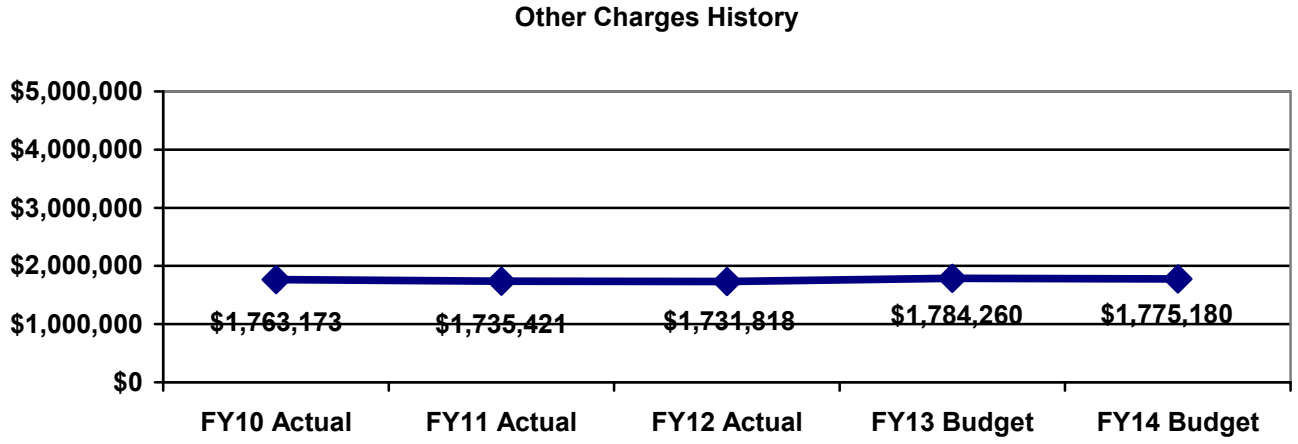
MAINTENANCE consists of expenses necessary to provide for the continuity or preservation of the Village's assets, through either in-house or third-party contractor work. Maintenance is budgeted to consume $1.89 million or 6% of the total budgeted expenses which represents a $199,000 or 12% increase over the FY13 budgeted maintenance. The increase is primarily attributable to crack filling and sealing of parking lots at the golf course and Village Hall, pavement and crack sealing of roadways, painting projects at the golf course club house, Village Hall and Police department, SCADA system upgrades, painting of the Gary Avenue water storage tanks and gel coating of the WRF's dome structure.



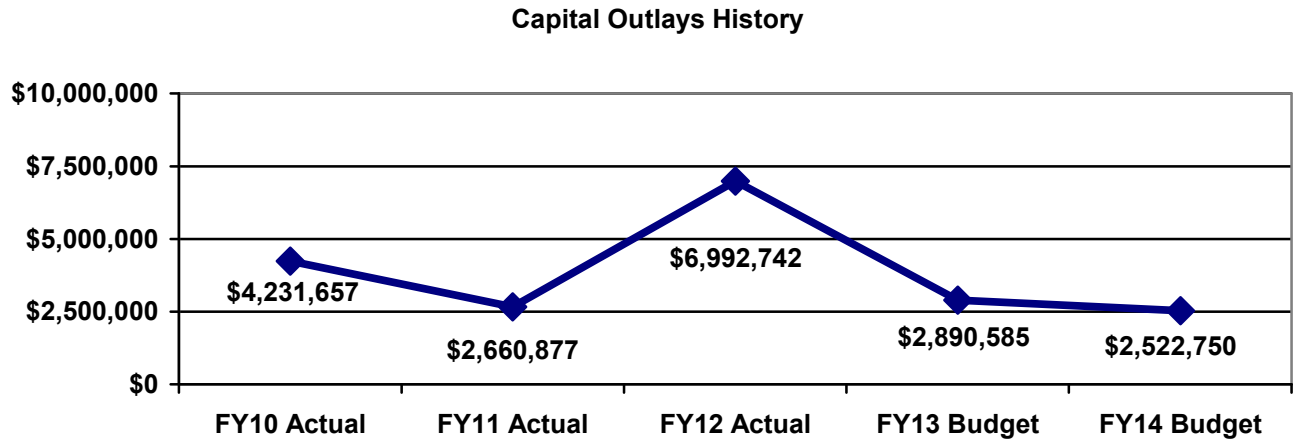
COMMODITIES consists of consumable items used in the operation of the Village such as office supplies, maintenance supplies, vehicle fuel (unleaded and diesel), Lake Michigan water, chemicals and electricity. Commodities is budgeted to consume $4.83 million or 14% of the total budgeted expenses which represents a $560,985 or 13% increase over the FY13 budgeted commodities. $472,000 or 91% of the increase is attributable to the increase in water costs imposed upon the Village by the DWC and City of Chicago. Other activity contributing to the increase is the purchase of light pole decorations, replenishing road salt inventory and the purchase of additional trees as part of the Village's emerald ash borer response plan.



OTHER CHARGES consists of an administrative service fee charged to the Water and Sewer and Golf Course Funds for services rendered, an information systems service fee charged for goods and services provided to the Water and Sewer Fund and sales tax distributions to developers. Other charges are budgeted to consume $1.78 million or 5% of the total budgeted expenses which represents a $9,080 or a less than 1% decrease from the FY13 budgeted other charges. $1.39 million or 78% of the total FY14 budget is attributable to economic development incentives associated with the Stratford Square Mall Business District and Wal-Mart's expansion.



CAPITAL OUTLAYS consists of expenses resulting in the acquisition of capital assets or the investment in existing assets that materially extend the useful life of the asset. Capital outlays are budgeted to consume $2.52 million or 8% of the total budgeted expenses which represents a $367,835 or 13% decrease from the FY13 budgeted capital outlays. The decrease is attributable to the completion of the WRF's FPA Phase 2A improvements in the prior year.



CAPITAL OUTLAYS (continued)

The Village's Capital Asset Policy is summarized as follows:

- A capital asset policy is herein established for the purpose of ensuring compliance with accounting and financial reporting standards including GAAP, Auditing and Financial Reporting practices and the Governmental Accounting Standards Board's (GASB) standards and to provide reasonable assurance as to the safeguarding of Village assets.

- Capital assets shall include land, improvements to land, easements material in unit cost, buildings, building improvements, vehicles, equipment, works of art and collections, infrastructure such as water and sanitary sewer mains, storm sewers, roadways, etc. and all other tangible assets used in operations that have a useful life of at least two (2) years from the date of acquisition AND that have a minimum unit cost at the time of acquisition of $5,000 or greater. This criterion is to be applied to individual assets and not to groups of assets. Capital assets shall be reported at historical cost, or in the case of contributed assets, at estimated fair market value at the time received if historical cost is not available.

- Depreciation of assets, excluding land and easements, will be computed using the straight-line method of depreciation. One-half (½) of a year of depreciation will be taken in the year of acquisition and one-half (½) of a year of depreciation will be taken in the final year of an asset's useful life. An asset's useful life is as follows:

  - Vehicles and Equipment — 5-10 years
  - Works of Art and Collections — 25 years
  - Buildings and Improvements — 40 years
  - Infrastructure, including streets, storm sewers, water and sewer system — 40 years

- On a regular basis, but not less often than annually, each Department Head is responsible to report to the Finance Director in identifying the disposal of or relocation of a capital asset that was previously recorded or assigned to each Department Head's jurisdiction. The disposal of a capital asset accounted for and reported pursuant to this policy shall be with the approval of the Village Board. Any proceeds from a disposal shall be identified with said asset so as to effect the retirement of the asset and the recognition of any gain or loss.

- Day-to-day stewardship, care, custody and control of all Village property and assets, without regard to historical unit cost, reside with the Village Administrator or an authorized designee.

- Assets having a historical unit cost below the Village's capitalization threshold, but which in the opinion of the Village Administrator may be sensitive in nature and warrant further control, shall be inventoried and controlled at the department level by a means or system sufficient to maintain control. Each department will maintain an appropriate list to physically identify said assets. The Department Head will determine the appropriate means or suitable system to be used to affect this responsibility. Department Head's are not precluded from inventorying and controlling any assets under their jurisdiction without regard to unit cost or a specific directive to do so.

CAPITAL OUTLAYS (continued)

The following is a list of the capital outlays included in the FY14 Budget:

	Fund/Department/Division	Description	Amount
	General		
[1]	Information Systems	B&Z and Public Works - replace two (2) copiers	$ 15,000
[2]	Information Systems - Finance	Purchasing Card software	5,925
[3]	Information Systems - Police	In-squad mobile computers - replace fourteen (14)	70,170
[4]	Information Systems - Village Services	Fuel system software upgrade	3,500
[5]	Police	Internal security system upgrade	11,400
[6]	Police	Six (6) vehicles including change-over costs	197,200
[7]	Capital Improvements	Sales tax reimbursements - infrastructure	16,700
[8]	Streets Maintenance	Pole mounted solar LED speed advisory system	10,000
[9]	Streets Maintenance	Vehicle #300, 3/4 ton dump - replacement	37,250
[10]	Equipment Maintenance	Fueling facility site controller	8,550
[11]	Stormwater Collection	SCADA improvements - radio communication	16,700
[12]	Stormwater Collection	Trailer mounted generator - replacement	25,000
[13]	Stormwater Collection	2013 Village drainage improvements	20,000
		General Fund total	437,395
	MFT		
[14]	Capital Improvements - Road Program	CY 2013 Road Program	941,745
	Home Rule Sales Tax		
[15]	Capital Improvements - Road Program	Meadowlark Road emergency exit	235,000
[16]	Stormwater Collection	Country Club Estates area drainage improvements	221,000
		Home Rule Sales Tax Fund total	456,000
	Building Program		
[17]	Building & Grounds	Village Hall HVAC equipment - replacement	100,000
	Water & Sewer		
[18]	Water Distribution (source of supply)	SCADA improvements - radio communication	39,000
[19]	Water Distribution (source of supply)	Vehicle #192, pick-up truck - replacement	30,100
[20]	Sanitary Collection System	SCADA improvements - radio communication	50,010
[21]	Sanitary Collection System	Trailer mounted generator - replacement	50,000
[22]	Water Reclamation Facility	Automatic throw-over - replacement	10,000
		Water & Sewer Fund total	179,110
	Golf Course		
[23]		Chemical recycling system	20,000
[24]		Walking greens mower (new equipment)	7,500
[25]		Walking greens mowers - replace three (3)	22,500
[26]		Various, miscellaneous projects	7,500
[27]		Club House banquet area carpet replacement	36,000
[28]		Club House roof replacement	275,000
[29]		Drainage improvements - hole #s 2, 3, 4, 5 & 14	15,000
[30]		Major building maintenance, as necessary	25,000
		Golf Course Fund total	408,500
		Total FY14 Budgeted Capital Outlays	$ 2,522,750

The above listed capital outlays were derived from an informal planning process undertaken by each department. The availability of the improved technology of project #s 1 and 11 are expected to reduce maintenance and commodities cost and improve equipment reliability. The remaining projects are also foreseen to positively impact current and future operating costs.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Introduction

DEBT SERVICE consists of principal and interest payments on bonds, notes or other debt. Debt service is budgeted to consume $4.17 million or 12% of the total budgeted expenses which represents a $49,800 or 1% decrease from the FY13 budgeted debt service.

Effective March 19, 1996, as a result of a referendum vote, the Village is a home rule municipality. Illinois compiled statutes, Chapter 65, Section 5/8-5-1 governs the computation of the legal debt margin.

> "The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property … (2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: …indebtedness which is outstanding on the effective date (July 1, 1991) of this constitution of which is thereafter approved by referendum… shall not be included in the foregoing percentage amount."

To date, the Illinois General Assembly has set no debt limits for home rule municipalities.

The table below lists the Village's existing debt issues and the purpose of each.

#	Debt Issue	Purpose
1	TIF Note Series 2003B – Westgate	Rosedale Estates residential subdivision development
2	TIF Note Series 2003 – Springbrook	Lake Street and Ridge Avenue development (Springbrook Mall)
3	TIF Note Series 2006 – Westgate	Rosedale Estates residential subdivision development
4	TIF Note Series 2007 - Westgate	Bloomingdale Horizon senior independent living apartments
5	2007A General Obligation Bonds	Open Space preservation/acquisition – Indian Lakes Resort
6	2007B General Obligation Bonds	Indian Lakes Resort economic development incentive
7	2008 ILEPA Loan	WRF FPA Phase 1 improvements
8	TIF Note Series 2009 – Lake & Rosedale	Old Town Bank building development
9	2009 General Obligation Refunding Bonds	Refund 2001 & 2002 General Obligation Bonds
10	2012 ILEPA Loan	WRF FPA Phase 2A improvements

The Village's TIF debt is limited obligation debt. If the property or sales tax increment that is generated by the underlying development within the TIF district is insufficient to pay 100% of the scheduled principal and interest payment the Village is not liable for and has no obligation to use any other monies to pay the remainder of the scheduled debt.

DEBT SERVICE (continued)

The annual principal and interest requirements by fiscal year to amortize the Village's debt (excluding TIF debt) are:

Fiscal Year April 30	Governmental Funds (excluding TIF debt)		
	Principal	Interest	Total
2014	$1,385,000	503,187	1,888,187
2015	1,435,000	454,887	1,889,887
2016	1,495,000	404,512	1,889,512
2017	1,680,000	307,138	1,987,138
2018	1,775,000	215,612	1,990,612
2018-2028	3,650,000	754,067	4,404,067
Total	**$11,420,000**	**2,639,403**	**14,049,403**

Fiscal Year April 30	Water & Sewer Fund		
	Principal	Interest	Total
2014	$1,430,453	409,067	1,839,520
2015	1,466,893	372,527	1,839,420
2016	1,513,713	335,007	1,848,720
2017	1,550,920	289,000	1,839,920
2018	828,527	241,793	1,070,320
2019-2033	11,031,098	1,427,027	12,458,124
Total	**$17,821,604**	**3,074,421**	**20,896,024**

The total annual requirements by debt issue to amortize the Village's debt (excluding TIF debt) are:

Debt Issue	FY14	FY15	FY16	FY17	FY18	FY19-FY33	Total
Governmental -							
2007A GO Bonds	$374,262	376,062	377,462	378,463	374,162	3,767,017	5,647,428
2007B GO Bonds	404,725	404,775	404,050	1,608,675	1,616,450	637,050	5,075,725

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

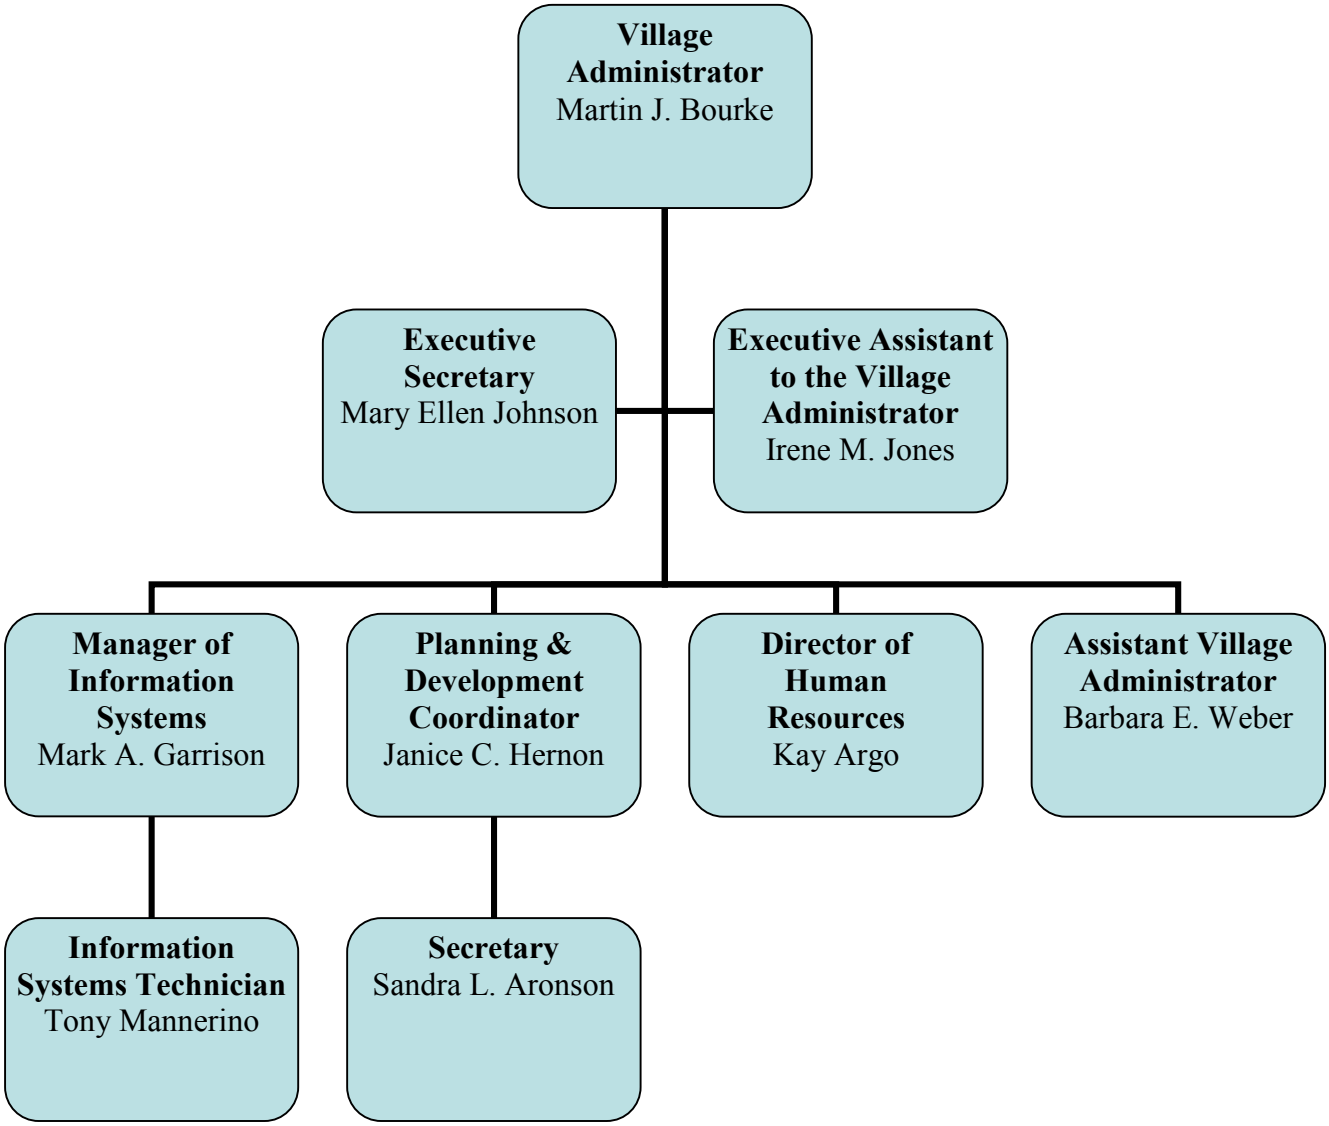
Overview (continued)

The Village Administrator is responsible for the day-to-day operations of the Village and is supported by an Assistant Village Administrator, Director of Human Resources, Planning & Development Coordinator, and Manager of Information Systems. Additional support staff includes an Executive Assistant to the Village Administrator, an Executive Secretary, who also serves as the editor of the Village Almanac, an Information Systems Technician and a part-time Secretary that serves the Plan Commission. Three (3) Department Heads – Finance Director/Treasurer, Chief of Police and Director of Village Services – also support the Village Administrator. Information on each of these three departments is found later in this Narrative section. Following is an organization chart of the Administration department.



Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

Overview (continued)

From a budgetary and span of control perspective, the Administration department includes the general activities of the following functions:

- **I. General Fund –**
  - **A. Executive & Legislative**
  - **B. Administration**
    1. **Administration**
    2. **Human Resources**
    3. **Emergency Operations**
    4. **Liability Insurance**
    5. **Legal**
    6. **Economic Development**
  - **C. Information Systems (IS)**
    1. **IS – Village-wide**
    2. **IS - Finance**
    3. **IS - Police**
    4. **IS - Village Services**
  - **D. Commissions & Committees**
    1. **Plan Commission & Zoning Board of Appeals**
    2. **Board of Fire & Police Commissioners**
  - **E. Almanac**

- **II. Community Relations & Events Fund –**
  - **A. Executive & Legislative**
  - **B. Commissions & Committees**
    1. **Family Festival** (inactive)
    2. **Septemberfest**
    3. **Business Promotion**

- **III. Golf Course Fund**

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

Executive & Legislative Division

The Executive & Legislative division's FY14 budget totals $427,110 consisting of $427,110 in operating expenses and no capital outlays. The total budget represents a $44,895 or 12% increase over the FY13 budget, which is primarily attributable to the development & implementation of a new Village website and an increase in intergovernmental initiatives support.

This division includes activities of the Corporate Authorities (Village President and Board of Trustees) and the Village Clerk.

➢ **FY14 Activities and Objectives**

- **Development & Implementation of New Village Website** - The current Village website was built using a programming language that is no longer supported which makes maintenance, enhancements and security upgrades problematic. The Village's website consultant has advised that the estimated cost to upgrade to current software is $10,000 to $45,000, depending on the complexity of the redesign. Since the last time the Village reviewed website options in 2006, several vendors have developed municipal website packages with an abundance of functionalities, (citizen request tracker, online forms/permits, etc.), and the ability to make continuous enhancements. The FY14 budget includes $35,000 in the Community Relations & Events Fund whereby hotel use taxes would be used for the design, development, maintenance and training of content authors for a new Village website. Estimated annual maintenance and hosting cost is $5,500 per year thereafter (i.e. – for future budget years).

- **Codifying the Village's Subdivision Code** – Village Administration will continue to support and assist the Village Services – Engineering division to complete a comprehensive codification of the Village's subdivision regulations. It is anticipated that various revisions and updates will be required to accommodate ordinances passed after the codifications final editing and approval. In addition, discrepancies may arise as a result of the new Subdivision Code or from other omissions or errors. The FY14 budget includes $6,000, carried-over from FY13, for codification services and the legal review related to codifying the subdivision regulations.

- The Village Board will continue to **support the Mayor** in his representation of Village interests to all levels of government, through personal contacts with underlying and surrounding local governments, formal and informal meetings with State officials, and under the auspices of the DuPage Mayors & Managers Conference.

Executive & Legislative Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- The Village Board supports various **intergovernmental initiatives** through commitments of funding found throughout the budget. Benefiting organizations and the level of funding contained in the FY14 budget are represented in the following chart.

Intergovernmental Initiatives

ORGANIZATION	PURPOSE	FY13 Budget	FY13 EOY	FY14 Budget*	Change Budget to Budget $	Change Budget to Budget %

TOTAL		**58,140**	**68,686**	**104,225**	**46,085**	79%

* - The Library and Park District initiatives are funded from the Community Relations & Events Fund and the use of hotel use taxes. The DuPage River Salt Creek Watershed (SCW) Workgroup initiative is being funded from the Water & Sewer Fund. The remaining initiatives are funded from the General Fund.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

Administration Division

The Administration division's FY14 budget totals $2.78 million consisting of $2.78 million in operating expenses and no capital outlays. The total budget represents a $110,005 or 4% increase over the FY13 budget. Insight and explanation of the increase can be learned from the ensuing discussion.

The division includes the activities of the following functions or subdivisions:

- Administration
- Human Resources
- Emergency Operations
- Liability Insurance
- Legal
- Economic Development

Administration

The Administration subdivision's FY14 budget totals $512,225 consisting of $512,225 in operating expenses and no capital outlays. The total budget represents a $59,445 or 13% increase over the FY13 budget, which is primarily attributable to a benefit insurance coverage change and a reclassification of an expense from the Executive & Legislative division.

➢ **FY14 Activities and Objectives**

- Continue to coordinate and supervise the work of a planning and engineering design consultant, who will work with the Village Board, and other stakeholders, in determining the future development and usage of the approximately thirty-five (35) acre **Indian Lakes Open Space Area**.

- Continue to work with the Engineering division to present to the Village Board and affected residents' plans for the installation of a storm sewer and other drainage improvements in the Schick Road and Country Club Estates Drive area which will serve to comprise the **Country Club Estates Drainage Project** (the "Project). Village Administration will coordinate further discussions of the feasibility of public and private funding, including the receipt of a State grant and the potential to create a Special Service Area (SSA), to fund the Project.

- Continue to work with the Village Board in determining the desirability of planning for certain public and private improvement initiatives within the **Old Town Development District.**

- Work with the Finance Director to formulate recommendations to the Village Board for techniques to **preserve the General Fund's fund balance** which has improved over the last two (2) fiscal years, and to insure long-term stability of the General Fund. In addition, the Village Administrator and Finance Director will continue to explore ways to compensate for the Telecommunication Tax revenue that was not generated for the General Fund according to the initial forecasts for this revenue source.

Administration Division (continued)

Administration (continued)

➢ **FY14 Activities and Objectives (continued)**

- Work with the Village Board in determining the desirability of holding a **formal goals and objectives session**, although no monies have been budgeted for this type of session.

