Go to [www.villageofbloomingdale.org](http://www.villageofbloomingdale.org) and sign up for the E-news. It's easy and free!

## A Message from Mayor Franco

Happy Summer - about this wet weather and record hatchings of mosquitoes....oh,....tired of that topic? Me too! Let's talk about something we can actually control, such as, some positive developments you will be seeing soon.

Starting with Lake Street, the two empty restaurants just east of St. Paul's Cemetery will be coming down very soon to make way for the Bloomingdale Memory Care Facility. The developer intends to break ground for the one-story building this fall. The site will be beautifully landscaped and makes a wonderful addition to Bloomingdale's eastern entrance.

We will soon be seeing activity at the southwest corner of Springbrook Shopping Center, as the builder installs compacted embankments in order to elevate the new building to allow for better drainage at this site. Construction of the three-tenant structure, anchored by Starbucks, will begin soon after that.

As part of the East Lake Street TIF, the Village recently purchased the shopping center adjacent to the vacant Shell station at Lake and N. Circle, and is in negotiations with an investor interested in combining the two parcels into a single redevelopment project. The Village is optimistic that an agreement can be reached this year with the project breaking ground in 2016.

Work has been continuing at our monument sign at Lake & Bloomingdale. By the time this *Almanac* hits your homes, the lettering and the logo will be attached and (barring lots more rain and mosquitoes), the entire site should be completed by the end of August.

Following the new monument sign, the Village's Old Town Streetscape and Infrastructure Project is set to begin later this year. The Village's plan for the area focuses on a number of design elements that will help improve walkability and circulation within the area. The plan provides a fresh look to Old Town while preserving the historical character of the area. For details about the plan, see the bottom of col 1 on p. 5.

Jumping to west Army Trail Road, the bricks are going up on the Chick-Fil-A building at Springfield Drive and the restaurant seems to be on target for an October opening. A little farther west, construction is getting underway for the Army Trail two-tenant Starbucks building, also looking toward opening in fall.

Speaking of fall, Septemberfest is around the corner. Hope to see everyone there. And check out the generous fundraiser Jersey Mike's is doing again for the Septemberfest Scholarship Fund on p. 15. Enjoy the rest of the Summer!

Mayor Franco

*Mayor Franco had an unexpected opportunity for some one on one conversation with the Hall of Famer at the 6th Annual Tommy Lasorda Open at Hilton Indian Lakes Resort. The Mayor shared his fond childhood memories of seeing the baseball icon as a manager for the Dodgers while at Wrigley Field.*

## Our Sympathy to the Family of Former Trustee Paul Ahlrich

Longtime resident Paul Ahlrich of Bloomingdale passed away on July 13 at the age of 83. Deepest sympathies are extended to Esther, his wife of 62

*Paul from the April 1967 election*

years, and his children, grandchildren and great-grandchild.

Paul served as a Village Trustee, elected in April of 1967, serving in that position until September of 1972, when he was appointed Acting Mayor until April of 1973. Paul was on the Village Board when ground was broken for the Westlake Subdivision in 1969, when the building boom began. During the 60s, Bloomingdale's population surged by 136 percent from 1,262 to 2,974.

## Take a Bite Out of Crime

Bloomingdale's Annual National Night Out Against Crime takes place from 6:00 to 9:00 p.m. (weather permitting) on Tuesday, August 4 at the Bloomingdale Park District, 172 S. Circle Avenue.

Hot dogs, hamburgers, etc. will be provided free of charge from 6:00 - 7:30 p.m. through Catering with Elegance by Glendale. The pool is open to all attending the event and organized games and prizes are scheduled.

## Battling the Bites

The mosquitoes have been very bad this season due to all of the rain and flooding. Bloomington Township reports record mosquito hatching due to these conditions. There are many types of mosquitoes, but "floodwater" or "nuisance" mosquitoes are the ones most likely to be biting you so far this summer.

These mosquitoes do not carry West Nile Virus (WNV). The type of mosquito that spreads WNV is *Culex pipiens*, which breeds in stagnant water during the hot and dry months (usually July and August), when there is typically little rain. Since it is nearly impossible for the naked eye to identify floodwater and *Culex* mosquitoes, it is best to "Fight the Bite" of all mosquitoes.

The DuPage County Health Department encourages residents to follow the "4 Ds of Defense," which include **draining** standing water, using insect repellent to **defend** yourself, **dressing** with long sleeves and pants to cover your skin and being especially careful between **dusk and dawn**, when mosquitoes are most active.