- Collaborate in and coordinate the efforts of the Mayor, Finance Director, Village Attorney, and consulting economic development specialist, concerning the creation of a Business District and a draft Redevelopment Agreement for the **Stratford Crossing Shopping Center**, to be reviewed and approved by the Village Board.

- Collaborate in and coordinate the efforts of the Mayor, Finance Director and Village Attorney concerning the creation of a new Redevelopment Agreement for the **Springbrook Shopping Center**, to be reviewed and approved by the Village Board.

- Continue to **represent the Village** on various intergovernmental bodies and in numerous forums.

- Continue to prepare new and/or update existing **Administrative Policies** to help provide direction for Village staff on internal matters and to provide procedural information for the public.

Human Resources

The Human Resources subdivision's FY14 budget totals $179,400 consisting of $179,400 in operating expenses and no capital outlays. The total budget represents a $690 or less than 1% decrease from the FY13 budget.

A Human Resources Director is responsible for employee relations and recruitment (except for sworn police officers), wage and benefits administration, personnel policy maintenance and development, compliance with applicable laws and practices and negotiating and administering four (4) collective bargaining agreements (CBA). Additional information pertaining to the human resource of the Village can be found in the Personnel section and throughout this Narrative section.

The Village secures its **health, dental and life insurance** employee benefits, except as noted below, through participation in the Intergovernmental Personnel Benefit Cooperative (IPBC). The IPBC is a cooperative of local governments that pool their respective risks and funds, share in the cost of losses and surpluses, and employs several professional service providers to oversee its administration. The Village has been a member of the IPBC since 1984. The plan year that begins July 1, 2013 will be the third year of a three-year commitment to participate in the IPBC. This commitment is effective through June 30, 2014.

Administration Division (continued)

Human Resources (continued)

Three (3) health insurance benefit options are offered to employees through the IPBC consisting of an HMO (Health Maintenance Organization), a PPO (Preferred Provider Organization), and an EPO (Exclusive Provider Organization). The FY14 budget includes cost adjustments of 2.9% for the HMO, - 5.7% for the PPO and 13.9% for the EPO. The FY14 budget includes $1.23 million for these health insurance benefits, which consists of the Village's cost for active employees and the full cost for separated employees that have chosen to remain covered under the Village's plan. Separated employees pay or reimburse the Village, in varying amounts, and which is accounted for as revenue.

In the two (2) prior plan years, the Village's share of insurance costs was reduced by increasing the employee share of the premium costs, modifying plan designs, and precluding any new employees from electing the PPO option. Sworn police officers and represented Village Services employees did not have their share of the premium costs increased due to previously negotiated contract provisions; however, staff is in the process of negotiating a new collective bargaining agreement covering sworn police officers which may include increased premium costs to be assumed by these employees.

The Village continues to promote other options to control and reduce health insurance costs by encouraging employees to use available wellness programs and resources. All IPBC member communities must offer a newly designed wellness program beginning July 1, 2013. Staff also will continue to implement health insurance changes required under the federal health care reform laws.

An "Opt-Out" health insurance benefit of is offered to those employees who may have alternative access to health insurance coverage. Generally, the Village provides bi-weekly payments to the employee in lieu of electing coverage through one of the health insurance plans. There are no changes for this benefit in FY14.

A dental insurance benefit option is also offered through the IPBC. The FY14 budget includes a cost adjustment of 3.0% and includes $54,200 for these dental benefits which consists of the Village's cost for active employees and the full cost for separated employees that have chosen to remain covered under the Village's plan. Separated employees pay or reimburse the Village, the full cost of the coverage, and which is accounted for as revenue.

Thirty five (35) represented Village Services employees receive their health, dental and life insurance benefits through the union's insurance plan pursuant to the respective collective bargaining agreement. The FY14 budget includes $595,200 for these benefits.

Administration Division (continued)

Human Resources (continued)

There are four (4) **collective bargaining** units covering Village employees:

- The International Union of Operating Engineers, Local 150 represents thirty four (34) full-time Village Services employees in public works, engineering and building & zoning,
- The Fraternal Order of Police Labor Council, Lodge #175 (FOP-S) represents thirty five (35) full-time police officers,
- The Fraternal Order of Police Labor Council, Lodge #175 (FOP-C) represents six (6) full-time police aides, records assistants and community service officers, and
- The Service Employees International Union, Local 73 (SEIU) represents six (6) full-time secretarial employees.

The Local 150 and FOP-C CBAs expired on April 30, 2012. Both were renegotiated and settled in FY13 and are for a period of three (3) more years. The CBA with the FOP-S expired on August 31, 2012 and is being renegotiated but has not settled. The SEIU CBA expires on April 30, 2014.

The new Local 150 CBA contains a range adjustment to the step plan and a wage increase each year on May 1st of 1.50% in 2012, 2.00% in 2013, and 2.25% in 2014. A new starting step was added that is 5% lower than the previous starting step. The FY14 budget includes $80,800 for the related payroll impact of the new CBA. Beginning in November 2012, health insurance increases were limited to 0% for single coverage and 5% for family coverage, 3% for single coverage and 5% for family coverage beginning July 1, 2013, and 4% for single coverage and 5% for family coverage beginning July 1, 2014. Local 150 conceded that newly hired employees will have a reduced maximum vacation accrual that is two (2) weeks less than the current employees' maximum amount. The CBA clarified that health insurance is paid by the Village only for full-time employees.

The new FOP-C CBA contains a range adjustment to the step plan and wage increases, effective May 1st of each year (1.50% in 2012, 2.00% in 2013 and 2.25% in 2014). The FY14 budget includes $8,780 for the related payroll impact of the new CBA. Employees received a one-time bonus payment of $250 that was not added to their base pay. Newly hired employees will have a lower maximum vacation accrual similar to new non-represented and Local 150 employees and a different method for counting family medical leave time that is consistent with other Village employees.

The SEIU CBA contains a 2% range adjustment and wage increase effective May 1, 2013 and a 1.75% step increase for eligible employees on November 1, 2013. The FY14 budget includes $11,450 for the related payroll impact of the CBA. One (1) member of the SEIU retired in August 2012 and that position was filled with two (2) part-time employees who are not members of the SEIU.

Administration Division (continued)

Human Resources (continued)

There are forty-seven (47) non-represented employees of the Village whose compensation plan for FY14 has not been determined. Furthermore, the FOP-S contract continues to be negotiated. Because of the difficulty of forecasting any sort of eventual compensation agreement, no additional monies have been included in the FY14 budget for these two (2) groups.

The Village Board approved intergovernmental agreements with the Village's of Addison and Bensenville and the DuPage County Emergency Telephone System Board (ETSB) to consolidate emergency dispatch operations under the administration of the Addison Consolidated Dispatch Center (ACDC). Due to ever-changing Federal requirements, the ETSB has encouraged communities to share resources in order to take advantage of economies of scale and to enhance radio communications between municipalities and other public safety and emergency response agencies. Additional benefits include operational cost savings, a decrease in supervisory needs, greater flexibility in providing emergency dispatch staffing, and enhanced technology. The ETSB reimbursed the Village $170,000 for change-over and equipment costs. As a result of the consolidation, the position of Telecommunicator is no longer in use and a reduction-in-force took place on December 1, 2012 when the ACDC began providing emergency dispatch services. A Memorandum of Agreement (MOA) was negotiated with FOP-C whereby four (4) members received severance pay. In summary, three (3) FOP-C positions and one (1) part-time position was laid-off, one (1) FOP-C member took a position with the ACDC, one (1) FOP-C member took a position with a neighboring community and two (2) other employees continued their employ with the Village in new capacities. The fiscal impact of the consolidation is reflected in the FY14 budget.

➢ **FY14 Activities and Objectives**

- Conclude negotiations on a successor CBA with the FOP-S.
- Recruit and hire two (2) Village Services supervisors to replace retiring incumbents.
- Implement Administrative policies on new employee orientation and supervisory training.
- Prepare and present Harassment Prevention and Violence in the Workplace training.
- Revise performance evaluation tool.
- Prepare for and implement health care reform measures.
- Recruit wellness committee members and implement the IPBC wellness initiative.
- Review and approve plan documents for health insurance and flexible spending plans.

Administration Division (continued)

Emergency Operations

Emergency Operations subdivision's FY14 budget totals $20,060 consisting of $20,060 in operating expenses and no capital outlays. The total budget represents a $750 or 4% decrease from the FY13 budget.

The Crisis Management Team (CMT) consists of senior staff from Administration, Finance, Police, and Village Services, and the Bloomingdale Fire Protection District. The team meets regularly to review, discuss, develop and plan various emergency management initiatives, such as the Emergency Operations Plan (EOP), Continuity of Operations Plan (COOP), the National Incident Management System (NIMS), disaster exercises, After Action Reports, an Interoperability Plan and the Strategic National Stockpile (SNS) for medicines and vaccines. The CMT is charged with training and updating plans and initiatives to ensure the safety of the citizens of the Village in the event of a natural or man-made, major emergency or disaster.

➢ **FY14 Activities and Objectives**

- Conduct a **table top disaster exercise** designed to test the Village's emergency planning and disaster preparedness at all levels. It will involve all CMT and other applicable County-wide and local community agencies. The FY14 budget includes $1,300, carried-over from FY13, for this exercise.

- Employ the services of a **Crisis Management Consultant** to assist with completing an update to the Village's EOP and to assist with the development of other related emergency operation initiatives, including the aforementioned table top exercise and a COOP. The update to the EOP has been initiated by staff; however, the FY14 budget includes $10,000, carried-over from FY13, for assistance with the remaining work to the EOP and the other stated endeavors.

- Develop a new **Shelter Agreement** with the Bloomingdale Public Library and new shelter agreements with the Village's other existing shelter facilities and in coordination with the American Red Cross. The Assistant Village Administrator will be spear-heading this activity. No direct costs are anticipated from the FY14 budget.

Administration Division (continued)

Liability Insurance

The Liability Insurance FY14 budget, including contributions and deductibles across all Funds and Departments, totals $704,595 consisting of $704,595 in operating expenses and no capital outlays. This represents a $26,890 or 4% increase over the FY13 budget, which is primarily attributable to a projected increase in the annual contribution to IRMA.

The liability insurance or **risk management** function**,** including workers' compensation, is intended to prevent accidents, injuries, and other losses, and to financially compensate the Village and its employees in the case of losses from damage to property or injury. Insurance coverage is obtained through the Intergovernmental Risk Management Agency (IRMA), which is an intergovernmental agency, created pursuant to the Illinois Intergovernmental Cooperation Act" (5 ILCS 220, et seq.); and consisting of approximately 70 units of local government, mostly municipalities, who are pooling risk. Annual contributions are determined using a revenue base formula. Various levels of self-insurance and reinsurance, plus claims administration are provided through IRMA, together with ancillary services, such as safety planning and training. The Village maintains a $10,000 deductible, per occurrence. Deductible expenses are charged directly to the originating cost center as best that can be reasonably determined to match those costs with the respective function.

The FY14 budget contemplates a net contribution due IRMA (after applying a projected experience modifier and a deductible credit) of $573,453, which represents a $17,278 or 3% increase over the FY13 budgeted, net contribution. IRMA frequently declares an excess surplus credit primarily resulting from positive claims and investment portfolio experience. When this occurs, the Village has historically applied 100% of the surplus credit directly to the fiscal year contribution, thereby, effectively lowering the net cost of the IRMA program. The chart on the following page depicts a short history of the various components of the Village's IRMA contribution.

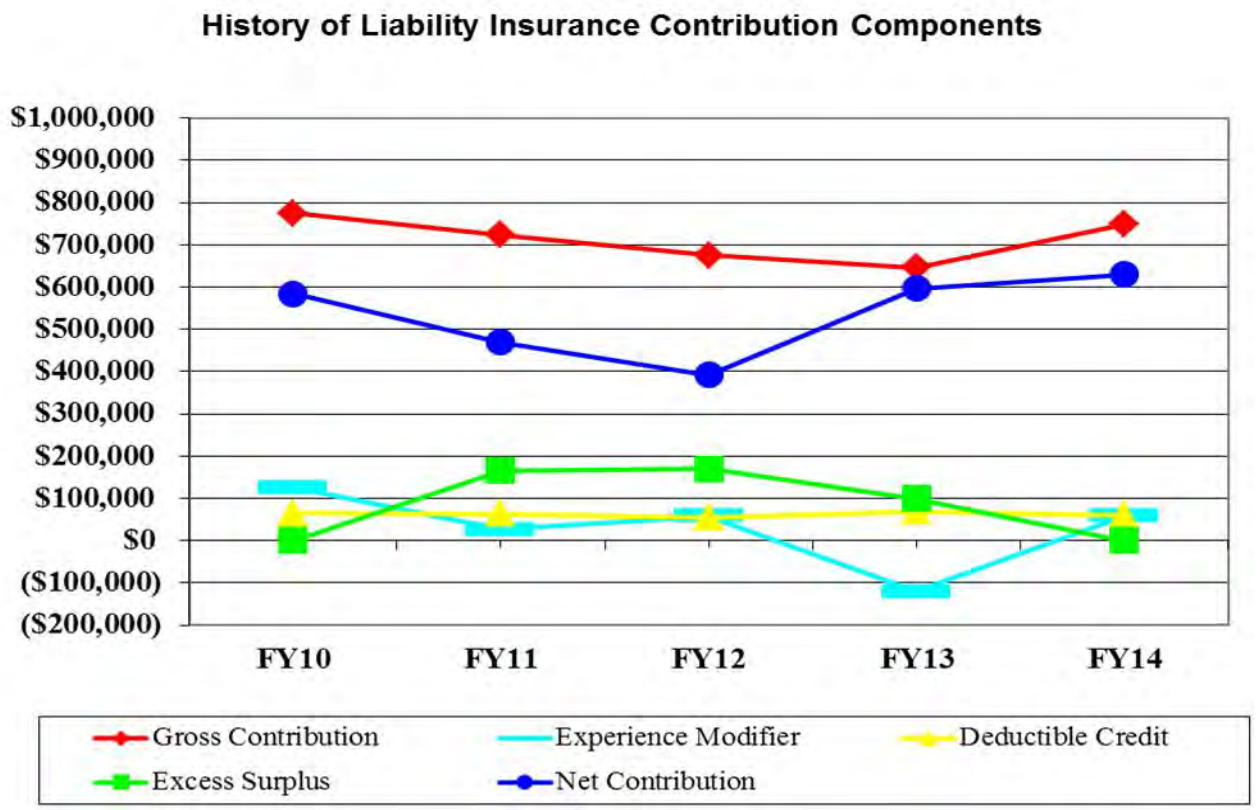
➢ **FY14 Activities and Objectives**

- A **grant application** has been submitted to IRMA to fund the hiring of an administrative intern for a six (6) week period during the summer of 2013. The grant would be administered through IRMA and the intern would be an employee of IRMA. The Assistant Village Administrator will supervise the intern, and working collaboratively with designated employees from other Village departments, develop several policies that were recommended as a result of the last IRMA Hazard Survey visit. No direct costs are anticipated from the FY14 budget.

- Continue to administer **safety training** and retraining of all Village employees targeting deficiencies identified by the IRMA Member Service Plan, Regulatory Visit and accident history. Training will utilize IRMA's onsite training assistance and training videos. No direct costs are anticipated from the FY14 budget.

Administration Division (continued)

Liability Insurance (continued)



Legal

The Village's FY14 Legal costs, across all Funds and Departments, totals $222,200 consisting of $222,200 in operating expenses and no capital outlays. This represents a $31,150 or 12% decrease from the FY13 budget which is primarily attributable to reducing the budget for legal fees for development projects. $50,000 or 23% of the total budgeted legal costs are attributable to development projects and are expected to be recovered directly from petitioners.

The Village retains the law firm of Castaldo & Associates, PC of Oak Brook, IL for corporate legal work, with Michael Castaldo Jr. acting as Village Attorney, an officer of the Village. Castaldo & Associates also serves as attorney for the Plan Commission and Zoning Board of Appeals. The Village also retains the services of two (2) other attorneys in private practice, one to act as Village Prosecutor for prosecuting DUI cases, traffic moving violations, and liquor and tobacco code violations and the other for property maintenance issues and more information describing this work is contained in the Village Services department - Building and Zoning division's portion of the FY14 budget. If any special legal work is necessary, it is typically performed at an agreed upon contractual rate, on an as-needed basis.

Administration Division (continued)

Economic Development

The Economic Development subdivision's FY14 budget totals $1.39 million consisting of $1.39 million in operating expenses and no capital outlays. The total budget represents an $18,100 or 1% increase over the FY13 budget.

➢ **FY14 Activities and Objectives**

- Continue to administer the business district **sales tax reimbursement** payments pursuant to the redevelopment agreement associated with the December 2007 designation and creation of the **Stratford Square Mall Business District** (the "Stratford BD"). Coincident with the creation of the Stratford BD, a 1% business district sales tax was approved which facilitated the construction and renovation of several improvements to the Stratford Square Mall. Through the redevelopment agreement and with the revenues generated from the 1% business district sales tax, the Village will reimburse a maximum of $20.00 million to the Mall's owner in consideration of the substantial costs that the construction and renovation required. In exchange, additional utilization of the Mall was enabled, as was the creation and retention of job opportunities and the viability of the Mall as a center of retail activity. Reimbursement payments began in July 2008 and $6.82 million has been paid through April 2013. The FY14 budget includes $1.34 million in the Stratford Square Business District Tax Fund representing the estimated reimbursement that will be paid in FY14.

- Begin to administer the **sales tax rebates** that will be paid pursuant to a March 2011 economic incentive agreement that the Village entered into with the owner of Bloomingdale Court shopping center which facilitated the commitment from **Wal-Mart** Stores, Inc. to expand the existing retail store into an 182,000 square foot super-center. The Village will rebate a maximum of $6.00 million to the retailer in consideration of the substantial costs that the expansion will require and in exchange, create additional utilization of the center, create and retain job opportunities and retain one of the Village's top ten sales tax generators. The FY14 budget includes $46,100 representing the estimated rebate that will be paid. Payments will commence upon the Grand Opening of the super-center which is projected to occur in the 4th quarter of 2013. Funding will be provided by the Home Rule Sales Tax Fund.

Information Systems Division

The Information Systems division's FY14 budget totals $507,030 consisting of $412,435 in operating expenses and $94,595 in capital outlays. The total budget represents a $90,555 or 22% increase over the FY13 budget, which is primarily attributable to the replacement of fourteen (14) in-squad mobile computers. $127,080 or 25% of the total FY14 budget will be recovered from the Water & Sewer Fund through service charges.

Information Systems Division (continued)

The division was established to afford users in-house support and to provide a thorough understanding and awareness of technology needs and trends as they relate to the various operations of the Village. It is entrusted with the responsibility of securing, administering, and maintaining access to the Village's data and voice communication resources, and the support of those resources. To fulfill this responsibility, the division manages the Village's network and voice infrastructure, desktop and mobile computers, data security systems, telephone and voicemail systems, and network servers. The division collaborates with all other Village departments, external service providers, various intergovernmental services and agencies, and vendors to maintain security, efficiency, connectivity and productivity.

Funding for data and voice technology expenses is generally located in the "Information Systems" organization. This structure provides a centralized accounting of costs associated with the Village's technology needs. Each department (Administration, Finance, Police, and Village Services) that requires expenses for proprietary applications and/or equipment specific to its operations enjoys a separate sub-division within the Information Systems division.

In an effort to reduce the Village's reliance on 3rd party providers for data communications, in FY13, the division caused to have installed a **Wireless Point-to-Point connection** between the Village Hall and the Public Works Maintenance Facility. The previous connection was piggy-backed on a legacy fiber network controlled by the local cable TV provider, which had created lags and slowness with the data sets that needed to be shared between locations. Additionally in FY13, additional data storage was accomplished by building a file server from parts and equipment on-hand. This provided a one-time savings of approximately $6,000.

➢ **FY14 Activities and Objectives**

- **Replace two (2) Konica-Minolta** multifunction devices located at the Public Works Maintenance Facility and at the Village Hall offices of Village Services. These machines were purchased in 2005 and have gone beyond the expected lifespan, by clocking over 900,000 images each. Replacing the machines should also reduce maintenance costs due to improved technology. The FY14 budget includes $15,000 in 01-01-004-0000-69101 for this project. Funding is being derived from the Capital Equipment & Replacement Fund.

- Upgrade all desktop operating systems to **Windows 7** and Office suites to **Office 2010**. Staff will perform the upgrade installations which are scheduled to begin in March 2013 with a tentative completion in June 2013. Training will also be scheduled. No direct costs, with the possible exception of training and limited peripheral hardware, are anticipated from the FY14 budget as the licensing agreement purchased in 2004 included an allowance for these upgrades. In FY13, $35,000 of the previously estimated total program cost of $135,000 had been assigned in the effort to pre-fund this project. That funding approach is no longer required and the assigned has been "released."

Information Systems Division (continued)

- Continue to provide **technology support and consultation** related to maintaining 137 desktop, mobile and laptop computers, eight (8) servers (3-file, e-mail, voicemail, print, and application), six (6) networked copiers/printers, and various other peripherals.

- Develop a **mobile computing policy**, while revising the existing Information Systems policy.

- Consider working with a **consulting IT professional group** to review internal policies, procedures, and future equipment needs.

- Coordinate with the Police Department to **replace fourteen (14) in-squad mobile computers** that were originally purchased in FY07 and have reached their original life expectancy and are now experiencing equipment issues and are in need of updating. The FY14 budget includes $70,170 in Information System's division, 01-01-004-0003-69101, to provide new hardware, operating system software, licensing and installation into each squad car. Funding will be provided by the Capital Equipment Replacement Fund.

Commissions and Committees Division

The Commissions and Committees division's FY14 budget totals $314,070 consisting of $314,070 in operating expenses and no capital outlays. The total budget represents a $39,990 or 11% decrease from the FY13 budget, which is primarily attributable to testing activity of the Board of Fire and Police Commissioners in the prior year not occurring again in FY14. The division includes the activities of the following functions or subdivisions:

General Fund –

- Plan Commission and Zoning Board of Appeals
- Board of Fire and Police Commissioners

Community Relations & Events Fund -

- Septemberfest Committee
- Business Promotion Committee

Plan Commission and Zoning Board of Appeals

The Plan Commission and Zoning Board of Appeals' FY14 budget totals $232,530 consisting of $232,530 in operating expenses and no capital outlays. The total FY14 budget represents a $30,585 or 12% decrease from the FY13 budget, which is primarily attributable to decreases in the budgets for the services of Attorney & Counsel and Planner. $113,300 or 49% of the budgeted costs are the result of development projects and will be recovered directly from petitioners.

The Plan Commission (the "Commission") and a Zoning Board of Appeals (the "Board") assists the Village Board in guiding, directing, and controlling growth and development. These bodies execute their duties as defined by Illinois Statutes and in the Zoning Regulations of the Village Code. Most of the zoning activity is conducted by the Commission, and the same seven (7) individuals, appointed by the Village President with the advice and consent of the Village Trustees, serve as members of both the Commission and the Board. A Planning & Development Coordinator (the "Coordinator") assists the Commission and Board in carrying out reviews of zoning requests on behalf of property owners, tenants, and developers, and also performs other functions related to general planning and development. A part-time Secretary serves the Commission.

The following overview describes the division's day to day activities in this area, and concludes with a forecast of milestones to be accomplished in FY14.

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

Responding to Development Needs -

Preliminary Inquiries: Most of the activity with respect to planning, zoning, and development is property and project specific. Generally, the first step toward an expansion or redevelopment is a telephone call, e-mail, or counter visit to discuss a project that is contemplated, and an inquiry as to the process to obtain whatever zoning approvals, and/or relief might be needed. Inquiries usually demand further research, as almost all commercial properties in the Village are planned developments. As such, each property will have site specific development ordinances, spelling out conditions of the zoning, including such details as color and materials for facades, lighting, landscaping, as well as any constrictions on the use.

Staff Level Reviews: Often initial inquiries lead to more involved investigations that stop short of a formal review by the Commission and Village Board. These staff level or "in house" review efforts can involve as much time as a formal review, depending on the issue. They can result in minor changes to a site plan or a consensus that a proposed use can move forward as presented. Conversely, the in-house reviews can lead to a formal Commission and Village Board review. Examples from FY13 include:

- The construction of a detailed Memorandum of Understanding which would have allowed for, if the project had progressed, an internet based motor vehicle sales use for a property where the special use zoning was limited to warehousing;

- Analysis of plans for a columbarium, with the ultimate interpretation that it was an accessory use to a cemetery;

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

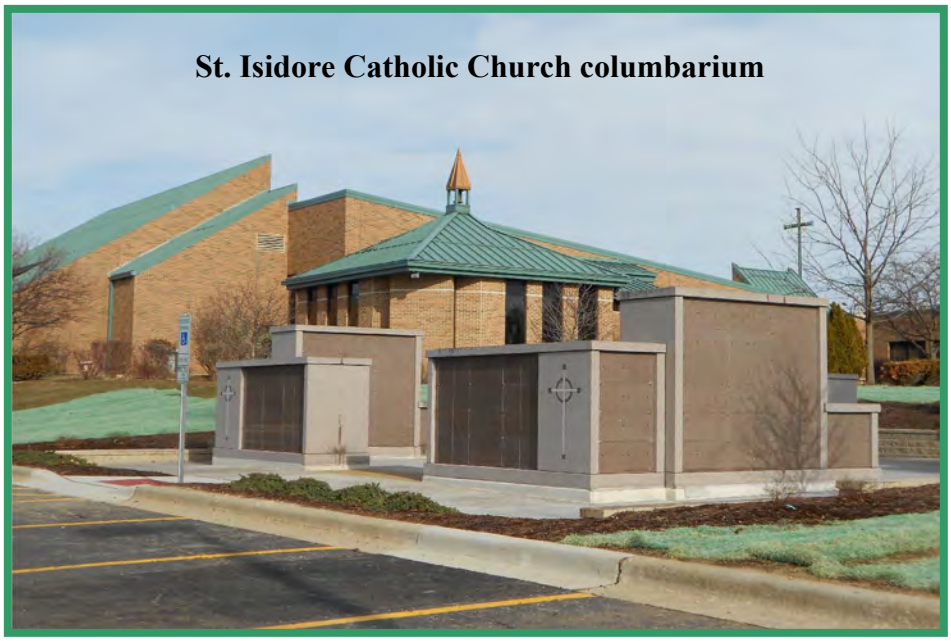
- Review of plans to enclose what had been drive-through banking lanes for the former Bloomingdale Bank and Trust operations and convert them to a garage for employee parking, including new landscaping and curbing in the bank parking lot;

- Review of a Light Emitting Diode ("LED") lighting installation for the McDonalds restaurant located at Lake Street and Bloomingdale Road, while working with Village staff to recommend adjustments to reduce glare and assure compatibility with the surrounding shopping center;

- Review of a change of identity for the Central DuPage Hospital medical offices located at Gary Avenue and Scott Drive; which required alterations to the building façade and signage;

- Analysis of tabletop devices at a fast-casual restaurant; with a determination that they were accessory to the principle restaurant function of order-taking and payment;

- Review of plans for a one-day circus in the parking lot of the Stratford Square Mall;



- Review of a proposed counseling center at the medical offices in the Old Town commercial area resulting in a clarification as to the operational parameters; with a determination that it was an accessory use to the medical offices; and

- Preparation and review of an agreement with Wal-Mart Stores, Inc to regulate the parking of semi-tractor trailer vehicles at the Wal-Mart store location in Bloomingdale Court.

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

Formal Reviews: Formal petitions for zoning relief, whether an exception to the sign ordinance, approval of a final site plan, granting of a special use permit, or granting of variations from one or more of the bulk regulations in the Zoning Regulations of the Village Code, constitute the most visible aspect of staff support for development in the Village. The Coordinator guides property owners, tenants, real estate developers, or their representatives, (collectively referred to as the "Petitioners"), as they navigate the zoning process. Staff identifies issues, assists with the preparation of public notices, provides timetables, specifies the information and documentation to be provided by the Petitioner, and estimates review costs.

Once the formal application is distributed, staff prepares Commission reports and Findings of Fact ("Findings"), attends the Commission meetings, prepares the Commission's recommendations for approval or denial of the petition to the Village Board for its consideration, and prepares the development ordinance for review by the Village Attorney. After the petition is approved through the adoption of an ordinance, other departments within the Village become involved to ensure that the project is implemented in substantial conformance with the approved plans. Despite the severe economic downturn, the Village processed thirteen (13) applications for new development and redevelopment; three (3) more than in the prior year.

Development highlights are summarized as follows:

- A final site plan was approved for the rehabilitation of a vacant gas station property at 201 East Lake Street. The new gas station will contain eight (8) dispensing stations, a convenience store measuring 2,200 square feet, and a small drive-through operation on the north side of the structure. The review process confronted complex issues, including an obsolete configuration of the plat of subdivision, rights of cross access limiting flexibility in design, and a water service line running through the property to an adjacent property.

- In Bloomingdale Court, vacant retail space adjacent to the Jo-Ann Fabric and Craft Store was granted final site plan approval to permit the renovation of the exterior façade for a Charming Charlie and a Dress Barn retail store.

- Vacated since February 2012, the former Ruby Tuesday restaurant building was redeveloped into a Buffalo Wild Wings restaurant which opened in Fall of 2012. The new site plan included the addition of seasonal outdoor dining for 75 people.

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

- A proposal to redevelop the vacant Tapas Valencia restaurant located at 241 East Lake Street for a Speedway gas station was the topic of two (2) public hearings before the Plan Commission, with over 85 attendees from the public at each hearing. Unilaterally, Speedway decided to suspend its effort for rezoning, exceptions to the Zoning Regulations, and site plan approval.

- The Village approved two (2) special use permits in conjunction with an El Burrito Loco restaurant in a building previously occupied by a Burger King restaurant and a gyros restaurant that had been vacant for over a year, to allow tableside alcoholic beverage service limited to beer and wine and outdoor dining.

Buffalo Wild Wings & new outdoor dining on left
140 S. Gary Ave, Bloomingdale, IL 60108

- A long vacant building, previously occupied by a Kinder Care, and re-zoned to allow a church in 2007, was approved for a new day care center owned and operated by the Sisters of Mercy religious order. Many of the special conditions that had been put into place for use as a church, as well as the changes that had been made to the site to accommodate additional parking for the church, needed to be re-evaluated and reconfigured to allow for a new circulation pattern and the construction of a playground area.

- At Stratford Crossing, the Village approved a new façade for the space that was formerly occupied by a Circuit City, to allow two (2) retail stores, including Party City. An illustration of the new façade can be seen on the following page.

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

New façade at Stratford Crossing Shopping Center

Initiating Planning and Development -

The second activity category of the division involves research, preparation, and presentation of planning and development topics initiated by the Village itself.

- In June of 2012, the Village approved numerous text amendments to the Zoning Regulations of the Village Code, the preparation of which was the culmination of almost two (2) years of Plan Commission working sessions, discussions with the Village Board, public hearings, and the preparation of Findings of Fact, ultimately leading to Village Board approval.

Principle among the amendments, were changes that would serve to increase flexibility for wall-mounted and free standing signage, especially multi-tenant signs. The amendments were put forward in the interest of facilitating development and increasing sign visibility, while adding protections to ensure that new signage would not disrupt the Village's aesthetic identity. The amendments can be viewed as assistance to the business community, in that staff is now allowed to review and approve without a public hearing, but within certain parameters, requests from restaurants to serve beer and wine, or to allow outdoor patios.

➢ **FY14 Activities and Objectives**

- Review the **Zoning Regulations** title of the Village Code to determine the most appropriate sections in need of updating. One section that will be explored is the *DEFINITIONS* to ensure that they reflect current land use trends.

- Build **professional capacity and expertise** of the members of the Plan Commission and Zoning Board of Appeals by conducting informational meetings on a variety of contemporary topics.

Commissions and Committees Division (continued)

Plan Commission and Zoning Board of Appeals (continued)

➢ **FY14 Activities and Objectives (continued)**

- Continue the efforts toward developing a plan for the limited development of 35 acres of vacant land, formerly part of the Indian Lakes Resort ("Resort") golf course, acquired from the Resort in 2007. A consulting firm was chosen in October 2012 pursuant to a Request For Proposal (RFP) process to assist in developing the plan and initial field investigation was completed in December 2012. Future work involves coordinating feedback from residents in the immediate vicinity, as well as seeking input from other Village residents and stakeholders, to determine the most appropriate kinds of passive uses.

View from Cardinal Drive looking SW at entry of 35 acres of open space adjacent to Hilton Indian Lakes Resort

- Continue to research the affects of **proposed new zoning regulations concerning exterior lighting**, more specifically, to formalize informal guidance staff has been offering to petitioners, and to update restrictions so as to allow for higher levels of light than is currently allowed in certain areas.

- Complete efforts, begun in 2011, to provide property-specific guidance with respect to **development opportunities** within the Village. Refine information posted to the Village web site in 2012 to include a map showing the location of properties available for sale or lease, as well as guidance as to best development potential from the Village's standpoint.

- Increase capacity with respect to a wide range of **transportation issues** affecting the Village, and nearby municipalities.

- Assist in providing important feedback to those involved in determining potential cost sharing of improvements needed to **foster new development or redevelopment**.

Commissions and Committees Division (continued)

Board of Fire and Police Commissioners

The Board of Fire and Police Commissioners' (the "BOFPC") FY14 budget totals $10,300 consisting of $10,300 in operating expenses and no capital outlays. The total budget represents a $39,450 or 79% decrease from the FY13 budget attributable to conducting a Sergeant and a Police Officer eligibility test in FY13. These tests do not need to be conducted in FY14.

The BOFPC derives its authorities and responsibilities from a State statue, 65 ILCS 5/10-2.1, entitled, "Division 2.1 Board of Fire & Police Commissioners". Its role consists of conducting examinations for initial police officer appointments and certain police officer promotions and conducting hearings on charges brought against sworn officers, but only non-bargaining unit members, of the Police department. Despite its identifier, the BOFPC does not govern the operation of the Police department, nor has any involvement in the selection of fire fighters or paramedics, as fire suppression and emergency medical services are provided by separate unit of local government, not under the jurisdiction of the Village. The budget includes funding associated with **hiring new police officer(s) in the event turnover occurs** within the Police department.

Septemberfest Committee

The Septemberfest Committee FY14 budget totals $30,365 consisting of $30,365 of operating expenses and no capital outlays. Included in the total budget is $12,000 for scholarship awards ($6,000 to be awarded at the **2013 Septemberfest** and $6,000 awarded in prior years' that remains unclaimed) which are or will be 100% funded by private donations. The total budget represents a $1,000 or 3% increase over the FY13 budget. Event generated revenues of $5,000 are anticipated and will offset the cost of the event. The remaining Event costs of $13,365 will be provided by the Community Relations & Events Fund, which revenues come primarily from hotel use taxes.

The Septemberfest Committee plans and organizes the annual autumn Septemberfest, which is typically a one-day event held annually after Labor Day in the Village's historic Old Town area. It provides local not-for-profit organizations with a Village coordinated fund-raising opportunity. A parade, entertainment, food, and craft booths are all part of the day-long festivities.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

Commissions and Committees Division (continued)

Business Promotion Committee

The Business Promotion Committee (the "BPC") FY14 budget totals $40,875 consisting of $40,875 of operating expenses and no capital outlays. The total budget represents a $29,045 or 246% increase over the FY13 budget, which is primarily attributable to plans to redesign the Village's website and new holiday decorations. Funding is derived from the Community Relations & Events Fund, which revenues come primarily from hotel use taxes.

The BPC is comprised of local business people who develop local business promotion initiatives. In previous years, the Committee also spearheaded several cultural activities; however, those types of activities have dwindled. In response, the name of the Committee underwent a change and the phrase "Cultural Development" was removed to better reflect the Committee's purpose.

➢ **FY14 Activities and Objectives**

- Develop a **Business and Economic Development web page** in conjunction with the new Village website, to include the following:
  - on-line permitting and licensing capability,
  - business/resource directory,
  - real estate locator to track available commercial sites and buildings,
  - population demographics, Village policies, regulations and processes, and
  - contact information related to economic development.

  The FY14 budget includes $35,000 for this Activity (see **Development & Implementation of New Village Website** described in the Executive and Legislative division of this Narrative).

- Continue support for Bloomingdale's small, independent businesses with promotion and public education of the **3/50 Project**, and through continuing support and promotion of SCORE services available at the Bloomingdale Chamber of Commerce offices.

- Provide and support **business seminars** targeted towards small businesses in coordination with the Bloomingdale Chamber of Commerce. The FY14 budget includes $2,600 for these initiatives.

- In attempt to "spruce up" the Village streetscape during the summer and winter months, $3,750 has been included in the FY14 budget for 50 new **summer banners** to be displayed along Schick Road, and $27,500 for 50 new **holiday decorations** to be displayed along Lake Street.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Administration Department Narrative

Almanac Division

The Almanac's FY14 budget totals $92,725 consisting of $92,725 of operating expenses and no capital outlays. The total budget represents a $1,635 or 2% decrease from the FY13 budget. $24,250 (26%) of the budgeted costs will be recovered from contributing governmental agencies, and which is accounted for as revenue. The remaining $68,475 is funded by hotel use taxes.

Village of Bloomingdale Almanac

December 2012 — Growth with Pride

Annual "Kids Shop with Bloomingdale Cops" at Meijer's

Kids Shop with Bloomingdale Cops is organized by the Bloomingdale Fraternal Order of Police Lodge #175. Each holiday season, the officers of the department seek to share and spread joy to community children in need. The children identified are accompanied by a police officer as they shop for gifts for themselves, as well as gifts for the child to give to others. The event also provides a great opportunity for the youngsters to meet local *(continued on page 11)*

The 3/50 Project

Which three local businesses would you miss if they closed their doors? Maybe it's the pizza joint where you regularly grab the best tasty slice in town. Perhaps it's the local drug store where the pharmacist knows both you and your family members by name. What would you do without the local florist who knows exactly what your wife will love for your anniversary?

Small business (defined as having 500 or fewer employees) is the lifeblood of the American economy, accounting for an astounding 99.7 percent of all employer firms, (according to a 2007 study by the U.S. Department of Commerce). Yet locally owned independent businesses are under far more pressure than ever. Trying economic times have consumers searching for perceived bargains at large chain stores. This coupled with corporate buyouts of the smaller businesses resulting in large chain stores that are "too big to fail" has made it a treacherous business environment for the little guys.

In support of Bloomingdale's Small Businesses, the Village has joined the 3/50 Project, which is a national initiative created by Cinda Baxter, a Minneapolis-based retail consultant in 2009. **The primary mission of the 3/50 Project is "Saving the Brick & Mortars Our Nation is Built On," and is based on a simple message: Pick 3 local businesses; Spend $50 each month at them collectively.** For every $100 spent in locally owned stores, $68 remains in the local economy. In contrast, only $43 of every $100 remains local when spent in national chains, and $0 comes back when purchases are made online.

Candidate Petitions Accepted in December for Village & Library Seats

The Office of the Bloomingdale Village Clerk Irene M. Jones, 201 S. Bloomingdale Road, will be open from Monday, December 17 through Friday, December 21 from 8:30 a.m. to 4:30 p.m. and also on Monday, December 24 from 8:30 a.m. – 5:00 p.m. in order to accept candidate petitions and certificates of nomination for the Consolidated Election to be held on April 9, 2013.

The following positions will be up for election.

Village President – Four-Year Term

Village Clerk – Four-Year Term

Three Village Trustees – Four-Year Terms

Four Library Trustees – Four-Year Terms

The Village Hall will ONLY be open for the acceptance of petitions on December 24, Christmas Eve. No other business will be conducted.

The Almanac is a comprehensive public relations vehicle published by the Village bi-monthly. Other local government agencies (Bloomingdale Public Library, Fire Protection District, and Park District) and the Bloomingdale Golf Club add material to each issue to create a thorough resource for its readers. The Almanac contains helpful information for residents and businesses regarding Village services and programs, as well as news on Village events and people. 10,000 copies are printed for each bi-monthly volume, with 9,900 being direct-mailed to every residential and commercial address in town.

The Village and contributing entities continue to receive positive public comments regarding the benefit of this publication. With the increasing Village E-News enrollment and general public communication practices trending towards electronic media, a review of communication venues used by other municipalities. In consultation with the Library and Park District, a review of possible changes to the Almanac's production and/or distribution approach will be undertaken with any recommended changes being presented to the Village Board for implementation in January 2014.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Golf Course Department Narrative

Golf Course

The Village owns and operates the **Bloomingdale Golf Club**, and golf course operations are accounted for in a separate enterprise fund**.** The Golf Course Fund's total FY14 budget is $1.79 million consisting of $1.38 million in operating expenses and $408,500 in capital outlays. The total budget represents a $415,185 or 30% increase over the FY13 budget. This change can be traced to the maintenance projects planned to be accomplished in FY14 and capital outlays, more specifically the possible roof replacement project.

Golf Course Department Budget History

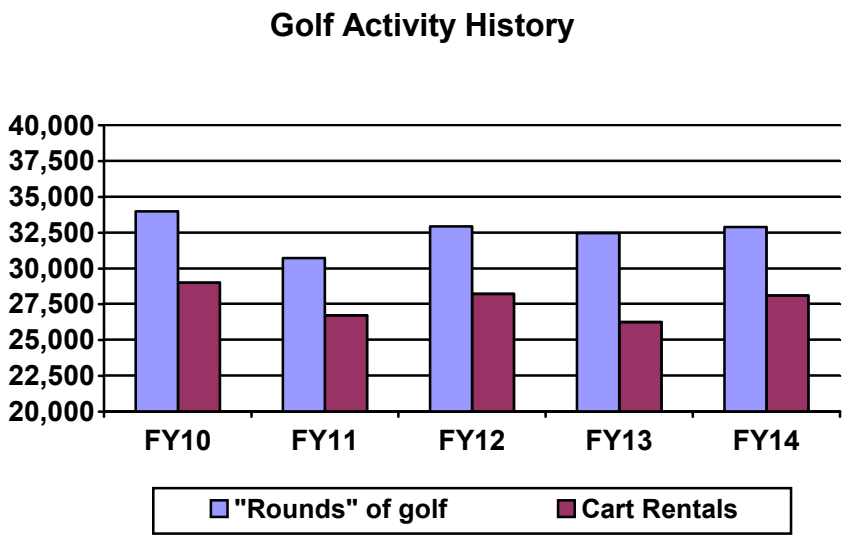
	FY11 Actual	FY12 Actual	FY13 Budget	FY13 EOY	FY14 Budget
Golf Course	**$1,262,752**	**$1,303,003**	**$1,372,500**	**$1,305,980**	**$1,787,685**

Golf course operations are managed by an independent contractor, employing an on-site manager, under an agreement that extends through 2014. The manager is supported by a PGA golf professional who is responsible for the pro shop, starters, rangers, practice facility, and education programs. A full-time grounds superintendent, together with mechanics and laborers, maintains golf course equipment and the grounds, and constructs many of the small-scale course and clubhouse improvement projects. All golf course employees are employed by the independent contractor.

Pro shop operations are also leased to an independent contractor, who assumes all risks of inventory, marketing and sales. The **clubhouse banquet facilities** are leased to a catering contractor that manages all food and beverage service at the clubhouse, and on the golf course through refreshment carts and a halfway house. The catering business holds a Village liquor license.

The Golf Course Fund's fiscal objective is to generate a targeted net income from operations of $200,000, before depreciation. An illustration of the measurement of this objective can be found in the Introduction Section. Over the last few fiscal years, the $200,000 objective has not been met, although positive net income from operations has been generated in lesser amounts.

Golf Course (continued)



FY14 budgeted revenues are projected to be $1.36 million which represents a decrease of $94,480 or 6% from the FY13 budget.

Greens fees are budgeted to be $801,500 in FY14 versus the $884,600 budgeted in FY13. Cart rental fees are budgeted to be $372,000 in FY14 versus the $378,000 budgeted in FY13. The decrease in greens fees can be attributable to a few factors, those being the state of the economy, the changing popularity of the sport and the type of "rounds" being played by today's golfer. There has been a movement toward playing a 9-hole "round" versus the traditional 18-hole "round" of golf, presumably because of the time commitment of the latter.

An average of the past five (5) years of "rounds" played (32,900) and cart rentals (28,100) was used to develop the FY14 budget for greens and cart rental fees as depicted in the chart above. While past performance is not an indicator of the future, reliance on this history acknowledges weather cycles, business cycles as well as changes in consumer choices. Greens fees and cart rental rates have been set to remain competitive, providing good value for the golf experience. The golf club's practice facility provides an area for golfers to warm-up prior to their "round" and also offers regular practice sessions, clinics, youth programs, and private lessons, all presenting additional value to customers.

➢ **FY14 Activities and Objectives**

Revenue enhancements –

- Modification to the greens fee and discount structure, through the introduction of a **"Community Card"** program. This program will simplify the greens fee structure for both the golfer and golf course staff and it will provide an opportunity for the golfer to "pre-pay" or "buy" an unlimited number of discounted greens fees for a nominal one-time (per year) fee.

Maintenance projects -

- **Replace the concrete sidewalk**, and perform curb and gutter repairs at the circular entrance of the Club House - $5,000

Golf Course (continued)

➢ **FY14 Activities and Objectives (continued)**

Maintenance projects (continued) -

- **Replace the concrete sidewalk**, and perform curb and gutter repairs at the circular entrance of the Club House - $5,000
- Patch, seal coat and re-stripe the Club House **parking area** - $20,000
- Repair the **stairs on the west veranda** of the Club House - $10,000
- **Paint the entire exterior** of the Club House - $55,000
- Replace **the carpet in the dining room area** of the Club House - $36,000
- Purchase a **flail mower**. This is a carry-over from the FY13 budget - $4,800

Capital Outlay projects –

- Purchase a **chemical recycling system**. This is a carry-over from the FY13 budget - $20,000
- Replace three (3) **walking mowers** for greens maintenance to replace older equipment - $22,500
- Purchase one (1) new (i.e. – an addition to the equipment inventory) **walking mower** for greens maintenance - $7,500
- Construct **drainage improvements** on hole #s 2, 3, 4, 5 and 14 - $15,000
- Monitor the condition of the **Club House roof** as it is still a concern. A "place marker" for the possible total replacement is included in the FY14 budget - $275,000.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Finance Department Narrative

Overview

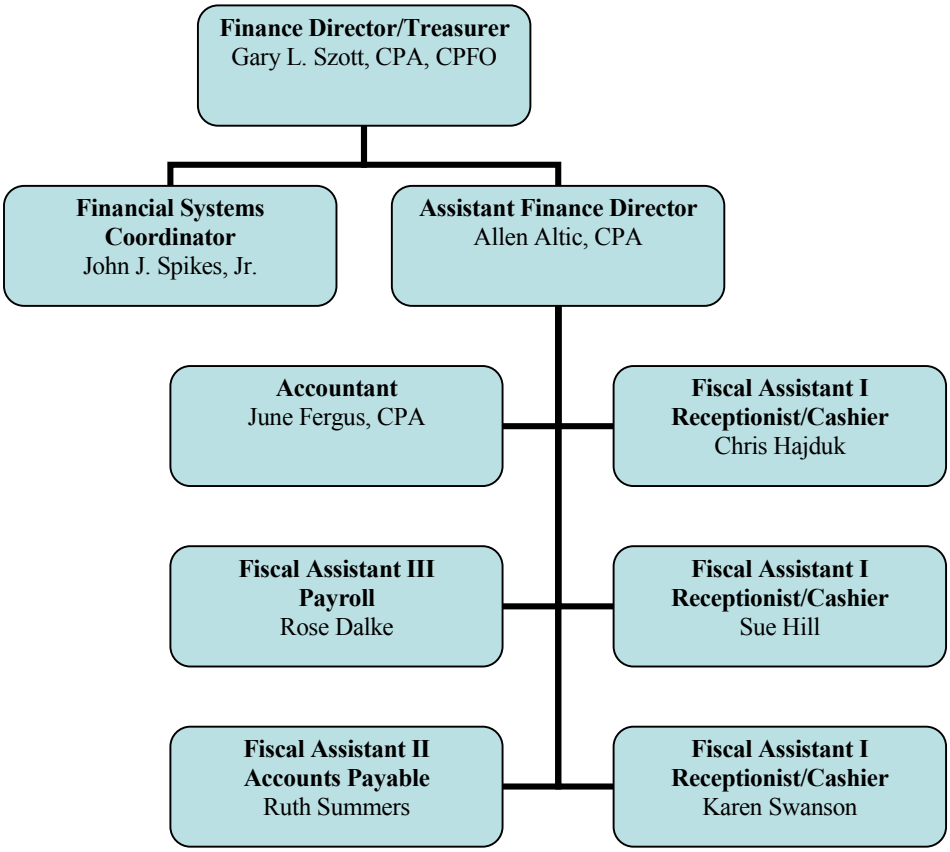
The Finance Department's FY14 budget totals $5.05 million consisting of $882,930 in operating expenses, no capital outlays and $4.17 million in debt service. The total budget represents a $38,705 or 1% decrease from the FY13 budget. Additionally, the Department has direct responsibility over $8.69 million of the revenue plan emanating from current services charges in the Water & Sewer Fund (i.e. – water & sewer rate revenue and related other charges) and interest income from all Funds.

Finance Department Budget History

	FY11 Actual	FY12 Actual	FY13 Budget	FY13 EOY	FY14 Budget
Finance					
Finance	$842,702	$826,229	$871,835	$841,950	$882,930
Debt Service	$4,333,121	$4,257,155	$4,214,805	$4,057,720	$4,165,005
Total Finance	**$5,175,823**	**$5,083,384**	**$5,086,640**	**$4,899,670**	**$5,047,935**

The Department is delegated the responsibility of ensuring that the Village's fiscal resources are used in a manner consistent with the intentions of the Village President and Board of Trustees. To fulfill this responsibility, the Department manages the accounting, financial reporting, auditing, finance related information technology, debt service, payroll, accounts payable, accounts receivable, utility billing, cashiering and Village Hall receptionist functions.