To get the most current information on WNV in DuPage County, see [www.dupagehealth.org/ftb](http://www.dupagehealth.org/ftb)

## Village Continues Replacing Ash Trees Infested with EAB

The Village Forestry Division, through in-house staff and contractual services, is continuing efforts to remove and replace public ash trees due to the Emerald Ash Borer (EAB) infestation. Fewer than 100 parkway ash trees remain.

While the Village does not remove any private property trees, including ash, residents may be eligible to participate in the Village's annual 50/50 Tree Planting Program. Details on this cost sharing program will appear on the website and in the October issue of the Village Almanac.

Forestry staff is also available to inspect private trees and answer questions. Contact the Forestry Division at 630-671-5800.

## Help Prevent Local Flooding

**Please do not rake, pile or blow debris, grass clippings leaves or tree branches into the street or into, over or near a storm sewer drain.** They can cover storm water inlets, preventing water from flowing into the storm sewer system creating a greater chance for localized flooding.

**When autumn leaves begin to pile up around the yard, the Village Building and Zoning Division would like to remind all property owners that raking or blowing leaves into the street or curb is a violation of section 5-2-4 A.2 of the Village's Municipal Code.** When leaves are raked or deposited into the street, they can also cover storm water inlets. Not only does create a greater chance for localized flooding, the deposits which eventually decay are also unsightly. The Village's street sweeping program is designed to only collect those leaves that fall naturally onto the street, NOT leaves that are raked or deposited into the street by the property owner or landscape maintenance contractors.

If you have any questions regarding compliance with Village Code, please contact Building & Zoning/Code Enforcement at 630-671-5660.

**Please collect and deposit leaves in brown kraft paper yard waste bags.** Each yard waste bag must have a yard waste sticker affixed, or it will not be collected by Republic Services. Yard waste stickers are sold at the Village Hall, and local retailers such as Caputos, Jewel and Ace Hardware. Tagged yard waste bags may be placed at the curb after 6 p.m. on the night before your collection day. If you have any questions regarding the yard waste collection program please contact the Village at 630-671-5613.

## Old Town Improvement Plan

*Refer to Mayor's Message, p. 3.*

The improvements include reconstruction of Third Street and Franklin Avenue; replacement of the sewer and storm systems; undergrounding of utilities; replacement of asphalt parking spaces along Third Street and Franklin with permeable pavers to increase infiltration of storm water flows into the ground and decrease the volume of runoff entering the storm system; the purchase of the 105 Third Street property to demolish and construct a new parking lot; improved lighting to make the area welcoming and safe in the evenings; and construction of a new entry sign at the corner of Third Street and Lake Street to serve as a welcoming point for visitors.

## Please Give New Parkway Trees Regular Drinks When Heat & Dry Weather Kick In

The Forestry Division has removed and replaced many EAB trees last year and this spring, and is requesting help from residents to keep these replacement trees watered when the temperature climbs and there isn't enough rain. Trees lose lots of water when the temperature climbs.

Proper watering is the single most important aspect of maintenance of transplanted trees. The goal is to provide at least 1 to 2 inches of water every two weeks, more often in very hot weather.

Here are two easy ways to accomplish watering:

1. Set a garden hose at the base of the tree, and let it trickle for 15 minutes
2. Perforate a 5-gallon plastic bucket with several holes, place it near the trunk of the tree and fill it with water. Allow the water to seep out, then repeat.

After the tree has been established for two years the root structure is better able to withstand a wider range of water conditions.

No commercial or institutional waste will be accepted. **Please remove medications from original container and put in a plastic bag before dropping off to any location.** Any personal information should be blacked out for safety. Never place loose needles/sharps into waste or recycling bins.

## Help Kids Have a Safe Start to the New School Year

It's hard to believe that school will be beginning before the end of this month! This is an excellent time to review school safety with your children. Here are a few "common sense" safety tips that can benefit children of all ages.

### Walking to and from school:

- Choose a safe route for walking to and from school. Avoid walking by vacant lots, fields, or other areas where there aren't many people around.
- Use the buddy system; it is safer to walk in a group than by yourself.
- If you bike or skate to school, wear a protective helmet and don't forget to lock your bike.
- Cross the street at corners or crosswalks; Stop and look in all directions.
- **Never** talk to strangers or accept gifts or rides from people you don't know. If a stranger approaches you, **RUN- YELL- TELL** an adult or call 9-1-1.
- Let your parents know if you need to stay late at school or if you plan to go to a friend's house instead of going straight home.

### At school:

- If you see something that makes you uneasy or you think isn't right—a stranger hanging around school, a bully bothering other youths, vandalism or graffiti—tell a teacher or your parents right away.
- Learn to settle arguments with words, not fists. Walk away from an argument instead of fighting. Never bring weapons of any kind to school and tell a teacher immediately if someone else has a weapon.

## Go Orange!

September is National Hunger Awareness Month. Go Orange and Fight Hunger is the battle cry. Last September, thanks to the residents, businesses, organizations, schools and churches who jumped on the orange bandwagon and generously gave to the Northern Illinois Food Bank and the Bloomingtondale Township Food Pantry, Bloomingtondale made a difference.

*Last year the Bloomingtondale Park District employees teamed up (orange shirts and all) and carried out their own successful food drive.*

This year, even though we are collecting and focusing on helping to fight hunger all month, Mayor Coladipietro will be proclaiming Thursday, September 3, 2015 as 2015 National Hunger Awareness Day in Bloomingtondale.

The proclamation will further urge everyone in the Bloomingtondale community to:

1. Wear Orange to Work or School
2. Donate Food/Supplies to local food pantries all year long, and during September Hunger Awareness month (at the Bloomingtondale Village Hall, Park District, Library and possibly more locations TBD)
3. Encourage conversation about hunger with your friends, family and coworkers, and on Social Media.
4. Volunteer your time working at a local food pantry, collecting and/or delivering food to those in need.

This year we plan to create a GO ORANGE Hunger Awareness campaign that incorporates Bloomingtondale businesses to help make an even bigger impact. Watch the e-news for more information as September approaches.

## Swimming & Pool Safety Tips

- Never leave a young child alone or with a sibling. If you must step away from the pool area, take the child, or children, out of the pool and with you.
- Have a poolside phone so there is no need to leave the area and know the emergency number to call.
- Teach your child to swim at a young age. Should they fall in, they might be able to help themselves by staying afloat.
- If you have a pool, make sure it is protected on all four sides from neighborhood kids. The fun of having a swimming pool makes it an inviting hazard.
- Place door latches on the pool entrance high off the ground so children can't open them.
- Make sure the door to the pool has a self-closure that will automatically close and latch.
- If you have a pool or hot tub, you have chemicals of some type to clean and correct the pH levels of the water. Make sure they are kept out of the reach of children. Pool and Spa chemicals should be stored by themselves as some of these products are oxidizers. Oxidizers can start fires or give off toxic gases if they come in contact with oil or gasoline.

Accidents happen. Attend a First Aid and CPR class. Know what to do before it occurs.

It's been three years since 16-year old Janine Delaney, a childhood cancer survivor herself, urged the mayor to proclaim September to be Childhood Cancer Awareness month in Bloomingdale. The community has embraced the cause with an enthusiastic and widespread response and Mayor Franco continues to make that proclamation. Janine is headed off to college this year, but will still be participating in the CureSearch Walk, which is being held on September 20 at Boomers Stadium in Schaumburg this year. Janine continues to pay her survivorship forward "to help change the odds for those children most at risk."

If you'd like to support Janine by donating to her CureSearch page, go to [www.curesearchwalk.org](http://www.curesearchwalk.org), click on Chicago Walk, click on Donate, enter Janine Delaney and follow the donation instructions. Or check out the website and join the walk. Janine hopes to someday see all Bloomingdale residents and businesses alike sport the color gold in September in support of the mission to cure childhood cancer.

Pictured above from the 2014 Septemberfest Parade is Enzo Ravenna and his entourage. The four-year old joined Janine's fight and fundraising last year.

## The Bloomingdale Park District Museum Features

**Chicago Sculpture International: "Landfills"**  
from August 22 - September 26 with a Complimentary Reception from 2:00-4:00 p.m. on August 30.

"Landfills" promises to be a journey into the world of sculpture that is driven by collective consciousness and a never-ending source of individual inspiration. The exhibit means to present works whose materials have literally and physically metamorphosed from their original, fragmented street; meaning to become an object within a gallery context. Whether interpreted as landscape or lifestyle, beautiful or ugly, industrial or craft-made, intentionally designed or unearthed, the allegory of ideas and sculptures speaks about a culture of social disruption.

## 'Through Their Eyes' - A Civil War Presentation

The Bloomingdale Historical Society, in conjunction with the Bloomingdale Public Library, is pleased to present "Through Their Eyes," accounts of life with the soldiers of the Civil War, as told from the perspective of three re-enactors.

Harry Reineke, IV is the Commander of Camp Douglas Memorial #516, Sons of Confederate Veterans. He re-enacts 2nd Kentucky Dismounted Cavalry, and will be sharing some of the Southern reasons for secession from the Confederate perspective.

Resident Bob Kurek, whose interest in history was kindled by two of his elementary teachers, is the Past Camp Commander of the P.H. Sheridan Camp 2, Department of Illinois, Sons of Union Veterans of the Civil War (SUVCW). He has created a fictional persona, Bob Arkansas Toothpick, a war correspondent who will explain how the war was covered in the 1860s.