The day-to-day operations are performed by nine (9) employees equating to seven and one-half (7.50) full-time equivalent positions, illustrated in the organization chart to the right. While each position has its essential duties and responsibilities, cross training is undertaken to provide continuity of operations and support to other functions on an as-needed basis.



Finance (continued)

In FY14, the Department expects to prepare or process approximately 3,600 accounts payable payments, 6,800 payroll payments, 16,500 electronic ACH transactions, 500 accounts receivable invoices, plus approximately 200 investment transactions related to the Village's approximate $24 million investment portfolio. Approximately 53,200 utility bills, reminder notices and final notices will be issued in managing the approximate 7,300 active utility customer accounts. These customers are projected to consume 772 million gallons of water and produce 759 million gallons of waste water.

Financial statements are prepared in conformity with generally accepted accounting principles and culminate in the preparation of a **Comprehensive Annual Financial Report (CAFR)**. The CAFR is posted on the Village's website for easy public access. For the past twenty-three (23) consecutive fiscal years - through FY12 - the Village has received the prestigious national Certificate of Achievement for excellence in Financial Reporting award from the Government Finance Officers Association (GFOA) which recognizes the highest standards in preparing and presenting state and local government financial reports.

The Department is instrumental in the compilation of the Village's **Annual Budget** document, which establishes management's fiscal plan for carrying-out the goals and objectives of the Board of Trustees and is used through-out the year as a guide and control tool by Village staff. The FY14 budget is communicated through approximately 1,400 revenue and expense line items plus narrative discussions that provide a detailed insight into the Village's spending plan. In addition, numerous financial schedules provide the reader with an opportunity to gain a significant amount of knowledge and understanding of how the Village plans to achieve its goals. Posting of the proposed FY14 budget on the Village's website provides for easy public access.

➢ **FY14 Activities and Objectives**

- Evaluate the content and organization of the Village's FY14 budget document for the purpose of pursuing the **Distinguished Budget Presentation Award Program** (the "Award Program") sponsored by the GFOA. The GFOA established the Award Program in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting, and to recognize individual governments that succeed in achieving that goal. Documents submitted to the Award Program are reviewed by selected members of the GFOA professional staff and outside reviewers with experience in public-sector budgeting. Budget documents are determined to be either *not proficient*, *proficient*, or *outstanding* in regard to 27 specific criteria, grouped into four (4) basic categories; 14 of the 27 specific criteria are mandatory. The cost of this endeavor includes significant staff time and a $330 application fee.

Finance (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Electronic utility bill presentment** is the ability for customers to receive their utility bills electronically (i.e. – via email) instead of receiving a paper bill through the mail. This delivery method eliminates the cost of postage and creates some printing cost savings; however there are costs associated with the service and the related data storage. There is a "green" benefit through the reduction of paper used in generating the bills and envelopes and the decreased need for "printers ink". This service will allow customers to choose to sign up to receive "e-bills". The Water & Sewer Fund's FY14 budget contains $20,000 in 40-02-000-0000-various accounts, for the implementation, processing and maintenance of this service.

- Improve the receipting function for utility bill payments, through the use of **web-based payments** providing customers the option to pay bills by credit card at or through the Village's web site. It would increase customer service and provide greater assurance that bills will be paid and collected. There are a number of potential solutions that vary in cost and complexity. A fully integrated solution would integrate the on-line payments into the Village's financial software thereby eliminating the duplication of manually posting the payment to individual utility billing accounts. Preliminary research into this matter indicates that web-based payments are often an integral component of the aforementioned **electronic utility bill presentment** service. As such, costs associated with providing web-based payments are reflected in the budget for the electronic utility bill presentment services.

- Implement the internal due diligence and data exchange processes related to the Intergovernmental Agreement between the Village and the Illinois Department of Revenue in conjunction with the **Local Debt Recovery Act**. This program provides an additional means by which the Village can collect on monies it is owed. Generally, the process works as follows. The Village provides the State a listing of the aforementioned fines and fees it is owed. The debt must be less than seven (7) years old, greater than $10 and not be in litigation. Before the State issues a check for a tax refund, commercial payment, lottery winning, unclaimed property or payroll check, it cross-references the check payments to the Village's list. If there is a match, the debtor is notified and is provided 60 days to appeal the debt. The Village may be required to submit to the State documentation proving the existence of the debt and due diligence in collection efforts. A State hearing officer will make a binding determination regarding the appeal and either payment will be issued to the Village or the debtor. The State charges a $15 fee per transaction that is assessed against the debtor. The Village incurs no direct fees or costs by participating in the Program.

Finance (continued)

➢ **FY14 Activities and Objectives (continued)**

- Pursue a **review and audit of the Village's telecommunication, hotel use and sales tax revenues** to assure completeness of the revenues due and owing to the Village. This effort would be accomplished by hiring of a third-party to research, analyze and compare various external and/or proprietary databases to Village records. Costs for the third-party services would be "off-set" against "new" or additional revenues thus effectively making this effort a no-cost, in respect to direct costs, program.

- Research and implement **a procurement card program** for purchases to reduce costs as well as improve "back-office" efficiencies. Traditional purchase transactions require multiple steps to complete and cost, on average, $100 per payment to process. Procurement cards work similar to a consumer credit card but have additional security features and advantages that allow greater control over activity; such as, vendor limits as to type and amount, per transaction dollar limits, monthly credit limits, etc. To gain full advantage of the efficiencies, additional software is required to interface card data with accounting systems. The FY14 budget includes $10,060 in various line items for software, training and maintenance costs in IS- Finance cost center, 01-01-004-0002.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Police Department Narrative

Overview

The Mission of every member of the police department is to consistently seek and find ways to affirmatively promote, preserve, and deliver a feeling of security, safety, and quality service to the members of the community.

The Police department's FY14 budget totals $8.24 million, consisting of $8.03 million in operating expenses and $208,600 in capital outlays. The department's total FY14 budget represents a $76,300 or 1% decrease from the FY13 budget. FY14 is the first year in which the police department's budget has been delineated between the Administration and Operations divisions.

Police Department Budget History

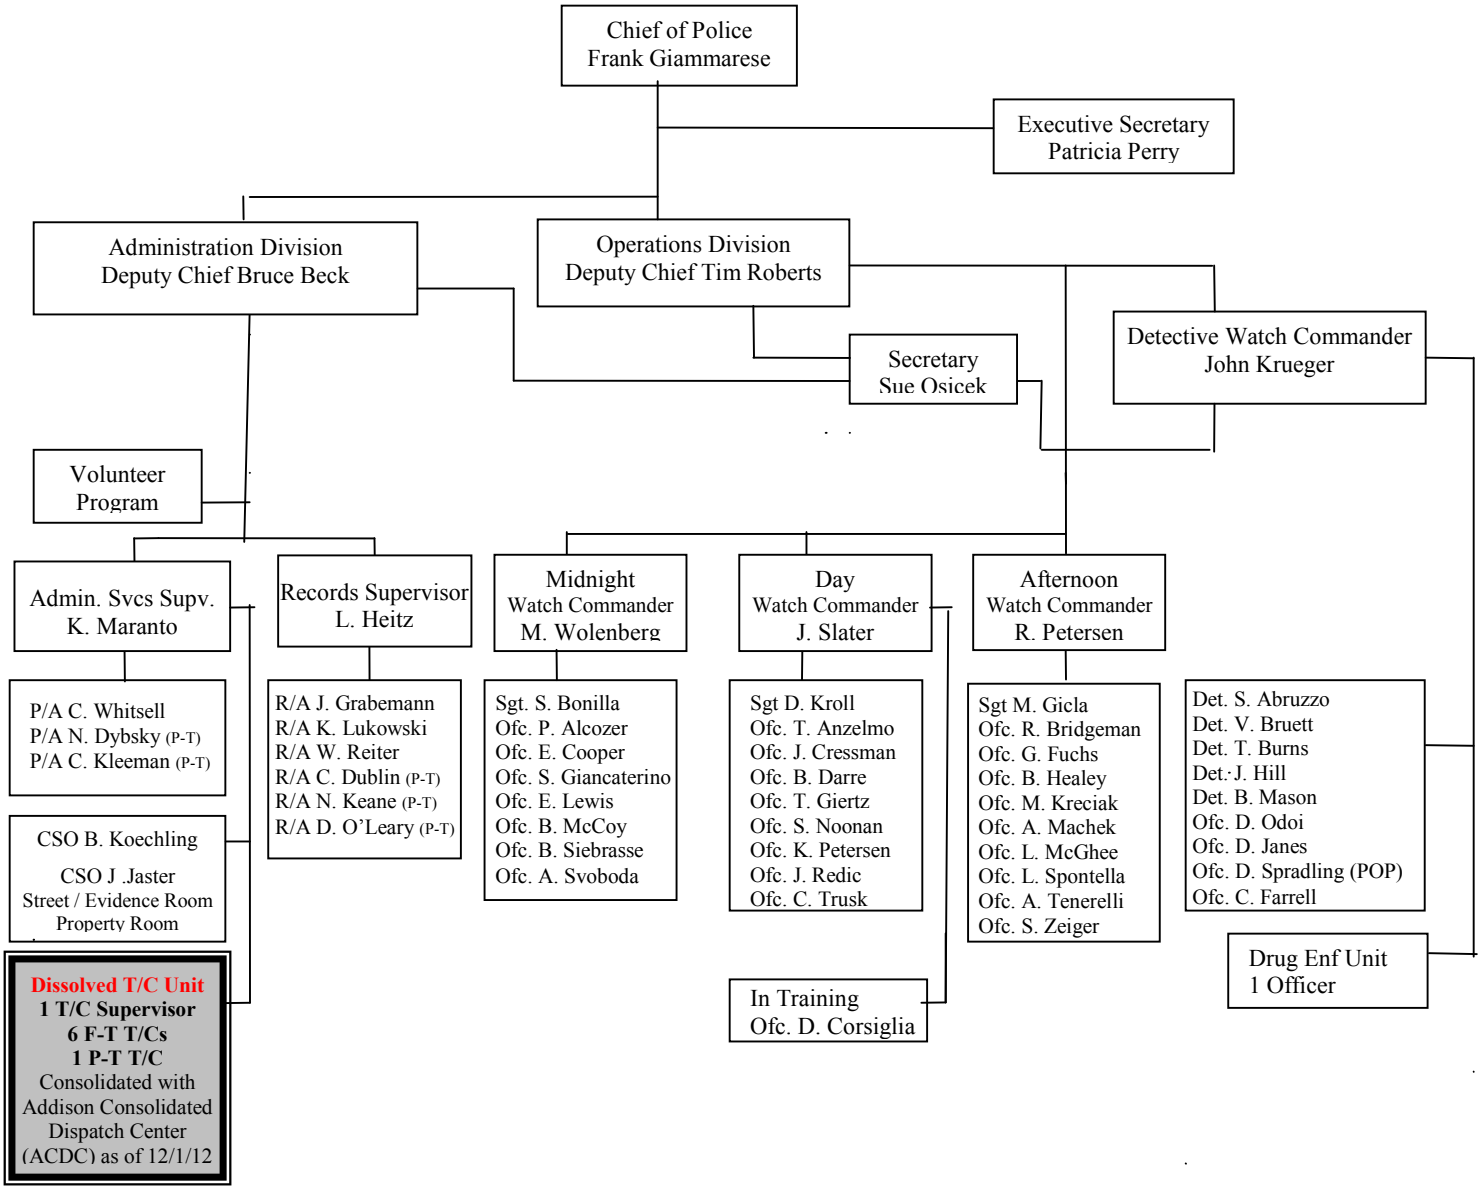
	FY11 Actual	FY12 Actual	FY13 Budget	FY13 EOY	FY14 Budget
Police					
Administration	$7,522,502	$7,524,076	$8,313,540	$8,317,150	$2,004,010
Operations	$0	$0	$0	$0	$6,233,230
Total Police	**$7,522,502**	**$7,524,076**	**$8,313,540**	**$8,317,150**	**$8,237,240**

The personnel complement of the department is forty-five (45) full-time sworn police and fifteen (15) non-sworn (civilian) employees. Of the forty-five (45) "active" full time sworn officers, one (1) holds a Juris Doctorate, one (1) holds a master degree, twenty-six (26) hold bachelor degrees, four (4) hold associate degrees, and the remaining thirteen (13) have completed some college-level course work.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Police Department Narrative

Police (continued)

The department's Organizational Chart provides a graphical presentation of the organization, chain of command, lines of authority and communication.



Actual Strength (as of 2/19/13)

1 Chief
9 Sergeants
  2 Deputy Chiefs
  4 Watch Commanders
  3 Patrol Sergeants
35 Police Officers (includes 5 Detectives)
45 Total Sworn full-time Ofiicers

1 Executive Secretary
1 Secretary
1 Administrative Services Supervisor
3 Police Aides (1 full-time; 2 part-time)
1 Records Supervisor
6 Records Assistants (3 full-time; 3 part-time)
2 Community Service Officers
15 Total Civilians, includes 5 part-time

Police (continued)

The Command staff consists of the Chief of Police, and two (2) Deputy Chiefs, both of whom report directly to the Chief of Police, and are responsible for one (1) of two (2) functional divisions – the **Administration Division** and the **Operations Division.**

Left to right Deputy Chief Beck, Chief Giammarese, Deputy Chief Roberts

The **Administration division**'s FY14 budget totals $2.00 million consisting of $1.99 million in operating expenses and $11,400 of capital outlays.

The division consists of Administration, a Records Section and a Police Aide Section, which includes the property and evidence control function. Administration is comprised of the Police Chief, the two Deputy Chiefs, there is one (1) Executive Secretary who is assigned to the Chief of Police and one (1) Secretary who is assigned to the two Deputy Chiefs and the Detective Section of the Operations division. The Records Sections is staffed by of one (1) Police Records Supervisor, two (2) Community Service Officers, three (3) full-time Records Assistants, and three (3) part-time Records Assistants. The Police Aide Section is staffed by one (1) Administrative Services Supervisor, one (1) full time Police Aide, and two (2) part-time Police Aides. Except for the Police Chief and Deputy Chiefs, the above are non-sworn positions.

In FY13, the Administrative Division was assigned the task of consolidating the former Telecommunications Section with the Village of Addison **Consolidated Dispatch Center**. This transition was successfully completed on December 1, 2012. Moving forward, the department's charge is to remain open 24 hours a day, seven (7) days a week by having a Police Aide assigned to the front desk during hours when Records Section personnel are not present. Additionally, radio communications were transferred to the **Starcom 21** radio platform, which now allows for interoperability with other local/regional police and governmental agencies during a significant event, emergency, or crisis on a local, regional or statewide basis.

Police (continued)

The **Operations division**'s FY14 budget totals $6.23 million consisting of $6.04 million in operating expenses and $197,200 of capital outlays.

The division consists of the Patrol Section and the Criminal Investigations/Youth (CIY) Section. The Patrol Section includes the community relations and crime prevention functions, and is staffed by six (6) Supervisors, and thirty (30) Patrol Officers. The CIY Section (adult and juvenile investigations) is staffed by one (1) Supervisor and five (5) Detectives.

The **Patrol Section** undertakes weekly initiatives, which target both community and law enforcement concerns throughout the year. These initiatives include enforcement of laws pertaining to texting and talking on cell phones while driving in school or construction zones. Patrol officers perform retail theft prevention initiatives by working undercover at strategic locations within Stratford Square Mall. Consequently, they are able to promptly identify suspicious activity and take appropriate action. The Patrol Section continues to use proactive methods to solve crimes and generated the following activity statistics which has comparative data from the prior calendar year.

Activity	CY11		CY12	
	#	%	#	%
Traffic collisions	1,298	6 %	1,260	6%
Incidents requiring a report	3,064	14 %	2,818	13%
Traffic citations	5,076	22 %	4,814	23%
Parking citations	2,139	9 %	2,028	10%
Written warnings	9,760	43 %	9,073	43%
Non-Traffic citations	703	3 %	733	3%
Arrests processed	693	3 %	499	2%
TOTAL	**22,733**	**100%**	**21,225**	**100%**

Community Relations and Crime Prevention continues to be high priorities. Networking with other governmental entities and sharing resources concerning various programs is intended to enhance community relations and education, while minimizing budget outlays. Continued evaluation of individual community relations programs occurs to determine cost-effectiveness. Some key Community Initiatives that will continue in FY14 are:

- Department Open House
- Safety Talks
- Station Tours
- Senior Fair Day
- Neighborhood Watch
- School Assembly
- Child Seat Safety Checks
- Septemberfest
- National Night Out
- Senior Citizen Advisory Council
- Youth Peer Jury
- Chamber of Commerce 5-Star Expo

Police (continued)

The **National Night Out** program and the department's **Open House** continue to be successful community programs. The National Night Out enjoyed an attendance of over 900 participants, while the Open House had over 700 participants. Both programs continue to help forge a partnership between the greater Bloomingdale community and the department.

Additionally, the department provides a **variety of services** with the intent of promoting crime prevention, public safety, and the overall protection of the community. These services include ***CodeRed***, a notification system by which residents can be updated on relevant issues and emergency situations occurring in the Village.

Bloomingdale Officers at a community event

Chief Giammarese giving a safety talk to children.

The department has a ***Facebook*** page where residents can learn more about the department and keep up with social media trends affecting the community. The department takes **great pride in the service it provides** to the residents and will continue the commitment to improving the quality of life in the Village.

Police (continued)

The **Criminal Investigations/Youth Section** was assigned 799 cases for follow-up in 2012 and it continues to increase its intergovernmental cooperative efforts by collaborating and supporting the DuPage County Major Crimes Task Force. The department has one (1) officer assigned to the DuPage County Sheriff's Drug Unit. Other outside resources and contacts include the FBI's Joint Terrorism Task Force Liaison Officer Committee Program (TLOC), the DuPage County SWAT team, and the Regional Organized Crimes Task Force.

Promotion ceremony for Sergeant Bonilla

Some key department initiatives from the prior year include:

- In calendar year 2012, the **Problem Oriented Police (POP) unit** continued to be a proactive resource to address specific concerns from residents and local businesses. These concerns included traffic enforcement and crime prevention initiatives. There were two (2) police officers assigned to this detail throughout the year. The officers made 124 arrests, 15 of which were for felonies, and, overall, the POP unit assisted on 187 investigations. They also conducted 354 traffic stops.

- In calendar year 2012, the department had one (1) police officer assigned to an **Illinois Law Enforcement Alarm System (ILEAS) Regional Mobile Field Force Team**. These teams consist of 50-70 officers, from various police departments, who are specially trained to quell civil disturbances, and secure large venues such as pharmaceutical distribution sites, and provide security for other large events. These teams conduct regular training and tactical exercises.

- **Cooperated with schools** located within the Village to provide a patrol officer to maintain a presence at the schools during key hours and events. The Officers' time is "charged-back" to and paid for by the schools. The officer also deals with school security issues, and discusses topics with students, relevant to them, including internet safety and identification of the warning signs of school bullying.

Police (continued)

- Conducted a **credit card fraud and retail theft seminar**, for businesses at Stratford Square. This was a training opportunity where merchants were briefed on ways they could protect themselves from becoming victims, but if they did, steps that they could take to assist the department in the apprehension of criminals were explored as well.

- Provided public safety and security duties for the Professional Golfers Association during the **Ryder Cup**, at the Medinah Golf Course in September 2012. This event required patrol officers to assist with traffic control and pedestrian crossings at the intersection of Lake Street and Medinah Road and had a daily attendance of approximately 40,000 people.

- Conducted a **bank robbery awareness seminar** for the banks in town. Due to the rash of bank robberies in the greater Chicagoland area, detectives met with representatives from local banks to provide guidance, as well as establishing response protocols.

- Conducted an **unclaimed property auction** which resulted in over $850 in revenue.

- Maintained the surplus **pharmaceutical drop box,** which is located in the front of the police station that resulted in 1,380 pounds of unwanted medicines being deposited and subsequently turned-over to the DuPage County Health Department for proper disposal.

- Established a new **Patrol Sergeant's eligibility list** which will be good for three (3) years and a new **Patrol Officer's eligibility list** which will be good for two (2) years.

- Conducted three (3) sets **of tobacco sale compliance checks**. The department obtained a State grant which paid for the costs associated with these checks.

➢ **FY14 Activities and Objectives**

Administration division -

- The department's Fleet Replacement Program, which includes a condition report from the Village Services department, assists in evaluating and determining whether to **replace patrol squad cars**, when they have traveled approximately 85,000 odometer miles. The FY14 budget includes $197,200, which includes change-over costs, for the replacement of six (6) vehicles. The cost for four (4) marked squads ($134,600) is included in 01-03-003-0300-69110 and the cost for two (2) unmarked detective cars ($62,600) is included in 01-03-003-0301-69110. Funding will be provided by the Capital Equipment Replacement Fund.

Police (continued)

➢ **FY14 Activities and Objectives (continued)**

Administration division (continued) -

- Evaluate the feasibility of offering a **Citizen's Police Academy**.
- Enhance the **parking lot security** in coordination with Village Services. The FY14 budget includes $35,000 in 01-04-043-0058-64114 to accomplish this effort.
- Coordinate, with the Information Systems division, the **replacement of fourteen (14) in-squad mobile computers.** Additional information about this objective can be found in the Administration Department, Information Systems Narrative section
- Upgrade the department's **internal security system** which was installed in 1991. The FY14 budget includes $11,400 in 01-03-002-0001-69101 for computer hardware, software and equipment installation. Funding will be provided by the Capital Equipment Replacement Fund.
- Recommend the **hiring of new Officers and Supervisors** that may be lost due to attrition.

Operations division –

- Perform **Rapid Response drills** at businesses and schools.
- Assign an Officer to the **Suburban Law Enforcement Academy** as a Class Supervisor.
- Conduct **Traffic and DUI Enforcement Initiatives** in key locations.
- Identify and implement **new and relevant training** programs.
- Evaluate the feasibility of maintaining a **Canine Unit**.
- Assign a liaison to the DuPage County **Heroin Task Force.**

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Overview

The Village Services Department FY14 budget totals $14.22 million consisting of $12.41 million in operating expenses and $1.81 million in capital outlays. The total budget represents a $69,680 or less than 1% increase over the FY13 budget. Insight and explanation of the increase can be learned from the ensuing discussion.

Village Services Department Budget History

	FY11 Actual	FY12 Actual	FY13 Budget	FY13 EOY	FY14 Budget
Village Services					
Engineering	$326,071	$342,189	$356,420	$366,780	$353,445
Building and Zoning	$606,337	$588,733	$596,695	$616,350	$642,715
Capital Improvements	$1,096,200	$1,588,325	$1,388,980	$920,480	$1,228,695
Buildings and Grounds	$335,960	$401,802	$650,085	$525,640	$682,450
Kennel	$11,544	$11,745	$12,170	$13,250	$7,990
Forestry	$471,251	$500,560	$585,925	$614,215	$609,650
Streets Maintenance	$1,557,018	$1,506,687	$1,916,540	$1,765,625	$1,877,055
Equipment Maintenance	$218,674	$176,934	$191,220	$188,240	$209,670
Recreational Path Maintenance	$0	$3,947	$33,940	$39,845	$14,450
Source of Supply	$2,670,445	$2,628,646	$3,383,570	$3,369,725	$3,896,985
Water Distribution System	$1,473,046	$2,300,700	$1,281,735	$1,325,140	$1,216,085

Total Village Services	**$12,275,175**	**$16,965,057**	**$14,149,305**	**$13,241,815**	**$14,218,985**

The department delivers responsive, cost effective services to citizens, businesses and other government agencies and organizations pursuant to the Village's mission, quality of life statements and strategic plan initiatives, as approved by the Board of Trustees in providing:

- Management, operations and maintenance of the Village's infrastructure including planning, constructing, operating and maintaining the street network and municipal rights-of-way, street lighting, traffic signals, street signs and sidewalks, water supply and distribution systems, sanitary sewer collection and wastewater treatment systems, storm sewer collection systems, public buildings, grounds and properties, vehicle and equipment fleet, and the urban forest.

- Private property protections through code compliance using plan reviews, permits, inspections and enforcement activities.

- Infrastructure management and consultations to the Village President and Board of Trustees, Village Administrator, Planning & Development Coordinator and Plan Commission.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Overview (continued)

The department takes pride in delivering a variety of services at high levels of customer satisfaction in a cost effective manner through both "in-house" and "outsourced" methods. Striving to sustain these expected levels of services with the existing staffing levels remains the department's focus in FY14.

Economic Conditions – The impacts of the economy on the Village's revenues have been considered in compiling the department's FY14 budget. Each division has reviewed the Village mission and quality of life statements, 'mission critical' work area functions and Village Board established level of services, programs and initiatives. Future economic conditions may affect, or continue to affect the delivery of departmental services.

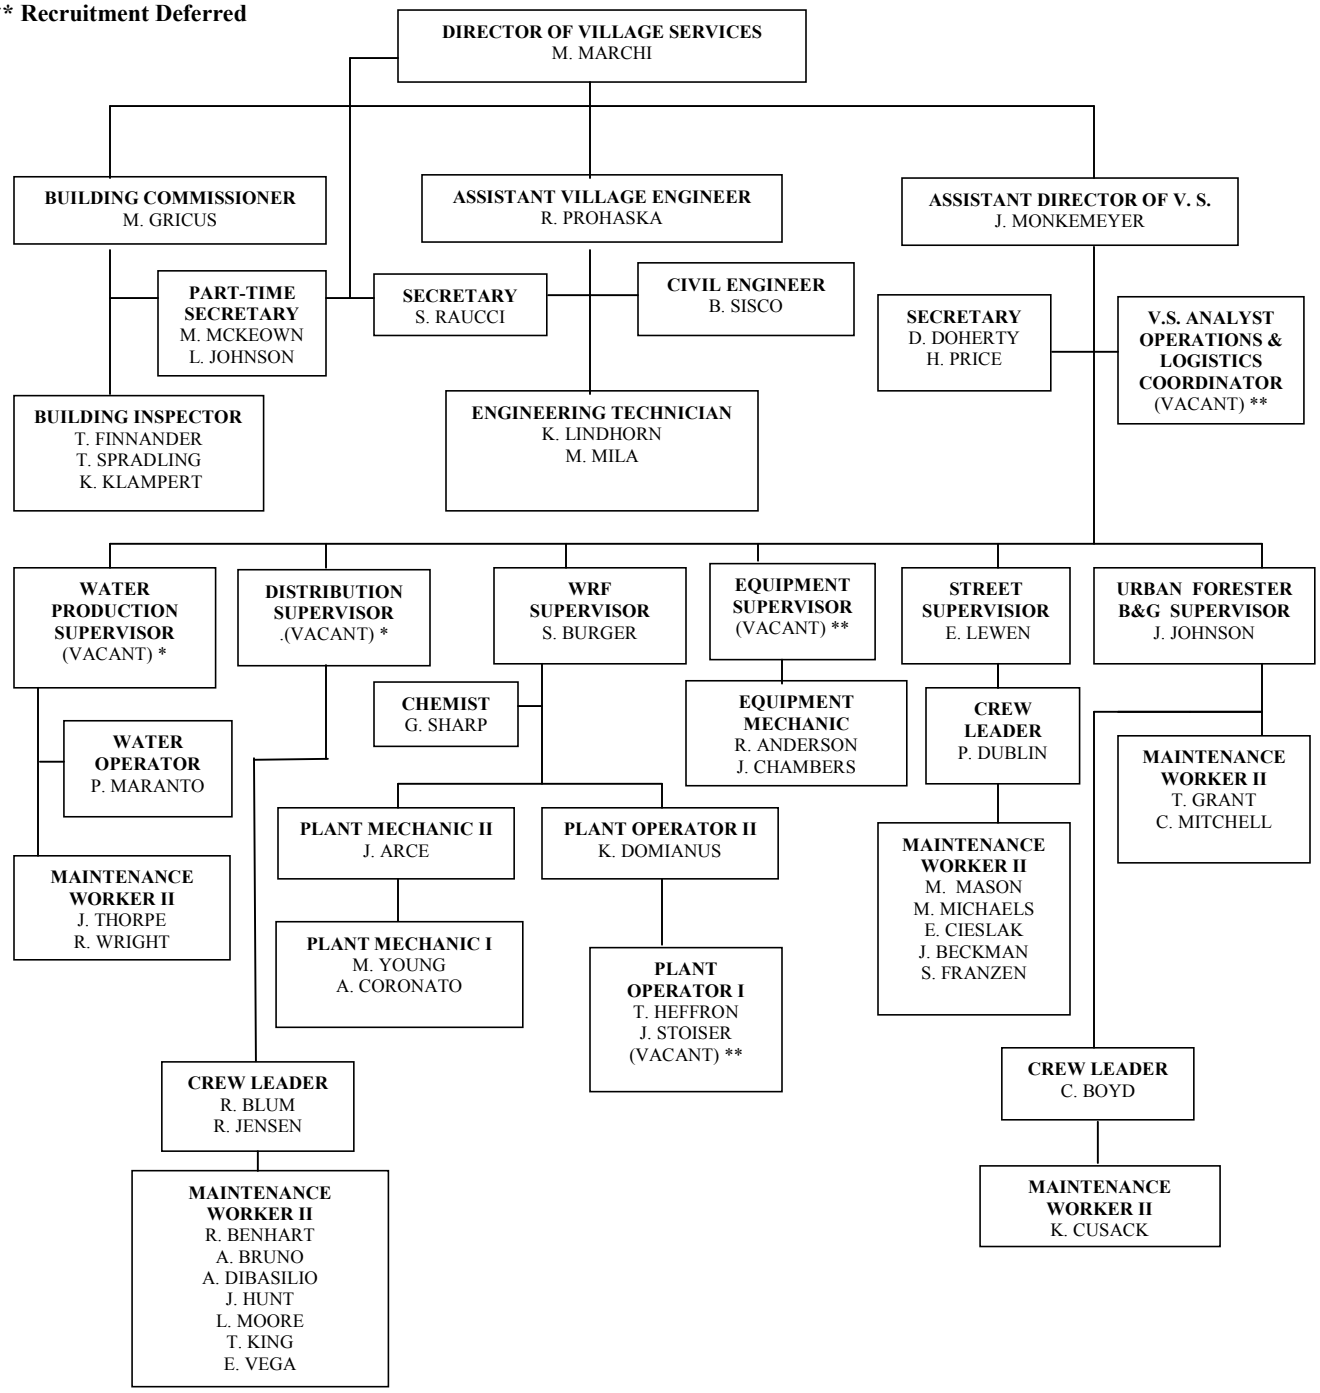
Some of the many FY14 budgeted services include: water supply management, sidewalk & road maintenance, emerald ash borer infestation response and environmental protection.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Overview (continued)

Department Staffing – The Director of Village Services leads a staff totaling 49 full-time and 2 part-time employees in three (3) divisions – Engineering, Building & Zoning, and Public Works & Utilities. 5.22 full-time equivalent temporary and/or seasonal employees are projected to be hired to address peak maintenance work demands. The department's organization chart is presented below:

Effective Date February 15, 2013
*** Recruitment In-Process**
**** Recruitment Deferred**



Overview (continued)

Department Staffing (continued) –

The department is or will be recruiting to fill two (2) vacancies - one (1) Water Production Supervisor and one (1) Distribution Supervisor – that were vacated due to retirement.

Since FY09, seven (7) department staff positions have been vacated by attrition, retirement or voluntary separation but only three (3) have been "targeted" to be "back-filled". Uncertain economic conditions have required deferring the hiring of these (3) three essential positions:

1. Operations & Logistics Coordinator to address complex, technical analysis, support functions and coordinating responsibilities for the Public Works and Utility division;
2. Vehicle & Equipment Maintenance Supervisor; and
3. Water Reclamation Facility Operator I

The economic conditions of the previous four (4) fiscal years and projections that the economic condition for FY14 may merely be on a path of stabilization, rather than a path of sustained growth, necessitates the continued evaluation of the affects that the reduced staffing levels has had or may have on service delivery.

Maintaining positive labor-management relations with both the International Union of Operating Engineers (IUOE) - Local 150 that represents thirty-five (35) full-time and regular part-time positions and the Service Employees International Union (SEIU) - Local 73 that represents three (3) secretary positions remains an objective in FY14.

This Narrative section correlates to the department's organization structure being presented in a manner that demonstrates the department's three (3) divisions and nine (9) operational work areas which are:

- **I. Engineering Division**
- **II. Building & Zoning Division**
- **III. Public Works & Utilities Division**
  - **A. Public Works -**
    1. **Buildings & Grounds**
    2. **Kennel**
    3. **Forestry**
    4. **Streets Maintenance**
    5. **Equipment Maintenance**
    6. **Recreational Path Maintenance**
  - **B. Utilities -**
    1. **Water Production (Source of Supply)**
    2. **Distribution**
       - **a. Water Distribution**
       - **b. Sanitary Collection**
       - **c. Stormwater Collection**
    3. **Water Reclamation Facility (WRF)**

Overview (continued)

Each narrative section is organized to indicate the division's FY14 budget amount, a macro-level comparison to the prior year's budget, the primary organization unit number that identifies the location of expenses within the Financial section of this document, a brief, general analysis of the FY14 budget, and,

- **FY14 Activities and Objectives** identifying specific programs or projects scheduled to be completed and that further the Village's mission and strategic plan.

To compile the annual budget, administer it throughout the year, and track progress of projects, the department annually maintains, and refines, several planning tools, reports, and plans which are available to the reader and general public upon request:

Capital Expenditure Planning (CEP) – is used to project future capital needs and to provide guidance in developing the Village's Governmental Funds and Water & Sewer Fund 5-Year Forecasts. Planning is conducted for all Governmental Funds and Water & Sewer Fund capital expenditures, which is used to support financial analysis.

Road Program Planning – is updated by the Engineering division and reviewed annually by the Village Board. This type of planning results in a 5-year Street Improvement Program which incorporates a number of cost effective pavement maintenance practices in order to extend the service life of the Village road network. Currently, forecasted 5-year expenditures total $7.08 million, with annual amounts between FY14 and FY18, ranging from $961,000 to $2.02 million.

Rehabilitation, Replacement and Maintenance Expenditure Planning (MEP) – is prepared by the Public Works & Utilities division, in consultation as necessary with the Engineering division. These plans provide forecasts of large expenditure maintenance projects/programs, fiscal year implementation schedules and estimated expenses for both the Governmental and Water & Sewer Funds. The MEP is a planning tool for managing maintenance functions, exploring appropriate funding considerations, communicating project justifications and requirements, protecting system integrity and sustaining services. As in past fiscal years, FY14 MEP expenditures are being funded on a "pay as you go" basis. Subsequent years will be evaluated as to the appropriate funding approach.

Fleet Replacement Planning – is used to forecast the timing of retiring, replacing, upgrading, or providing major maintenance of each vehicle and piece of equipment in the department's inventory. This type of planning enables staff to generate prospective budget requests for vehicle and equipment replacements. Over the next five (5) fiscal years, FY14 – FY18, the plan forecasts total expenditures of approximately $959,000 and $925,000 for the General Fund and Water & Sewer Fund, respectively. It is anticipated that the financing for General Fund expenditures will come from the Capital Equipment Replacement Fund (CERF) and the financing for Water & Sewer Fund expenditures will come from fund revenues.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Engineering Division

The Engineering division's (01-04-040-0000) FY14 budget totals $353,445 consisting of $353,445 in operating expenses and no capital outlays. The total budget represents a $2,975 or less than 1% decrease from the FY13 budget. In addition to its own budget, the division is involved in other maintenance and capital projects that are included in other areas of the FY14 budget that are valued at over $1.69 million, such as, the annual road program, sidewalk maintenance and drainage improvements.

The division provides professional engineering, technical and environmental consulting services, permit and compliance-based code and ordinance enforcement, and develops and maintains the Village digital infrastructure mapping/geographic information system to the benefit of the Village Board, other departments/divisions and the public. One (1) Assistant Village Engineer, who serves as the division Manager reporting to the Director of Village Services, one (1) Civil Engineer, two (2) Engineering Technicians and one (1) Secretary comprise the personnel resources assigned to the division. The division's work product is delivered to the Village Board, Plan Commission, Village Services divisions and other Village departments, developers, contractors, consultant engineers, public agencies, public utilities, residents and businesses.

➢ **FY14 Activities and Objectives**

- **General Activities –** Each day, engineering staff provides assistance to resident and commercial inquiries and maintains necessary files and data bases and performs general administrative functions.

  - ✓ **Code and Ordinance Compliance** – Continue reviews of private property and subdivision site development plans for Plan Commission hearings, building and development permit issuance, and permit inspections.

  - ✓ **Engineering Technical and Environmental Consultations** – Continue initiating, developing, managing and coordinating a variety of innovative, cost-effective solutions for Village infrastructure management, maintenance and environmental issues. Further, provide, studies, designs, construction project oversight and inspection of public capital and maintenance infrastructure projects including streets, sidewalks, water and sewer systems, and storm water systems.

  - ✓ **Village Infrastructure and Property Database** – Continue production and maintenance of high quality maps and developing and maintaining the geographic information system data base.

  - ✓ **Other Projects -** Engineering staff will also be directly involved in designing, developing and administering other Village infrastructure management projects associated with other departments/divisions as well.

Engineering Division (continued)

➢ **FY14 Activities and Objectives**

- **Annual Road Program - $941,745 construction costs and $10,250 of related professional services** – Engineering division staff designs the proposed improvements, develops plans and specifications for competitive bids, performs field inspection and administers the construction contract at significant cost savings when compared to "outsourced" engineering services. The construction costs will be funded entirely from State and local motor fuel tax revenues. The program includes:

  ✓ **Street Capital Maintenance –** The aging bituminous surface pavements, itemized in the table on the following page, require maintenance to extend their service life consisting of curb and gutter repair, pavement patching and reflective crack control, and the installation of a 1½-inch thick bituminous concrete surface course. A "fog seal" ("FS") application to the roadway surface seals small cracks or void spaces to prevent damage from water intrusion, and rejuvenate the oxidized pavement surface, extending the life of the pavement.

  ✓ **Street Maintenance - Pavement Grinding** - In preparation of "in-house" asphalt patch repairs by the Street division, contract pavement grinding will occur. Patch repairs extend the pavement service life, and allow for the deferring of higher cost maintenance.

  ✓ **Street Reconstruction – Chatham Ct –** This work includes the installation of new Portland Cement Concrete (PCC) curb and gutters; driveway aprons; storm drainage inlets and catch basins; crowned pavement to allow drainage to the road edge and sod restoration. At the request and expense of the Fairfield Quad Homeowner's Association, driveway reconstruction will be completed in conjunction with the Village's work on Brewster Ct.

  ✓ **Meadowlark Road Emergency Exit - $250,000** – Continue to evaluate design concepts, costs, and benefits of constructing an emergency exit at the west end of Meadowlark Road to provide a means of ingress/egress in the event that the road is inaccessible due to flooding coming from the east. Pending coordination with affected property owners, and emergency response agencies, the feasible concepts will be reviewed by the Village Board for further direction in FY14. Project funding is from the Home Rule Sales Tax Fund.

  ✓ The **Village Hall East Parking Lot Reconstruction - $500,000 –** deferred – This project has again been deferred pending the identification of a funding source. In the interim, Staff will complete pavement patching, in advance of contract seal coat and re-striping work.

Engineering Division (continued)

➢ **FY14 Activities and Objectives (continued)**

The FY14 program targeted streets are summarized in the table below.

Calendar Year 2013 (FY14) STREET IMPROVEMENT LIST

Engineering Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Lake Street Sidewalk Maintenance and Pedestrian Right-of-Way Accessibility Guidelines (PROWAG) Accessible Ramp Compliance – $100,000** - The Village is responsible for the maintenance and repair of both concrete paver and PCC sidewalks along Lake Street, pursuant to an intergovernmental agreement with the State. Engineering division staff has evaluated the sidewalk conditions along Lake Street, and identified needed repairs as tabulated below. It is envisioned that a combination of in-house resources and contract work forces will engaged to complete the work. This project is being funded from the Home Rules Sales Tax Fund.

2013 Lake Street Sidewalk Maintenance		
Item	**Quantity**	
Sidewalk Joint or Crack Routing & Filling > 2"	**875**	**FT**
Sidewalk Joint or Crack Routing & Filling < 2"	**3,350**	**FT**
Re-grade Brick Pavers	**4,664**	**SF**
Brick Paver Removal	**500**	**SF**
Detectable Warnings	**590**	**SF**
Mud Jack - 5'x5' square	**63**	**EA**
Sidewalk Removal	**4,353**	**SF**
PCC Sidewalk - 5"	**4,853**	**SF**

- **On-Street Parking Stall Accessibility Evaluation –** Inventory all marked in-street and marked parking stalls on Village right-of-way (ROW) to determine accessibility compliance with PROWAG and other applicable regulations. A plan showing the location of marked in-street and marked stalls on Village ROW would be developed. The plan would be used to address any compliance deficiencies that would be remedied through future capital improvement projects. The evaluation would include the location of marked in-street or marked on ROW stalls, number of stalls, number of marked accessible stalls, and initial concept design for addressing deficiencies. Non-compliant areas would be scheduled for modification during future capital infrastructure projects, or in coordination with other private development that may impact these areas.

Engineering Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Large Culvert Pipe & Concrete Drainage Channel Evaluations –** Inspect and evaluate the existing conditions of the large culvert pipes and concrete lined channels located in the Westlake Subdivision. Both the culvert pipes and concrete drainage channels were installed as part of the original Westlake subdivision improvements during the early 1970's. The large culvert pipes, which last saw maintenance in the early 2000's, are identified in the table below. The last major maintenance of the concrete drainage channels was in the mid-1990's located in Sunnyside Park (317 LF), between Westlake Lake and Edgewater Drive (1156 LF), between Circle Park and Westlake Lake (741 LF), to the east of Clearbrook Drive (467 LF), and south of Greenway Drive (129 LF).

Existing Concrete Drainage Channel

The findings will be summarized in a report identifying necessary repairs and/or reconstruction work in order to plan for future capital infrastructure maintenance.

Large Culvert Pipe Evaluation			
Under	**Cross Street**	**Size**	**Length**
Glen Ellyn Rd	**@ Edgewater**	**87" x 63" CMP**	**130'**
Glen Ellyn Rd	**@ Byron**	**Twin 81" x 59" CMP**	**180'**
Lakeshore Ln	**Clearbrook**	**95" x 67" CMP**	**170'**
Edgewater Dr	**Clearbrook**	**95" x 67" CMP**	**100'**
Edgewater Dr	**Colony Green**	**95" x 67" CMP**	**100'**
Greenway Dr	**East of Hempstead**	**95" x 67" CMP**	**100'**

- **Willowbridge Way Retention Pond Equalizer Culverts Cured-In-Place Lining – $115,000 -** deferred. While these culverts have been repaired temporarily, a more permanent repair will be necessary in the future. When funding is available, staff will prepare construction plans for a bid process, and after a contract is awarded, perform construction contract inspection and coordination.

Engineering Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Drainage and Storm Water Management** – Engineering staff will design, plan, bid, inspect and generally administer related projects. 100% of the funding for the projects listed below is from the Home Rule Sales Tax Fund.

  ✓ **Country Club Estates and Indian Lakes Estates Area Drainage Study** – A study was completed in response to floods caused by record precipitation in September 2008 and July 2010, which damaged both public and private property and closed public roadways. Based on the consulting engineer's report the budget includes:

  ❖ **Country Club Estates Area - public improvements - $241,000 -** The Village Board has authorized proceeding with the design of certain public improvements including storm sewers and grading improvements ($221,000). Additionally, in conjunction with the annual Village drainage improvements program, inlet capacity on Schick Road ($20,000) will be improved to provide increased levels of flood protection in this area. A March 2013 bid letting is envisioned.

Country Club Estates Flooding

The Village has applied for a $150,000 grant from the State to offset construction costs and has also strongly encouraged property owners to implement private improvements including basement flood proofing, yard grading next to foundations, and downspout and sump pump discharge improvements, to provide additional levels of flood protections for lesser storm events.

  ❖ **Indian Lakes Estates Area –** The study recommendations are being incorporated in conjunction with the completion of the Indian Lakes Open Space Master Planning Study.

Indian Lakes Area Flooding

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Building & Zoning Division

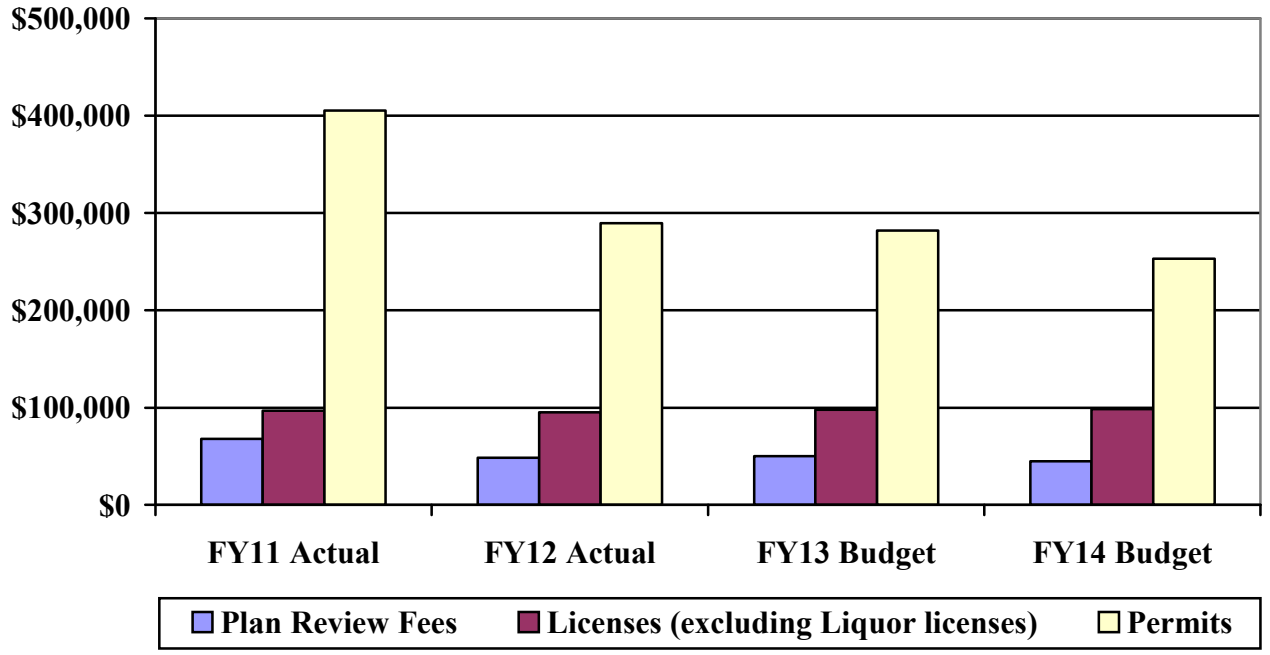
The Building & Zoning division's (01-04-041-0000) FY14 budget totals $642,715 consisting of $642,715 in operating expenses and no capital outlays. The total budget represents a $46,020 or 8% increase over the FY13 budget, which is primarily attributable to a reallocation of secretarial staff hours from the Engineering division and the hiring of two (2) part-time secretaries to replace a full-time secretary position that became vacant as a result of retirement.

The division provides for the health, safety and welfare of Village property owners, residents, businesses and the general public by assuring compliance with Village zoning, building construction and property maintenance polices and regulations through the enforcement of ordinances, codes, statutes and other pertinent laws and practices. The division is also responsible for enforcing ordinances controlling weed growth, off-street parking, public and private property tree preservation, private swimming pools and signs. In addition, the division administrates annual business, tobacco, amusement device/game room and massage establishment license process.

The personnel compliment of the division consists of one (1) Building Commissioner, who serves as division manager, three (3) Building Inspectors and two (2) part-time Secretaries.

Building Permit revenues are driven by local residential and commercial construction markets. A summary of actual and projected division revenues is presented below.

Building & Zoning related Revenues



Building & Zoning Division (continued)

➢ **FY14 Activities and Objectives**

- **Code Update Implementation –** Implement the recently approved code updates that include: the National Electrical Code (2011 Ed.), the International Energy Conservation Code (2012 Ed.), the International Mechanical Code (2012 Ed.), the International Fuel Gas Code (2012 Ed.) and the International Property Maintenance Code (2012 Ed.).

- **International Code Council (ICC) Certifications - $4,160 -** For training and education of staff to maintain code enforcement certifications. Each fiscal year the Building Commissioner and Building Inspectors maintain existing, and obtain new ICC certifications through training, education and testing. The Building Commissioner maintains the elite certification as "Master Code Enforcement Official" and is an Illinois Licensed Inspector. Certification categories include residential construction inspection, commercial construction inspection, construction plan review, code official and special inspector disciplines. Inspectors are required to maintain residential construction inspection certifications. Currently, all inspectors also maintain certifications for residential construction, commercial construction and construction plan review certifications. The current level of staff certifications provides the Village with one of the highest possible Insurance Services Organization ISO ratings (3) in the State and nation.

- **Forecasted Activities –** As the economy improves, residential and commercial construction permitting and inspection will be required for either new building construction or improvements to existing buildings. The past economic stress and the slow recovery of the real estate market have increased the demand for property maintenance code and related code enforcement. The use of contracted professional licensed plumbing code review/inspection services, plan review services and elevator inspection services, in order to comply with statutory licensing requirements will also continue. Professional services expenses are fully recovered from development related permit fees. Division operating efficiencies continue with the use of computer-based permit, business license and cash receipt software. A summary of actual, completed and projected activities appears in the table below. The level of activity, which has remained consistent over the recent fiscal years, is envisioned to continue in FY14.