Jeremy Heitkam, resident and pastor of St. Paul Church, also found his passion for history and the Civil War at an early age. He will provide insight into the role and experiences of the Civil War chaplain on and off the battlefield. This was the first war in which the chaplain was registered as a commissioned officer.

In addition, Leslie Drewitz, certified genealogical librarian and museum co-curator, will share her research on several of the Bloomingdale residents who enlisted with the Union Army.

The Underground Railroad quilt created by Bloomingdale's Loose Threads Quilt Club will also be raffled off during the afternoon. "Through Their Eyes" is a free presentation taking place from 2-4 p.m. on Sunday, September 27 in the AB Rooms on the lower level of the Bloomingdale Library, 101 Fairfield Way. Please register in person at the library or online at [www.mybpl.org](http://www.mybpl.org).

## Civil War Reproduction Quilt to be Raffled on September 27

This handmade quilt was assembled for a Civil War presentation jointly sponsored by the Bloomingdale Historical Society and the Bloomingdale Loose Threads Quilt Club in April. The program featured Civil War Reproduction quilts created by Loose Threads members.

The highlight of the presentation was this quilt made up entirely of blocks sewn by members to illustrate the messages placed in quilts during the Civil War to help runaway slaves make their way to the North and freedom. The "Underground Railroad" quilt was on display at the Park District Museum through August 1st and will be on display at the September 27th program.

The quilt will be raffled off the afternoon of the "Through Their Eyes" presentation. The shared proceeds will be used by the quilt club for programs and by the historical society for its educational initiative in the local schools.

## Maker Spaces Enhances Learning at Cloverdale

Maker spaces is a concept whereby students are enabled to learn by doing and encouraged to create their own learning. The 5th grade teachers at Cloverdale Elementary School have begun incorporating maker spaces time in their classrooms as a form of authentic assessment that encourages students to become self-directed learners, creative learners, and better problem solvers. All are necessary skills to develop in order to succeed in modern colleges and careers.

Students collectively brainstorm about a topic or subject matter introduced by their teacher, and then they are given time to create a project based on the topic that will help them to learn as they create. Students can choose to create their project using almost any format, from low technology to high technology, including lego projects, video game creation, and more.

## Words of advice for the Grill Master at Your House

When the warmer weather hits, there's nothing better than breathing in the smell of magnificent food on the grill. For everything from hamburgers to sausage to eggplant, even pizza, grills are a mainstay at most homes. The Bloomingtondale Fire Protection District and the National Fire Protection Association would like to remind you that three out of five households own a gas grill, which translates to a lot of tasty meals in the months ahead. But it also means there's an increased risk of home fires.

America's favorite grilling holidays are Fourth of July and Labor Day and food is often the main attraction. With lots of activity and people around though, it's easy to become distracted while cooking. Each year an average of 8,800 home fires are caused by grilling, and close to half of all injuries involving grills are due to thermal burns. One of every six home structure fires involving grills started because something that could catch fire, like a dish towel, oven mitt, or food packaging, was too close to the heat.

This may sound scary, but preventing grill fires is not as hard as you think. All it takes is a little preplanning. By following a few simple summer safety precautions and guidelines, you can enjoy delicious grilled meals all season long. As you prepare to light up your grill, consider the following:

- Use propane and charcoal grills outdoors only.
- Place the grill well away from your home, deck railings and out from under eaves and overhanging branches.
- Put safety rules for kids in place. Keep children and pets at least three feet away from the grill area.
- Clean your grill often, removing any grease or fat buildup from the grates and in the trays below.
- Stay next to your grill at all times while cooking; never leave the area unattended.

For more information and resources, contact Battalion Chief Richard Kurka at 630-894-9080 or check out NFPA's Cooking Fire Safety Central webpage and enjoy your next great grilled meal safely!

## Lincolns Honored Guests at Museum Midwest Quilt Show

As part of the Park District's Museum's Homage to the Civil War, President Lincoln and Mrs. Lincoln (Max and Donna Daniels) attended the reception for the Midwest Art Quilt Challenge and unique painted chair exhibit "Chairish" by artist Geri Greenman.

The Lincolns posed by the handmade Reproduction Underground Railroad Quilt which will be raffled at the September 27 "Through Their Eyes" Civil War presentation at the Library.

In the Midwest Quilt Gallery, (l to r) Co-curator Marje Bristow, Quilter JoEllen Iden, who designed and assembled the Underground Railroad Quilt, and Artist Geri Greenman, share a conversation.

Civil War period attendees: a Union soldier, a Confederate soldier and a sutler, a "traveling salesman," who plied his goods to the Union troops during the Civil War at a 600% markup, pose with a Civil War Maritime figure.