Activity	FY11	FY12	Estimated FY13	Estimated FY14
Permits Issued	1,347	1,296	1,350	1,300
Inspections Performed	13,641	13,338	13,600	13,500
Business Licenses Issued	635	598	610	610
Violations/Notices Issued	68	77	70	70
Complaints & Service Requests Received	594	566	580	575
Complaints & Service Requests Resolved	587	445	550	540

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Building & Zoning Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Code Enforcement and Property Maintenance** – Building construction and property maintenance code enforcement will continue, and will achieve compliance through diligent and persistent application of public education, "friendly" notice, reasonable due process, citations and prosecution. Often violations are resolved without the need for citations, prosecution or litigation with litigation being entered into as last resort. Typically, approximately five (5) cases are litigated per year.

  Enforcement of the:

  - **Off-Street Parking Code,**
  - **Property Maintenance Code,**
  - **Private Swimming Pool Code**,
  - **Tree Preservation Code**,
  - **Business License Code,**
  - **Fence Code,** and
  - **Sign Code**

New Single Family Construction On Clare Drive

- **Notable Residential Building Activities** are summarized below. Dependent on economic recovery, the completion of the remaining 344 residential units is envisioned to occur over the next five (5) to seven (7) fiscal years.

Residential Developments	Total Number of Units	Total Occupancy Permits Issued	Total Remaining Units
Chateaus of Medinah	17	13	4
Eastgate (includes 1st addition)	117	112	5 (2 at permit)
Seven Oaks	10	8	2
Bloomingdale Walk Condominiums	90	0	90
Bloomingdale Walk Townhomes	132	30	102
105 Lakeview (Medinah on the Lake)	36	26 (Temporary)	10
125 Lakeview (Medinah on the Lake)	80	52 (Temporary)	28
135 Lakeview (Medinah on the Lake)	92	0	92
Miscellaneous Residential (estimate)	18	7	11
Totals	**592**	**248**	**344**

Building & Zoning Division (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Significant Commercial Development Activities -** completed or in-process

1. Stratford Square Mall - Tenant spaces, Kohl's interior renovation, JC Penney interior renovation
2. Bloomingdale Court (Army Trail Road) – Kirklands, Torrid, Weightwatchers, Payless Shoe Source, Image Nails, Sarpino Pizza, Bath & Body Works, Dressbarn, Charming Charlie, Wal-Mart expansion and interior remodel
3. Buffalo Wild Wings (Gary Avenue)
4. Thornton Gas (Lake Street)
5. Lifetime Fitness – interior renovations (Scott Drive)
6. Party City relocation – Stratford Crossing (Gary Avenue)
7. Izzo Insurance Agency – interior and exterior remodel (Bloomingdale Road)
8. FIC America interior improvements (Longview Drive)
9. Bloomingdale Business Park tenant spaces (Pro Logis)
10. Now Foods interior renovations (Glen Ellyn Road and Knollwood Drive)
11. Bloomingdale Park District – Johnston Center entrance improvement
12. Bloomingdale Park District – Circle Park concession building
13. Scottish Rite Cathedral Association Headquarters (Lake Street)
14. St. Isidore Church - Columbarium (Army Trail Road)
15. Central DuPage Healthcare Medical Offices (Gary Avenue)
16. Courtyard/Residence Inn Marriott – interior renovations (Knollwood Drive)
17. Commercial Insurance Services – interior renovations (Lake Street)

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works & Utilities Division

Under the direction of the Assistant Director of Village Services, and supported by two (2) Secretaries, the Public Works & Utilities division provides infrastructure maintenance and services for rights-of-way, streets, sidewalks, the urban forest, Village-owned buildings and grounds, vehicles and equipment, water, wastewater, and storm water systems. The division consists of seven (7) operational work areas, subdivisions of the budget, staffed by thirty-six (36) full-time employees and 10,630 hours (5.11 full-time equivalents) of temporary and/or seasonal assistance to meet increased seasonal demands for infrastructure maintenance. The nine (9) operational work areas/subdivisions are:

A. Public Works -
1. **Buildings & Grounds**
2. **Kennel**
3. **Forestry**
4. **Streets Maintenance**
5. **Equipment Maintenance**
6. **Recreational Path Maintenance**

B. Utilities -
1. **Water Production (Source of Supply)**
2. **Distribution**
   a. **Water Distribution**
   b. **Sanitary Collection**
   c. **Stormwater Collection**
3. **Water Reclamation Facility (WRF)**

Current practices, services and purchases were review in preparation of this FY14 budget. Reductions in, and deferrals of operating and capital expenses have been made where possible. The division remains dedicated to providing highly responsive, cost effective services.

PW Equipment Storage Building

Public Works Division – Buildings & Grounds (B&G)

The B&G division's (01-04-043-0058) FY14 budget totals $682,450 consisting of $682,450 in operating expenses and no capital outlays. The total budget represents an $32,365 or 5% increase over the FY13 budget, which is primarily attributable to several major maintenance projects, plus parking lot lighting improvements at the Village Hall/Police department.

Public Works Division – Buildings & Grounds (continued)

B&G provides preventative, routine and emergency maintenance on municipally owned buildings and surrounding grounds including the Village Hall, Police department, Public Works Facility, Gazebo, Old Village Hall and other miscellaneous buildings, equipment and properties, which have an aggregate original value in excess of $17.3 million. The Urban Forester/B&G Supervisor is responsible for one (1) Crew Leader, one (1) Maintenance Worker II and 600 hours or .29 FTEs of temporary seasonal assistance.

➢ **FY14 Activities and Objectives**

- **Maintenance - $244,590** is budgeted of which $232,275 is for essential contract maintenance of Village buildings, equipment, HVAC systems, grounds, overhead doors, and general repairs. Contractual services include, floor mats, window cleaning, painting, carpet replacement, and annual Village Hall plantings.

Notable projects include:

✓ **Village Hall/Police Department Parking Lot Lighting Improvements - $35,000** – To address concerns raised by Police department staff regarding employee safety and risk management.

✓ **Replace carpeting in the Village Hall Board Room and Conference Room ($15,000) and the upper level of the Police Department ($21,350)** – Replace worn and unsafe carpeting.

✓ **Paint exterior of the eaves, trim and fascia of the Village Hall and Police Department facilities and the Gazebo - $18,000** – The last time painting was completed was in 2000.

✓ **Replace ceramic tile floor in Village Services lobby - $15,700 –** repair the concrete sub-floor and replace the cracking, shifting tile and grout.

✓ **Crack fill, seal coat and pavement markings of the Village Hall/Police department & Public Works driveways and parking lots - $50,000** ($25,000 in 01-04-043-0058, $12,500 in 40-04-044-0052 and $12,500 in 40-04-044-0054) – for contract services and materials to construct an under drain in the parking lot near the Police department employee entrance. Pavement patching by staff prior to crack-filling and seal coating is also budgeted. Seal coating work was last completed in 2009.

Public Works Division – Buildings & Grounds (continued)

➢ **FY14 Activities and Objectives (continued)**

✓ **Village Hall HVAC Cooling System Replacement/Upgrade - $115,000 (carryover)** – Replace the unreliable 30+ year old Village Hall condensing unit that uses R-22 refrigerant, which is being phased out by Federal government regulations thereby prohibiting the replacement of the current unit with a "like-kind" unit. A chilled water condensing system, similar to the unit being used for the Police facility, appears to be a more reliable system to meet to cooling demands at Village Hall. The project is being funded from the Building Program Fund.

- **Commodities - $42,365, including $25,850 for Operating Materials** - For staff to operate and maintain Village buildings, equipment and properties including the purchase of custodial supplies, light bulbs, furnace filters, plumbing supplies, etc – including materials to continue the replacement of t12 fluorescent light ballasts/bulbs with t8 ballasts/bulbs pursuant to Federal regulation.

- **Public Works Security System – $60,000 –** deferred

- **Village Hall HVAC Interior Insulated Ductwork Renovation and Replacement – $80,000 –** deferred

- **Village Hall Retaining Wall Dryvit Repairs – $75,000 –** deferred

- **Village Hall "Annex" Build-Out/Renovation Architectural Design – $25,000 –** deferred

- **Public Works Facility Space Needs Assessment and Building Plan Development – $20,000 –** deferred

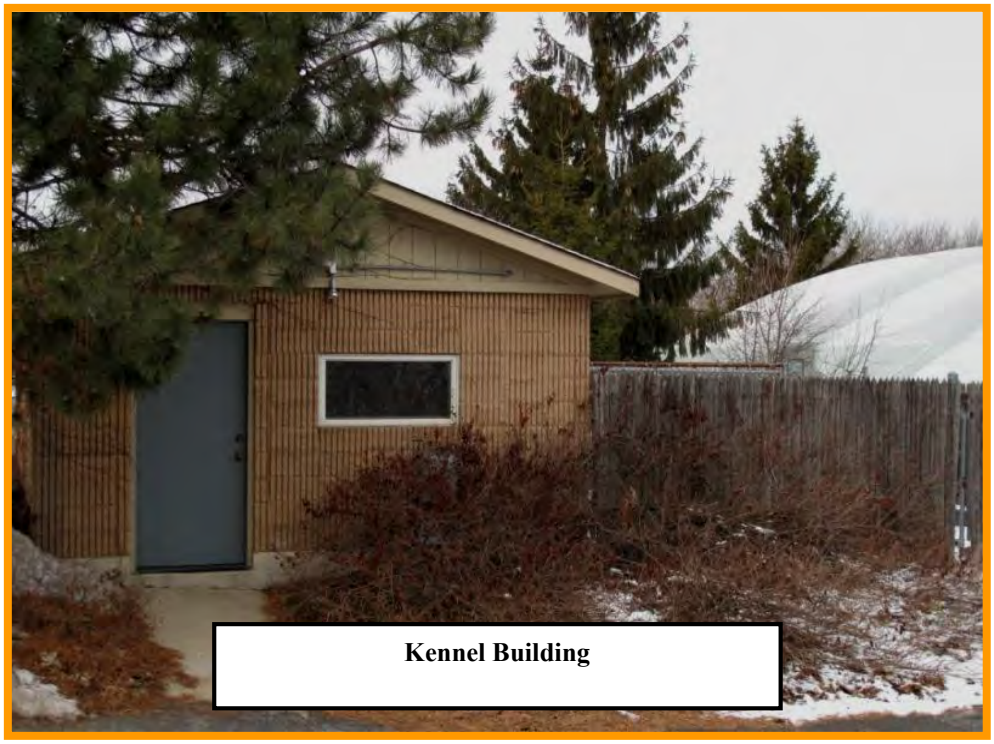
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division – Kennel

The Kennel division's (01-04-043-0059) FY14 budget totals $7,990 consisting of $7,990 in operating expenses and no capital outlays. The total budget represents a $4,180 or 34% decrease from the FY13 budget, which is primarily attributable to changes to custodian responsibility.

➢ **FY14 Activities and Objectives**

- **Operations and Maintenance - $7,990 –** For staff to operate this temporary harbor for lost and stray dogs and animals collected by the Police personnel prior to transfer to the DuPage Animal Control. A Village employee is designated as the custodian to care for, and feed the animals, clean the facility, order supplies, contact DuPage Animal Control and/or the animal hospital, and maintain the State license for the facility. At the time of release of the animal by the Police department, the owner is expected to pay boarding fees and any fines. Annually approximately 75 dogs and stray animals are housed at the kennel, with approximately 50 being returned to the owner. The unclaimed and stray animals are transferred to DuPage Animal Control after seven (7) days depending on the age, demeanor and health of the animal. The service protects residents from stray animals, provides a mechanism to reunite animals with their owners, and provides a healthy and humane environment for the animals.



Kennel Building

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division – Forestry

The Forestry division's (01-04-043-0063) FY14 budget totals $609,650 consisting of $609,650 in operating expenses and no capital outlays. The total budget represents a $23,725 or 4% increase over the FY13 budget, which is primarily attributable to projected increases for branch collection and landscape maintenance services and costs attributable to the emerald ash borer (EAB) response plan.

The Forestry division, cost effectively, manages the health, composition, and structure of the Village-owned urban forest using a combination of in-house and contractual resources including: pruning in the interest of tree health, protection of residents, motorists, pedestrians and neighboring private property; conducting hazard assessments; removing hazardous, dead, dying, infected and diseased trees; perpetuating the urban forest by planting new and replacement trees; enforcing Village Code, and providing consulting assistance in conjunction with enforcement thereof. The Forestry division also provides consultations to private property owners upon request.

The Urban Forester/Buildings & Grounds Supervisor manages two (2) Maintenance Worker IIs and 3,280 or 1.58 FTEs of temporary seasonal assistance.

➢ **FY14 Activities and Objectives**

Contract Branch Collection

Tree Pruning

- **Contract Branch Collection – $58,000 –** The cost of this popular curb-side collection program has been estimated, pending the results of procuring a new multi-year contract commencing May 1, 2013. It enables residents to place branches for collection during three (3) scheduled pick-ups - Spring, Summer, and Fall. The contractor tub grinds the branches collected at the PW facility, converting the branches and other wood waste into a high quality mulch product. This mulch is used on Village properties and is available for pick-up by Village residents.

- **Tree Trimming and Removal – $35,500 –** Includes $32,000 for contract pruning of parkway and other Village-owned trees. Trees over 6" in diameter are pruned once every five (5) years. Smaller trees in need of "training" are pruned "in-house"; $3,500 is budgeted for contract tree removals due to mortality, natural disasters and man-made hazards other than EAN infestation, and $1,000 for insecticidal treatments to protect against bag worm infestations.

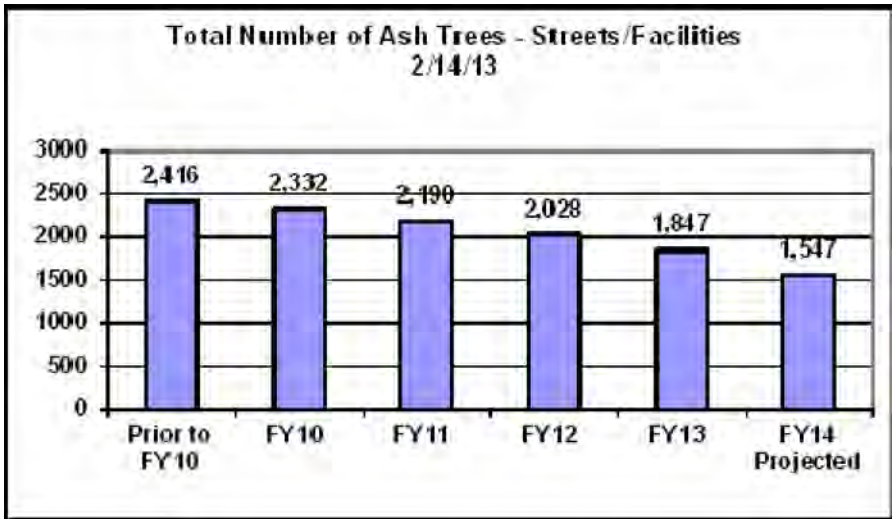
- **Indian Lakes Open Space Pruning - $0 –** The next pruning is scheduled for FY17. The last pruning was completed in FY11.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division – Forestry (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Tree Inventory** – The Village-owned tree inventory data base, updated routinely during the course of the year, is now integrated in to the GIS database enabling informed maintenance decisions for over 8,000 Village-owned trees as summarized in the Street Tree Condition chart and table below.



Street Tree Condition – 12/18/12 – 8,035 street trees and 357 planting spaces/wooded area/stumps										
	FY13 thru 10/18/12		FY12		FY11		FY10		FY09	
Condition	# of Sites	Frequency	# of Sites	Frequency	# of Sites	Frequency	# of Sites	Frequency	# of Sites	Frequency
Excellent	893	11%	768	10%	749	9%	667	8%	478	6%
Very Good	1,478	18%	1,325	17%	1,255	16%	1,255	15%	1,029	13%
Good	2,790	35%	3,053	39%	3,123	39%	3,262	40%	3,253	41%
Fair	2,520	31%	2,372	30%	2,444	31%	2,634	33%	2,799	36%
Poor	354	4%	334	4%	389	5%	320	4%	344	4%
Total	8,035		7,852		7,960		8,138		7,903	

- **Annual Tree Plantings – $38,000** – The budget includes $20,000 for 80 replacement trees due to annual mortality not related to the EAB infestation, and 'infill" trees planted in vacant spaces in Village ROW and $18,000 for the 50/50 tree planting program. The program provides for residents to pay ½ the cost of the trees ($9,000) which is accounted for as revenue. The 50/50 budget has been increased by $6,000 over FY13 in response to increased private property tree mortality replacement requests caused by the EAB infestation, continuing affects from the 2012 drought conditions, and the July 1, 2012 sever wind storm.

Public Works Division – Forestry (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Village-wide Landscape Maintenance Contract - $37,965 -** To maintain nine (9) Village owned properties and thirteen (13) ROW locations including $1,500 to reimburse School District #93 for the cost of mowing the Village's property on Brighton Drive pursuant to an intergovernmental. Contract expenses are distributed in the General and Water & Sewer Funds.

- **Emerald Ash Borer (EAB) Response Plan - $99,500 –** Continue the Village-wide response to the escalating EAB infestation confirmed in 2010; an incrrease of $28,600 from FY13. The Response Plan, published on the Village's website, calls for the removal and replacement of the entire ash tree inventory over a 15-year period, commencing in 2010. The FY14 budget includes: $35,000 for contract ash tree removals; $60,000 for replacement of the ash trees that have been removed, and $4,500 to continue an insecticidal treatment pilot program started in FY12. As of February 14, 2013, the Village ash tree inventory totaled 1,847; a reduction of 569 trees since 2010. Replacement trees have been planted using a combination of "in-house" and contracted resources. The FY14 budget projects that an additonal 300 trees will be removed and replaced reducing the remaining inventory to approximately 1,547.

Planting Replacements

Marked Ash tree

Emerald Ash Borer

Public Works Division – Forestry (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Streetscape Beautification – $1,000** – Replace plantings, as necessary, within the Village ROWs and medians. The full-time and seasonal staff that are employed enables the division to maintain the numerous Streetscape Beautification planting beds

- **Customer Contacts/Service Requests** – staff anticipates responding to over 600 public and private tree maintenance inquiries or concerns.

- **National Arbor Day Foundation Tree City USA –** FY13 marked the 18th consecutive year of certification.

Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division - Streets Maintenance

The Streets Maintenance division's (01-04-043-0064 and 07-04-043-0064) FY14 budget totals $1.88 million consisting of $1.83 million in operating expenses and $47,250 of capital outlays. The total budget represents a $39,485 or 2% decrease from the FY13 budget, which is primarily attributable to the replacement of the high-lift, bucket truck and the maintenance of street light poles along Lake Street in the prior year.

Under the direction of the Assistant Director of Village Services, Street Maintenance consists of one (1) Supervisor, one (1) Crew Leader, five (5) Maintenance Workers II and 3,160 hours or 1.52 FTEs of temporary seasonal assistance. Administrative support is provided by one (1) Secretary.

Streets maintenance is completed using a combination of in-house resources and contracted services, and in some cases, pursuant to intergovernmental agreements with the State and DuPage County Department of Transportation. Scope of responsibilities includes the maintenance of over 67 miles of ROWs containing the following approximately 172 lane miles of roadways, 150 cul-de-sacs, 122 miles of curbs, 122 miles of sidewalks, 2,600 street identification and traffic control signs, over 1,000 street lights, four (4) Village-owned traffic signals and three (3) school zone advisory beacons.

➢ **FY14 Activities and Objectives –**

- **Concrete Sidewalk and Curb Repairs and Maintenance – $32,150 –** Includes $8,000 for contractual repairs and $24,150 for materials for in-house repairs of concrete sidewalks and curbs. Repair work includes removal and replacement, as well as non-destructive trip hazard mitigation methods such as mud-jacking and leveling/grinding. The sidewalk network is divided into three (3) zones with each zone inspected once every three (3) years at a minimum. Mainline sidewalks are inspected annually and user reported hazards are inspected and repaired as necessary. FY14 targets Zone 1 – the area bounded by Army Trail Road, Lake Street, Bloomingdale Road and Medinah Road. In-house concrete curb repair is scheduled in conjunction with the in-house trip hazard repair program. The FY14 budget also includes $6,825 to replace deteriorating asphalt paths with concrete sidewalk along the south side of Scott Drive from 454 Scott Drive to the intersection of Covington Drive. The 50/50 sidewalk and curb replacement grant program has been suspended.

Accessible Sidewalk Repairs

Public Works Division - Streets Maintenance (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Asphalt Pavement Maintenance – $110,600** – Streets Maintenance and Engineering division staff will assesses winter pavement damage, drainage issues, and overall pavement conditions each Fall to develop the scope of the annual pavement maintenance program; the details of which are available to the reader and the general public upon request. $52,600 is budgeted for material to complete asphalt pavement repairs and $58,000 is budgeted for contractual crack sealing services, the latter of which represents a $23,355 or 67% increase over the prior year due to increased demand identified during the joint assessment.

Asphalt Maintenance Crew

- **Pavement Markings - $72,500** – For contractual maintenance of the Village-wide inventory of pavement markings, in compliance with the Manual of Uniform Traffic Control Devices (MUTCD). Section 3 of a 6-year cycle by geographical area is scheduled for maintenance the details of which are available to the reader and the general public upon request. The budget includes $10,000 to maintain the existing 12,000 square feet of stamped asphalt crosswalk and medians, and $7,500 for raised pavement reflector maintenance on Schick Road, Springfield Drive and throughout the Indian Lakes Estates area.

Stamped Asphalt Pavement Maintenance

- **Traffic Sign Maintenance and Replacement - $15,000** - for new and replacement signs, including third party damage replacements, completed pursuant to requirements of the MUTCD. The majority of the signs are produced "in-house" using a computer-aided sign machine for design/fabrication, but certain "specialty" signs are purchased from a supplier. The division projects compliance with all roadway regulatory, warning, and guidance signage in accordance with the MUTCD by the end of FY13, thereby allowing a $4,000 reduction in the FY14 budget. Targeted in FY14 is compliance with MUTCD retro-reflectivity requirements that establish a sign assessment/management system that will maintain minimum levels of sign retro-reflectivity of signs.

- **Street Light Maintenance & Utility Locates – $80,000 –** $60,000 for contracted maintenance and $20,000 for a contractor to locate Village street light cables in response to JULIE utility locate requests.

Public Works Division - Streets Maintenance (continued)

➢ **FY14 Activities and Objectives (continued)**

Traffic Signal Maintenance– $32,695 – Maintain the Village owned locations noted below, and other traffic signals pursuant to intergovernmental agreements with IDOT and DDOT and emergency vehicle pre-emption devices pursuant to an intergovernmental agreement with the Bloomingdale Fire Protection District. Included in the above amount is $9,385 for the Village's share of costs to convert existing incandescent Lake Street traffic signal fixtures to light emitting diode type per an amendment to the Master Agreement with IDOT.

Village Traffic Signals and School Beacons	
• Schick Road and Country Club Drive	• School beacon at 246 Edgewater Drive
• Schick Road and Springfield Drive	• School beacon at 299 Edgewater Drive
• Butterfield Drive and Springfield Drive	• School beacon at 158 Greenway Drive
• Springfield Drive and Lawrence Avenue (Recreational Path Crossing)	

- **Electricity – $58,500 –** for Village-owned street lights.

- **Snow & Ice Response – $121,420** – For bulk rock salt and liquid calcium chloride purchases procured through the State of Illinois Central Management Services State Joint Purchasing Program. The division will use the supply to execute Village Board approved deicing policies and practices through proven effective, economical and environmentally beneficial best management practices. The past two (2) consecutive mild winter seasons has created a large surplus of bulk rock salt stored at the Public Work facility which, if maintained, will reduce the actual amount of rock salt that will be ordered for the 2013/14 winter season. Also included, is $10,000 for contractual snow and ice response at the Village Hall/Police department complex between the hours of 11:00 p.m. and 8:00 a.m. The service reduces employee fatigue, and allows in-house resources to cover extended or multiple emergency responses.

Salt Storage Building Fill Operation

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division - Streets Maintenance (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Sandblast, Weld and Paint Dump Bodies (Year 2 of 3) - $15,000** – Sandblast, weld repair and paint three (3) large dump truck beds that are exhibiting severe, extensive corrosion. A total of nine (9) dump truck bodies will be repaired, as described, over a period of three (3) years.

Sandblast, Weld and Paint Dump Bodies

- **Contract Street Sweeping (Year 2 of 5) – $29,625 –** to sweep approximately 67 centerline miles of curbed roadways seven (7) times throughout the year.

Contract Street

- **Vehicle #300 Replacement - $39,550 –** $37,250 for the "like-kind" replacement of this 12-year old 3/4-ton pick-up with plow and $2,300 is budgeted for an extended warranty. The truck is showing signs of age including sloppy steering, suspension and rust. Funding will be provided by the Capital Equipment Replacement Fund.

- **Septemberfest –** the Streets Supervisor serves as the Department liaison to the Septemberfest Committee.

- **Public Works Vehicle Global Positioning System – $25,000 –** deferred

- **Edgewater Westlake Townhome Area Street Light Illumination Program –** deferred

Vehicle #300 Replacement

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division - Equipment Maintenance

The Equipment Maintenance division's (01-04-043-0065) FY14 budget totals $209,670 consisting of $201,120 in operating expenses and $8,550 of capital outlays. The total budget represents a $18,450 or 10% increase over the FY13 budget, which is primarily attributable to operating equipment purchases and replacing the fueling facility site controller.

Equipment Maintenance provides preventative, routine, and emergency maintenance of Village vehicles and equipment. The division consists of one (1) Supervisor position (vacant - deferred due to economic conditions), two (2) Equipment Mechanics and 1,075 hours or .52 FTEs of temporary or seasonal assistance comprised of one (1) part-time employee and one (1) temporary seasonal employee. Because of the vacant supervisor position, the equipment mechanics report directly to the Assistant Director of Village Services.

➢ **FY14 Activities & Objectives**

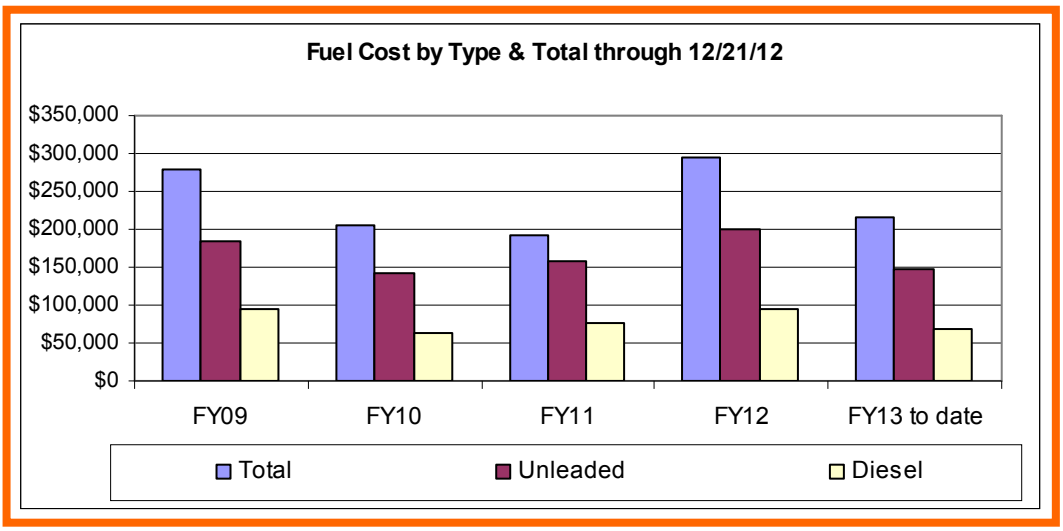
- **Maintenance & Operations** – Essential to sustaining Village services delivery in all Departments through continuing preventative, routine, and emergency response maintenance and repairs of 100+ cars, trucks and tractors, 110 pieces of small equipment, and one (1) pick-up truck assigned to the Bloomingdale Golf Curse. Staff also procures parts and materials and assists with procurement of vehicles and equipment as described elsewhere in this Narrative section. A summary of vehicle and equipment service requests completed appears below.

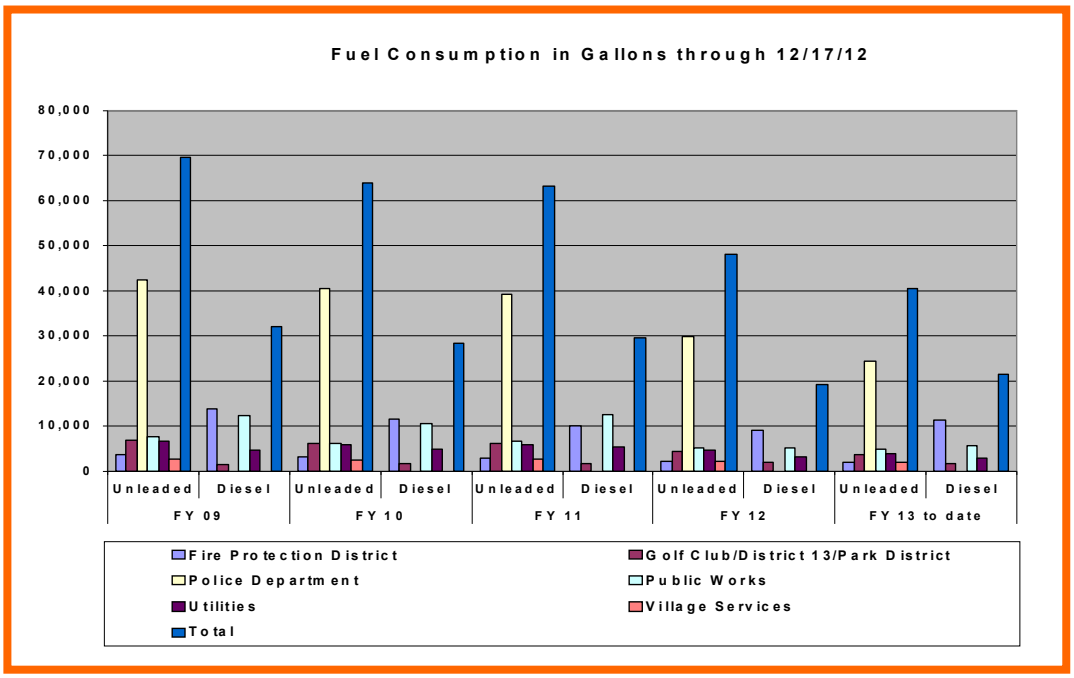
	FY09	FY10	FY11	FY12	FY13 to date
Park District	195	204	0	0	0
Water & Sewer Fund	298	299	276	255	187
General Fund	1557	1460	1209	1320	831

Public Works Division - Equipment Maintenance (continued)

➢ **FY14 Activities & Objectives (continued)**

- **Vehicle Fuel – $244,070, excluding the Golf Course Fund –** It is projected, based on historical consumption data, that 59,400 gallons of unleaded fuel and 15,695 gallons of diesel fuel will be used in FY14. Costs are managed by securing best available pricing through a "spot market" process or intergovernmental fuel purchase programs and the use of vehicle idling policies. It is projected that in FY14, the price of unleaded fuel will average $3.25/gallon and diesel fuel will average $3.25/gallon. The vehicle fuel budget for the General Fund is $207,920 and for the Water & Sewer Fund it is $36,150.





Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division - Equipment Maintenance (continued)

➢ **FY14 Activities & Objectives (continued)**

- **Fueling Facility Site Controller Replacement - $8,550 –** budgeted to replace the fuel facility site controller which has reached its useable, reliable life. Funding will be provided by the Capital Equipment Replacement Fund.

- **Equipment Maintenance Supervisor** – deferred

- **'On-car/medium truck' brake lathe** – deferred

- **Pressure Bleeder (Brakes) –** deferred

Maintenance Sustains Village Services

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Public Works Division - Recreational Path Maintenance

The Recreation Path Maintenance division's (01-04-043-0066) FY14 budget totals $14,450 consisting of $14,450 in operating expenses and no capital outlays. The total budget represents a $19,490 or 57% decrease from the FY13 budget, which is primarily attributable to pavement preservation maintenance performed in the prior year that is not necessary to be done again until FY15.

Recreational Path maintenance is completed using a combination of Streets Maintenance and Engineering staff and both in-house and contractual services. The Village maintains sixteen (16) miles of recreational paths.

➢ **FY14 Activities and Objectives**

- **Recreational Path and Boardwalk Maintenance - $14,450** – For routine in-house and contracted maintenance such as tree trimming, signage maintenance, pressure washing/sealing the wooden boardwalks at Lawrence Avenue, the Eastgate Subdivision, and the Springbrook bridge crossing.

- **Recreational Path Pavement Preservation Program – next in FY15 –** This program uses a combination of contractual services and in-house resources for preventative maintenance to extend the service life of an aging Village-owned network of off-street bituminous asphalt recreational trails. Preventative maintenance includes, patching, crack-filling and seal coating completed pursuant to plans and specifications prepared by Engineering staff as detailed in the table below:

Location	Length in feet	Estimated Cost
Springfield Drive s/Lake St	765	$1,488
Springfield Drive s/Lake St	152	$296
Springfield Drive s/Schick Rd	1,090	$2,119
Lawrence Avenue	872	$1,696
William Way	644	$1,252
Spring Valley to Lake St Reservoir	2,947	$5,730
Edgewater Dr	1,488	$2,919

Fiscal Year 2013/14 Budget
Village Services Department Narrative

Utilities Division - Water Production (Source of Supply)

The Water Production (Source of Supply) division's (40-04-044-0050) FY14 budget totals $3.90 million consisting of $3.83 million in operating expenses and $69,100 of capital outlays. The total budget represents a $513,415 or 15% increase over the FY13 budget, which is primarily attributable to the increased cost of purchasing water from the DuPage Water Commission (the "DWC") and one-time capital purchases.

Personnel resource in Water Production consist of one (1) Supervisor, one (1) Water System Operator, and two (2) Maintenance Worker II positions to meet the mission of supplying safe drinking water to the residents and businesses of the Village.

Well #8 Abandoned in 2012

➢ **FY14 Activities and Objectives**

- **Operations -** Deliver reliable and safe potable water through the use of in-house and contractual resources to assure compliance with federal and state agency drinking water standards. The division undertakes preventative maintenance, responds to customer inquiries regarding water usage, water quality and meter accuracy, installs new construction water meters, maintains existing meter accuracy through periodic testing, calibration and replacement, and monitors water system cross-connection control devices for ordinance compliance.

- **DuPage Water Commission (DWC) - $2,894,000 O&M and $203,715 Fixed Costs -** Purchase an estimated 825MG of Lake Michigan water from the DWC. For the months of May through December, 2013 the cost of water is $3.32 per 1,000 gallons and for the months of January through April, 2014 the cost of water is $3.97 per 1,000 gallons. These rates have increased significantly due to rate increases by the City of Chicago imposed upon the DWC.

- **SCADA System Improvements Radio Communication – $105,710 - (carryover) – ($39,000 in 40-04-044-0050; $50,010 in 40-04-044-0054 and $16,700 in 01-04-044-0055) –** Replace phone data lines with a radio frequency communications system serving the six (6) sanitary lift stations, six (6) water pumping stations and two (2) storm water lift stations. Frequent communication failures are compromising system operations and replacement phone modems are no longer available. The conversion will improve reliability and reduce operating costs by eliminating approximately $23,000 in annual phone line charges. The conversion will be done using a professional services provider.

- **Gary Avenue Ground Storage Tanks East and West Painting – $78,000** - Both ground storage tanks at the 240 S Gary Ave Pump Station are in need of recoating. The work will prolong tank life and protect water quality within the tank will be done using a professional services provider.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Utilities Division - Water Production (Source of Supply) (continued)

➢ **FY14 Activities and Objectives (continued)**

Vehicle #102 Replacement

- **Vehicle #102 Replacement – $30,100** - To replace the 2002 Chevrolet Astro Van assigned to customer service functions. A similarly equipped vehicle, with tool and storage cabinets, and a work bench, used in day-to day work, is envisioned. The budget amount includes $2,200 to purchase an extended warranty for the drive train and electronics.

- **Electricity - $47,600 and Natural Gas - $9,500** – To operate supply pumps necessary to distribute water and to heat pumping station buildings.

Water Conservation Exhibit

- **Water Conservation and Public Education** – Pursuant to Federal and State statutory mandates to receive and maintain a Lake Michigan Water allocation, plus the provisions of the DWC water conservation program, provide public education, conduct residential water loss assessments, and promote best management water conservation practices with a goal to reduce total water usage by 10% over the next ten (10) years.

- **IEPA Consumer Confidence Report** - Pursuant to the IEPA issued water system operating permit, the Village is required to annually publish and distribute information regarding system compliance with the Federal Safe Drinking Water Act.

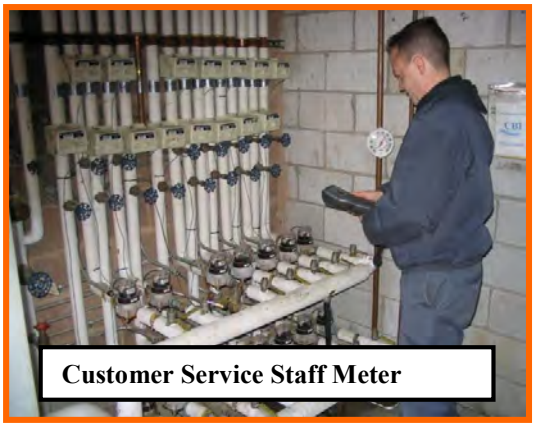
- **Water Use Audit Program –** With the recently imposed and scheduled future DWC water rate increases accurate and reasonable accounting of the water purchased and metered, becomes ever more critical. In addition, accounting for water usage is mandated by conditions of the Village's Lake Michigan Water allocation administered pursuant to State and Federal regulatory requirements enforced by the Illinois Department of Natural Resources (IDNR). This program consists of staff verifying and evaluating the accuracy of Village meters from the point-of-supply to the point of consumption as well as conducting the System-wide Leak Detection Survey Program outlined in the Water Distribution division's Narrative section. The leak survey findings will also aid in evaluating the effect of expected changes to the Village's Lake Michigan Water allocation audit computations currently being considered by DNR.

Utilities Division - Water Production (Source of Supply) (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Water System Cross-Connection/Back-Flow Control Device Program –** Staff continues to conduct compliance monitoring and enforcement as necessary to insure that the nearly 1,400 cross-connection/back-flow control devices are tested in accordance with IEPA regulations.

- **Automated Meter Reading (AMR) System Preventive Maintenance/Replacement Plan –** The nearly 7,300 AMR systems were installed in 2003, and the meters are conditionally warranted for 25 years. The transceiver/battery units (MXUs) are warranted through 2022 but begin a prorated warranty period in January 2013 that requires the Village to pay a portion of the replacement costs. The prorated amount starts at 30%, and increases by 5% annually to a maximum of 75% in January 2022. Increasing maintenance costs are anticipated as the system ages, so staff continues to evaluate cost-effective preventive maintenance plans to forecast future maintenance and/or capital budget expenses.



Customer Service Staff Meter

- **Replacement Water Meter Inventory** – Staff will suspend purchasing replacement water meters to restock inventory pending rule making from USEPA, and manufacturer's response to recently enacted amendments to the Safe Water Drinking Act regulations that contain a more stringent definition of "lead free" plumbing fixtures, which would include water meters. In brief, the revised regulations require that pipe, pipe fittings, plumbing fittings, and fixtures must now meet a weighted average lead content of 0.25% significantly less than the amount previously allowed 8.0%, and they are scheduled to take effect January 4, 2014.

- **Service Valve ("B-Box") Maintenance -** This is planned over the next seven (7) years to insure that the over 7,000 residential and commerical service line valves (i.e. - "b-boxes") are located, operable and entered into the Village GIS database. To date, approximately 6,827 residential and commerical b-boxes have been located. The inspections for operablity will continue in FY14, and repairs will be undertaken as necessary, and as resource allocations permit.

- **Sump Pump/Foundation Drain Cross-Connection Disconnect Inspections** – The inspections are targeted to reduce wet weather flows entering the Village sanitary sewer system. During wet weather, "excess" flows enter both the sanitary sewer system and water reclamation facility, which reduces the available capacity and could cause basement flooding, system overflows and reduced treatment efficiencies. In conjunction with meter inspections, customer service personnel will continue to provide public education to residents and businesses while conducting separate inspections to identify, and seek voluntary compliance to eliminate these cross connections. This coordinated inspections process will occur over the next several years.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Utilities Division - Distribution (Water Distribution, Sanitary Collection and Storm Water Collection)

The Water Distribution division's (40-04-044-0052) FY14 budget totals $1.22 million consisting of $1.22 million in operating expenses and no capital outlays. The total budget represents a $65,650 or 5% decrease from the FY13 budget.

The Sanitary Collection division's (40-04-044-0054) FY14 budget totals $914,455 consisting of $819,445 in operating expenses and $100,010 of capital outlays. The total budget represents a $28,940 or 3% increase over the FY13 budget, which is primarily attributable to maintenance of the public works facility parking lot and the replacement of a trailer-mounted generator.

The Stormwater Collection division's (01-04-044-0055) FY14 budget totals $602,400 consisting of $319,700 in operating expenses and $282,700 of capital outlays. The total budget represents a $46,075 or 8% increase over the FY13 budget, which is primarily attributable to personnel costs related to the upcoming retirement and replacement of a supervisory employee, the replacement of the Clearbrook drainage ditch fence and the replacement of a trailer-mounted generator.

The Water Distribution division operates and maintains the water distribution system, the sanitary sewer collection system and the storm sewer system. Operations and preventative maintenance are targeted to minimize service interruptions to businesses and residents caused by water main breaks and sanitary sewer pipe blockages. The division is responsible for operating and maintaining: 121 miles of water main, 82 miles of sanitary sewers and six (6) sanitary sewer lift stations, 79 miles of storm sewers, two (2) storm water lift stations and numerous storm water outfall structures and related system appurtenances.

Distribution consists of one (1) Supervisor, two (2) Crew Leaders, seven (7) Maintenance Workers II and 1,720 hours or .83 FTEs of temporary and seasonal assistance.

➢ **FY14 Activities and Objectives – Water Distribution**

- **Operations** – Sustains service and reliability through the following: preventative maintenance and repairs; water loss and leak-detection programs; confirming GIS mapping valve locates, inspection and exercise; fire hydrant exercise and system flushing and responding to 2,598 JULIE system infrastructure locate requests.

Watermain Repair

Utilities Division - Distribution (Water Distribution, Sanitary Collection and Storm Water Collection) (continued)

➢ **FY14 Activities and Objectives – Water Distribution System (continued)**

- **SCADA System Improvements Radio Communication –** Please refer to the Utilities division – Water Production (Source of Supply) Narrative section for a description of this program.

- **Maintenance - $198,580 ($163,330 Contractual and $35,250 In-house) –** notably includes:
  - ✓ **$18,000** for unanticipated system repairs & maintenance;
  - ✓ **$40,000** for the annual **Main Line Water Valve** Replacement Program to replace 10 to 15 mainline valves of the 1,981 valve inventory;
  - ✓ **$40,000** for the annual **Fire Hydrant Replacement Program** to replace between 9 to 12 fire hydrants of the of 1,681 fire hydrant inventory;
  - ✓ **$25,000** for the annual **Fire Hydrant Painting** Program for surface preparation, priming and painting of 300 hydrants on an approximate 6-year cycle;
  - ✓ **$22,000** for aggregate for backfilling excavations;
  - ✓ **$25,000** for the supplies and materials for scheduled "in-house" maintenance projects.

➢ **FY14 Activities and Objectives – Sanitary Collection**

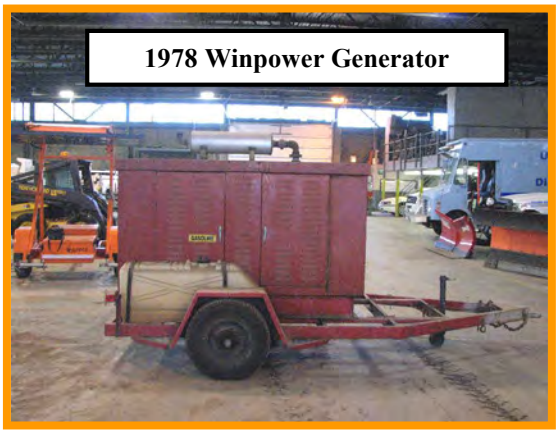
- **Operations** – A combination of in-house resources and contracted services are used to execute system operations, including preventative maintenance and repairs, identification of sources of infiltration and inflow, wet-weather inspections, manhole inspections, daily lift station operational inspections, sewer line preventative and emergency cleaning, responding to 2,598 JULIE locate requests and to assist the Engineering staff with GIS/Mapping data base development.

- **Purchased Services - $88,280 –** notably includes:
  - ✓ **Contract Sanitary Sewer Televising and Cleaning Program - $60,000 -** To clean and then perform televised inspections of approximately 53,000 feet of sanitary sewer.
  - ✓ **Sanitary Sewer Grant Programs - $19,000 –** Includes $10,000 for the Overhead Sanitary Sewer Service Grant Program which reimburses applicants up to $5,000 of eligible expenses for installation of an interior overhead sanitary sewer service to mitigate sewer back-ups and $9,000 for the 50/50 Sanitary Sewer Service Cleanout Grant Program which reimburses applicants up to $500 of eligible expenses for installation of an exterior cleanout for access to clear major blockages using private plumber and rod-out maintenance techniques.

Utilities Division - Distribution (Water Distribution, Sanitary Collection and Storm Water Collection) (continued)

➢ **FY14 Activities and Objectives – Sanitary Collection (continued)**

- **Maintenance - $121,400 ($113,000 Contractual and $8,400 In-house) –** notably includes:
  - ✓ **Sanitary Wye Replacement and Point Repairs - $28,600 -** To replace broken sanitary sewer pipes and wyes at locations throughout the system including repairs not included in the contract awarded or to be awarded to the private contractor.
  - ✓ **Sanitary Sewer 'cured-in-place lining' Rehabilitations - $60,000** – To rehabilitate 1,930-feet of 35 to 50-year old clay sanitary sewer pipes at various locations using 'trench-less' technologies such as slip lining or inversion lining
  - ✓ **Sanitary Sewer Service Lining/Grouting** – Staff is investigating feasible options targeted at preventing infiltration of ground water from entering the sanitary sewer system from leaking sanitary service tee connections during wet weather.
- **Electricity - $14,075 and Natural Gas - $1,200 –** to operate six (6) sanitary sewer collection lift stations and a back-up electric power generator and heat for the Stratford Lift Station.
- **1978 Winpower, Trailer-Mounted, Generator REPLACEMENT – $75,000** – ($50,000 in 40-04-044-0054 and $25,000 in 01-04-044-0055 – to replace the 1978 Winpower Rolling Generator with a more versatile generator, equipment to provide emergency back-up electrical power during prolonged power outages at any Village sanitary pump station or storm lift station.



- **SCADA System Improvements Radio Communication –** Please refer to the Utilities division - Production (Source of Supply) Narrative section for a description of this program.
- **Lift Station Site Beautification Program –** deferred

Utilities Division - Distribution (Water Distribution, Sanitary Collection and Storm Water Collection) (continued)

➢ **FY14 Activities and Objectives – Storm Water Collection**

- **Operations and Maintenance –** A combination of in-house and contracted resources to execute the following: operation, inspection, preventative maintenance, emergency and preventative high pressure cleaning, and repairs to the storm system. Repairs include stream banks, storm sewers and outfalls, manholes, inlets, catch basins, and emergency 'high pressure' cleaning of storm lines. Functions also include responding to 3,150 JULIE system infrastructure locate requests; adverse weather and flood response, and assist the Engineering staff with GIS/Mapping data base development.

Catch Basin Cleaning

- **Purchased Services - $41,145** – notably includes:

  ✓ **Storm Sewer and Catch Basin Cleaning and Televising Program - $30,000 –** for contract initiatives including but not limited to, storm sewer, manhole, inlets and catch basins cleaning and closed circuit televising of the storm sewers.

- **Maintenance - $18,850 –** for contract system maintenance which, notably includes:

  ✓ **Fence replacement around Clearbrook Lane drainage ditch - $12,000 –** for contract services to replace the deteriorating chain link fence with a similar fence.

  ✓ **Willowbridge Way retention pond equalizer culverts cured-in-place lining –** deferred

- **Electricity - $4,500 –** to operate three (3) storm water system lift stations and 1 (one) outfall control valve.

- **NPDES Storm Water Phase II Permit –** Compliance with the required six (6) minimum control measures to effect reductions of pollutants in storm water discharges will continue. The measures include public education and outreach, public participation & involvement, illicit discharge detection and elimination (IDDE), construction site runoff control, post-construction runoff control, and pollution prevention and housekeeping.

Storm Sewer Manhole Replacement

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Village Services Department Narrative

Utilities Division - Water Reclamation Facility

The Water Reclamation Facility division's (40-04-044-0056) FY14 budget totals $1.96 million consisting of $1.95 million in operating expenses and $10,000 of capital outlays. The total budget represents a $347,245 or 15% decrease from the FY13 budget, which is primarily attributable to the completion of construction of the Facility Plan Amendment's Phase 2A improvements.

The Water Reclamation Facility (WRF) receives and processes an average of 3.0 million gallons of domestic sewage daily. The treated effluent is released into the East Branch of the DuPage River (EBDR) pursuant to a National Pollution Discharge Elimination System (NPDES) permit administered by the Illinois Environmental Protection Agency (IEPA). The facility operates 24 hours per day, 365 days a year and staffed approximately 10-hours per day or more on-demand. A computer-based supervisory control and data acquisition (SCADA) system provides operational control of critical facility equipment, monitors treatment processes, and advises of any need to return to the facility to address system or equipment failures.

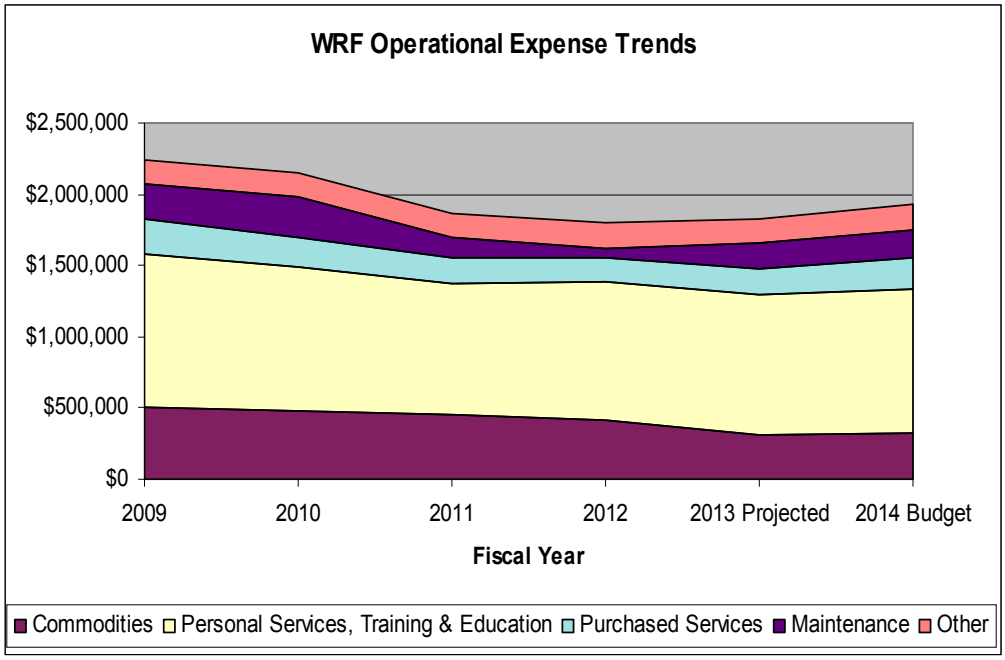
Computer-based SCADA System

The WRF is capable of treating a design average daily flow of 3.45 million gallons per day and a maximum design dry weather flow of 8.625 million gallons per day. Two (2) mechanical screens upstream of the influent pump station provide primary treatment of the wastewater. Secondary treatment is completed with biological treatment in two (2) aeration chambers and two (2) clarifiers. Six (6) sand filters provide tertiary treatment. The treated effluent is disinfected with chlorine prior to its release into the EBDR. Treatment process biological by-products, called 'bio-solids' are aerobically digested, and then dewatered by decanting and machine pressing with polymer additives. The dewatered bio-solids, which are nutrient rich in nitrogen and phosphorus, are hauled to, and applied on farm land. Five (5) high efficiency blowers provide oxygen to the biological and aerobic digestion processes. Two (2) air handling/treatment systems provide odor control. The WRF has a 15 million gallon per day wet-weather flow capacity providing primary treatment and disinfection prior to being blended with fully treated flows, and discharged to the EBDR.

The Water Reclamation staff consists of one (1) Supervisor, one (1) Plant Chemist, one (1) Plant Operator II, three (3) Plant Operator Is (one (1) vacant), one (1) Plant Mechanic II, two (2) Plant Mechanics I and 1,200 hours or .58 FTEs of temporary and seasonal assistance.

The following graph entitled "WRF Operational Expense Trends" indicates declining operating expenses since FY09, attributable to the completion of the Phase 1 and Phase 2A capital improvements, which have increased operational efficiencies, and other significant operational and electrical energy procurement decisions.

Utilities Division - Water Reclamation Facility (continued)



➢ **FY14 Activities and Objectives –**

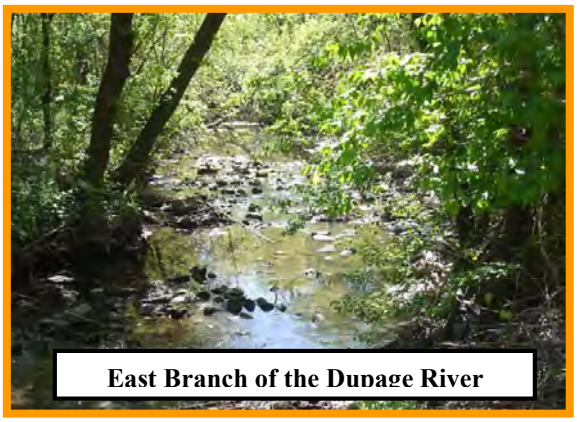
- **Maintain National Pollution Discharge Elimination System (NPDES) Permit Compliance –** Compliance emains the mission critical objective and the WRF achieves 98.8% pollutant removal efficiencies, releasing constituent concentrations well within NPDES permit standards. The current NPDES permit expired August 31, 2012, but as of this printing, the IEPA has not yet issued a new NPDES permit for a variety of reasons, including a pending Agency determination of the watershed water quality benefit attributable to the Village's participation in the DuPage River - Salt Creek Watershed Workgroup. IEPA has, and will likely continue in the future, required monitoring, and if necessary, treatment to reduce levels of certain pollutants to maintain compliance with the Clean Water Act and stream use classification of EBDR. Projected pending permit standards affecting the NPDES permit may include nutrients such as nitrogen and phosphorous.

- **Sludge Removal (Bio-Solids management and removal) - $99,500** – Pursuant to a multi-year contract, $84,500 for removal and disposal of dewatered biological treatment process bio-solids in compliance with NPDES Section 503 Permit requirements, and $5,000 for bio-solids removal and disposal during wet weather months as required by new NPDES Section 503 Permit provisions, and $10,000 for the removal and disposal of grit accumulations in the south aeration tank.

North Aeration Grit Removal

Utilities Division - Water Reclamation Facility (continued)

➢ **FY14 Activities and Objectives (continued)**



East Branch of the Dupage River

- **DuPage River - Salt Creek Watershed Workgroup (DRSCW) Annual Membership - $6,975 & Annual Water Quality Improvement Assessment - $21,000 –** The IEPA, environmental advocacy groups, publicly owned treatment works (POTW) agencies, and other government agencies form the membership of this not-for-profit workgroup. The workgroup targets watershed-based solutions to improve impaired water quality. The workgroup has initiated in-stream monitoring in the titled watersheds to identify stressors and pollutants of concern affecting water quality, and have also identified and implemented targeted capital improvements and maintenance programs envisioned to improve water quality and increase stream uses on a watershed basis. Funding sources include a combination of environmental grants, "local share" member assessments and other contributions. Beginning in FY14 the workgroup plans to annually assess members an increased contribution to build a "local share" fund that will finance capital improvements beyond those financed with environmental grants from the IEPA and other sources.

- **Maintenance – $219,410 ($197,510 Contractual and $21,900 In-house) –** For preventative maintenance of equipment and twenty three (23) buildings; costs have declined 24.2% based on number of gallons treated and processed.

  ✓ **Maintenance Expenditure Plan (MEP) - $15,000 –** A detailed listing of this work is available upon request.

  ✓ **Return Activated Sludge (RAS) Pumps – $38,700 ($22,700 contractual and $16,000 in-house) –** Maintain the motor's lower bearings, variable frequency inverters, greaser repairs and to replace meters.

  ✓ **Sludge Press Operating Interface** - $**12,500** – Upgrade system to conform to the SCADA operating system.

  ✓ **Gel Coating the Digester Fiberglass Dome Structure - $35,000 – (carryover) –** The protective coating will extend the life of the structure.

Preventive Pump Maintenance

Utilities Division - Water Reclamation Facility (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Maintenance – $219,410 ($197,510 Contractual and $21,900 In-house) –** (continued)

  ✓ **Electrical Feed Automatic Throw-Over (ATO) Switch Replacement - $10,000** - For engineering design services from ComEd associated with the replacement of the ATO switch installed in 1984. As there are two (2) ComEd electrical feeds serving the WRF, during an electrical line outage, the ATO transfers power between the two (2) electrical feeds. The engineering services include determining the project costs for a projected FY15 installation.

  ✓ **HVAC Maintenance – $13,960 –** For contract preventative maintenance.

- **Electricity - $224,300 and Natural Gas - $12,500 –** To operate pumps, blower and otherwise meet demands at the WRF. Electrical savings have been realized as the new high efficiency blowers constructed as part of the Phase 2A improvements are brought on-line, with an average cost of $18,700 per month, which equates to a monthly savings of 34%.

- **2022 Facility Plan Amendment (FPA)** - The 20-year Facility Plan Amendment (FPA) consists of expansion and upgrades totaling an estimated $42.7 million and has been segregated into five (5) separate Phases. Phase 1 was completed in 2008 at a cost of $12.1 million. Phase 2A was completed in 2013 at a total cost of $4.3 million. If necessary, Phase 2B, estimated at $7.5 million, would consist of expanded dry weather flow facilities, and address pending treatment requirements. If necessary, Phase 3, estimated at $9.8 million, would consist of new bio-solids handling systems for "Class A" sludge permit standards. Phase 2B would be targeted for construction in FY19 and Phase 3 construction in FY21 or beyond. Phase 4, estimated at $9.0 million, consists of any necessary sewer system overflow elimination, excess flow treatment, grit removal, and odor control for bio-solids handling, and if necessary would occur in 2023 or later.

  The FPA also calls for implementation of storm water best management practices, estimated at $1.0 million, for which projects have not yet been identified.

Utilities Division - Water Reclamation Facility (continued)

➢ **FY14 Activities and Objectives (continued)**

- **Chemicals - $28,300 –** For chemicals required for operations, cleaning, and odor control.
- **Laboratory testing - $7,490** – For process control and required NPDES permit compliance.
- **Other Notable Activities -**
  - ✓ Evaluate operations and work assignments and safety training.
  - ✓ Continue demonstrations for, and general interaction with, resident groups concerning the operations and environmental concerns of the WRF.
  - ✓ Conduct tours promoting public education, environmental awareness, and water conservation.
  - ✓ Continue the Storm Water Prevention Plan (SWPP) which identifies annual and quarterly maintenance projects targeted to prevent contaminants from reaching waterways tributary to the WRF. Annual maintenance includes cleaning storm sewers tributary to the WRF.

Environmental Education

Fiscal Year 2013/14 Budget

Summary of "Deferred Expenses"

A "deferred" expense is one that has been incurred in the past or was expected to be incurred in FY14 but because of financial constraints or other influences, the expense is being postponed to a future fiscal year and is not being included in the FY14 budget. A deferred expense can pertain to an ongoing, operational expense, project or program or it can pertain to a one-time capital expense, project or program. It is not an expense that was reduced, eliminated or cut from the budget.

Organization	Account	Description of "Deferred Expense"	Estimated Amount
OPERATING EXPENSES

		Total Water & Sewer Fund	**$13,000**
		Total Deferred Capital Outlays	**$788,000**

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Summary of "Carry-Overs"

A "Carry-Over" expense is one that was budgeted in a prior fiscal year (e.g. - FY13), but for various reasons, the item, program or project was not initiated or completed and the monies or a portion thereof, for this item, program or project is being "re-budgeted" in the next fiscal year (i.e. - FY14). A "Carry-Over" pertains to a one-time expense or project; it is not a recurring or on-going expense.

Organization	Account	Description of "Carry-Over"	FY13 Budget	FY13 EOY	FY14 Budget

GLOSSARY

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Definitions

ABATEMENT - A diminution of degree or intensity; a moderation. Abatements usually apply to tax levies or service charges.

ACCOUNT - The smallest unit of budgetary accountability and control which encompasses specific and distinguishable activities performed by an organizational unit for the purpose of accomplishing an activity for which that unit is responsible.

ACCOUNTING SYSTEM - The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of the Village or any of its funds, fund types, balanced account groups, or organizational units.

ACCRUAL BASIS- A method of accounting used by Proprietary Fund types and Trust Fund types under which revenues are recognized or recorded in the accounting period in which they are earned versus received; while expenses are recognized or recorded in the accounting period in which the related liability is incurred versus paid.

APPROPRIATION - A legislative act authorizing the expenditure of a designated amount of public funds for a specific purpose. An appropriation is limited as to amount and time.

ASSESSED VALUE - A dollar amount set upon real estate or other property by a government as a basis for levying taxes. Assessed Value is the basis for determining property tax.

BALANCED BUDGET - A budget where estimated current revenues equal estimated current expenditures.

BASIS OF ACCOUNTING - A reference to the accounting method used to record and recognize revenues and expenditures or expenses.

BOND - A written promise to pay a specified sum of money, called principal, at a specified maturity date, along with a promise to pay periodic interest at a specified percentage of the outstanding principal.

BONDED DEBT - An outstanding obligation to pay a specific sum of money which resulted from the issuance of bonds.

BUDGET - A financial plan of operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing those expenditures. Used without modifier, the term usually indicates a financial plan for a single fiscal year.

BUDGET AMENDMENT - A change to the budget subsequent to adoption. This change must be formally approved by the Village Board.

BUDGET MESSAGE - A general discussion of the proposed budget as presented in writing by the Village President and/or Village Administrator to the Board of Trustees.

Definitions

BUDGETARY CONTROL - The control or management of the Village in accordance with an approved budget for the purpose of maintaining expenditures within the limitations of available appropriations and revenues.

CAPITAL ASSETS - Assets of significant value and having a useful life of at least two (2) years. Capital assets are also sometimes referred to as fixed assets. In respect to the Village, significant value means a per unit cost of $5,000 or greater.

CAPITAL GRANTS - Grants restricted by the grantor for the acquisition and/or construction of fixed assets.

CAPITAL IMPROVEMENT PROGRAM - A multi-year plan used by governments to identify needed capital improvements and to coordinate the financing and timing of those improvements in a way that maximizes the return to the public.

CAPITAL IMPROVEMENTS - Nonrecurring projects including, but not limited to, construction of, major alterations to, remodeling of or repair to physical facilities, buildings, structures, streets and highways, storm and sanitary sewers and fixed assets.

CAPITAL LEASE - An agreement that conveys the right to use property, plant or equipment, usually for a stated period of time, that meets one or more of the criteria set forth in Statement of Financial Accounting Standards No. 13 for lease capitalization.

CAPITAL OUTLAYS - Expenditures or expenses which result in the acquisition of or addition to capital assets.

CAPITAL PROJECTS FUND - A fund used to account for the financial resources to be used for the acquisition or construction of major capital facilities and equipment, other than those financed by Proprietary Fund types.

CASH BASIS - A method of accounting under which transactions are recognized only when cash is received or disbursed.

CASH MANAGEMENT - A reference to the activities of forecasting inflows and outflows of cash, mobilizing cash to improve its availability for investment, and investing temporary cash balances in order to achieve the highest interest and return available while minimizing risk to principal.

CATEGORY - As used in expenditure classification, this term applies to the article purchased or the service obtained (as distinguished from the results obtained from the expenditure). Examples are personal services, purchased services, training & education, maintenance, commodities, capital outlays, debt service and other charges. See also **OBJECT CLASSIFICATION**.

CHART OF ACCOUNTS - A classification system used to organize accounting records.

Definitions

COMMODITIES - A consumable item used in the operation of the Village. Examples include office supplies, maintenance supplies, gasoline, chemicals, electricity, etc.

CONTRACTUAL SERVICES - Services rendered to the Village by private firms, individuals, or other government agencies. Contractual services are obtained by an express or implied contract.

DEBT - An obligation to pay resulting from the borrowing of money or from the purchase of goods and services.

DEBT SERVICE - The payment of principal and interest on general obligation bonds, revenue bonds, or other bonded debt.

DEBT SERVICE FUND - A fund used to account for the accumulation of resources for and the payment of general obligation debt principal, interest and related executory costs.

DEFICIT - The excess of expenditures or expenses and other financing uses over revenues and other financing sources.

DEFICIT BUDGET - A budget in which current estimated expenditures are greater than current estimated revenues.

DEPARTMENT - A major organizational unit of the Village which has management responsibility for one or more Divisions and/or Subdivisions.

DEPRECIATION - The expiration, in terms of service life, of a fixed asset, other than by waste, attributable to wear and tear through use and lapse of time, obsolescence, inadequacy, or other physical or functional cause.

DEPRECIATION EXPENSE - A portion of a fixed assets cost charged as an expense during a particular accounting period equal to the cost of the fixed asset prorated over the estimated service life of that asset. Depreciation expense is recorded in Proprietary Fund types.

DISBURSEMENT - The actual payment for goods and services; an outlay of cash.

DIVISION - An organizational unit of a Department with operational responsibility for a function of the Village.

ECONOMIC RESOURCES - The assets resulting from the production, development or management of financial matters.

ENCUMBRANCES - Commitments related to unperformed (executory) contracts for goods or services. Used in budgeting, encumbrances are not GAAP expenditures or liabilities, but represent the estimated amount of expenditures that ultimately may result if unperformed contracts in process are completed.

Definitions

ENTERPRISE FUND - A fund used to account for operations that are financed and operated in a manner similar to a private business enterprise - where the intent is that the costs of providing goods and services to the public on a continuing basis is financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The Water and Sewer Fund is an Enterprise Fund.

EXPENDITURES - Decreases in net financial resources. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service and capital outlays, and intergovernmental grants, entitlements and shared revenues.

EXPENSES - Outflows or other "using- up" of assets or incidences of liabilities (or a combination of both) from delivering or producing goods, rendering services or carrying out other activities that constitute the entity's ongoing major or central operations.

FIDUCIARY FUNDS - Funds used to account for assets held by the Village in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other Funds. Fiduciary Funds include Pension Trusts and Agency Funds. Pension Trust Funds are accounted for in the same manner as Proprietary Fund types since capital maintenance is critical. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of the results of operations.

FINANCIAL FORECAST - A multi-year, long range approach to assessing the Village's revenue and expenditure needs. A financial forecast is developed by utilizing existing policies, objectives, assumptions, and accepted benchmarks and activity measures.

FINANCIAL RESOURCES - Cash and other assets that, in the normal course of operations, will become cash.

FISCAL YEAR - A twelve-month period running from May 1st to April 30th and designated by the calendar year in which it ends.

FIXED ASSETS - See **CAPITAL ASSETS**.

FULL-TIME EQUIVALENT (FTE) - A measure of the authorized hours of an employment position, or a group of employment positions expressed in terms of the authorized hours for a full-time employment position.

FUNCTION - The proper action for which a person, office, or mechanism is employed. An assigned duty or activity.

FUND - An independent fiscal and accounting entity with a self-balancing set of accounts segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Definitions

FUND ACCOUNTING - A method of accounting used by governmental entities whereby resources are allocated to and accounted for in separate Funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

FUND BALANCE - The equity of Governmental Fund types. Fund balance is not the equivalent to cash but is the difference between fund assets and fund liabilities. There are five (5) classifications of fund balance. They are:

1. **Non-spendable** – indicates that this portion of fund balance cannot be spent, either now or in the future, because of the form of the asset (e.g. – inventories) or a permanent legal restriction (e.g. – principal of an endowment).

2. **Restricted** – indicates that there are constraints on spending that are legally enforceable by outside parties or imposed by law or enabling legislation.

3. **Committed** – indicates that there are constraints on spending that the government imposes upon itself through formal action taken by the highest level of decision-making authority prior to the close of the fiscal year.

4. **Assigned** – indicates the intent for spending of certain resources that are neither restricted nor committed, for a purpose set by the governing body itself or by some person of body delegated to exercise such authority in accordance with policy established by the board.

5. **Unassigned** – represents the residual for the General Fund; indicates that there are no restrictions for spending.

FUND TYPE - A reference to one of seven categories into which all individual Funds must be classified.

GENERAL FUND - A Fund used to account for all revenues and expenditures of the Village which are not required to be accounted for in any other Fund.

GENERAL LEDGER - A record containing the accounts necessary to reflect the financial position and the results of operation of the Village.

GENERAL OBLIGATION BONDS - Bonds for the payment of which the full faith and credit of the Village is pledged.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) - Uniform minimum standards utilized in financial accounting and reporting, encompassing the conventions, rules and procedures that define accepted accounting principles.

GOVERNMENTAL FUNDS - Funds used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities-except those accounted for in Proprietary Funds and Fiduciary Funds. Under current GAAP, there are five governmental fund types: general, special revenue, debt service, capital projects and permanent funds.

Village of Bloomingdale

Definitions

GRANT - A contribution of cash or other asset by a government or other organization to support a particular purpose or activity.

INFRASTRUCTURE - The basic installations and facilities on which the continuance and growth of the Village depend. Examples include sewer and water systems, roadways, communication systems, public buildings, etc.

INVESTMENTS - The commitment of temporarily idle cash in order to gain profit or interest, as by purchasing notes, bonds or other securities. The term does not include fixed assets used in Village operations.

LEVY - The imposition and collecting of a tax.

LINE ITEM - A set of numbers which, in accordance with an overall system for classifying activity, indicates the fund, department, division, subdivision and account to which that activity is recorded.

LINE-ITEM BUDGET - A form of budgeting wherein each detailed expenditure unit is listed separately, along with the amount budgeted for that specified unit.

LIQUIDITY - The ability to meet demands for payment on a timely basis.

LONG-TERM DEBT - Obligations with a maturity beyond one year.

MAINTENANCE - The action of continuing, carrying on, preserving or retaining something; the work to keep something in proper condition.

MEASUREMENT FOCUS - An accounting convention that determines (1) which assets and which liabilities are included on a government's balance sheet and where they are reported on the balance sheet, and (2) whether an operating statement presents information on the flow of financial resources (revenues and expenditures) or information on the flow of economic resources (revenues and expenses).

MODIFIED ACCRUAL BASIS - A method of accounting in which revenues are recognized or recorded when they are susceptible to accrual or in other words "measurable" and "available." -- "Measurable" means the amount can be determined. "Available" means collectible within the current accounting period or sixty (60) days beyond that period. Expenditures are recognized or recorded when the related liability is incurred. All Governmental funds and Agency funds are accounted for using the modified accrual basis of accounting.

NET INCOME - The excess of operating revenues, non-operating revenues and operating transfers-in over operating expenses, non-operating expenses and operating transfers-out of Proprietary Funds.

NONOPERATING EXPENSES - Proprietary Fund expenses not directly related to the Fund's primary activity (e.g. - interest expense).

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Definitions

NONOPERATING REVENUES - Proprietary Fund revenues incidental to, or not directly related to the Fund's primary activities (e.g. - interest income, taxes, grants).

OBJECT CLASSIFICATION - A means of identifying and analyzing the obligations incurred by the Village in terms of the nature of the goods or services purchased (i.e. - personal services, purchased services, training & education, maintenance, commodities, capital outlays, debt service and other charges) regardless of the subdivision, division, department or fund involved. See also **CATEGORY**.

OPERATING BUDGET – That portion of a budget that pertains to the daily operations that provide basic services. The operating budget contains appropriations for such expenditure categories as personnel services, commodities, contractual services and maintenance.

OPERATING EXPENSES - Proprietary Fund expenses which are directly related to the Fund's primary service activity.

OPERATING GRANTS - Grants that are restricted by the grantor to operating purposes or that may be used for either capital or operating purposes at the discretion of the grantee.

OPERATING REVENUES - Proprietary Fund revenues which are directly related to a Fund's primary service activity (i.e. - user charges).

OPERATING TRANSFERS - The movement of money from one Fund to another to reimburse or pay for specific services rendered, or to more generally support the activities of the receiving Fund.

PERSONAL SERVICES - Expenditures for salaries and wages paid for services performed by Village employees, as well as the incidental fringe benefit costs associated with Village employment.

PRINCIPAL - In the context of bonds other than deep-discount debt, the face or par value of a bond or issue of bonds payable on stated dates of maturity.

PROGRAM BUDGET - A form of budgeting wherein expenditures are based primarily on programs of work and secondarily on object class and performance.

PROPERTY TAX LEVY - A tax based upon the assessed value of real property.

PROPRIETARY FUND TYPES - Funds used to account for a government's ongoing organizations and activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses and transfers relating to the government's business and quasi-business activities are accounted for through Proprietary Funds. The GAAP used are generally those applicable to similar businesses in the private sector and the measurement focus is on determination of net income, financial position and changes in financial position.

RESOURCES - Total dollars available for appropriations including estimated revenues, operating transfers in and beginning cash balances.

Village of Bloomingdale
Fiscal Year 2013/14 Budget
Definitions

REVENUE - The income of the Village from all sources, appropriated for the payment of the public expenses.

REVENUE BONDS - Bonds whose principal and interest are payable exclusively from the earnings of an Enterprise Fund.

SOURCE OF REVENUE - The point of origin of a particular income stream.

SPECIAL REVENUE FUND - A Fund used to account for the proceeds from specific revenue sources (other than trusts or major capital projects) that are legally restricted to expenditures for specific purposes.

SPECIAL SERVICE AREA - A designated section of the Village in which special governmental services are provided in addition to the services generally provided throughout the Village.

SUBDIVISION - An organizational unit of a Division with operational responsibility for a function of the Village.

TAX - A contribution for the support of the Village required of persons, groups or businesses within the domain of the Village.

TAX LEVY - The amount to be raised by imposing and collecting upon a contribution used to fund operating expenses and debt service requirements.

TAX LEVY ORDINANCE - A legal document by means of which property taxes are imposed.

TRUST FUND - A Fund used to account for assets held by a government in a trustee capacity for individuals, private organizations, other governments and/or other Funds.

USER CHARGES - The payment of a fee by a party benefiting from a service for the receipt of a public service.
