A Message from Mayor Franco

June is here and hopefully summer along with it! As the weather warms we once again will have many fun family activities.

Beginning in June, the Annual Farmer's Market will kick-off its third season in a new location. As you know, the last two seasons the Market has been held in the Tiffany Pointe parking lot while the Village completed improvements to Old Town. With that work now done, the Market will move down the street into the heart of Old Town. Be sure to come out and support the market vendors beginning June 7 and running every Thursday through the end of September.

Summer also means construction and the Village will have plenty of that taking place. Work along Lake Street will be visible with the construction of the new Dunkin Donuts at the old Marathon Station, the build-out of Lucky's Hot Dogs at corner of Lake and Circle, and the first phase of the Lake Street Streetscape Project beginning with the construction of a new Bloomingdale entry sign in the median at Lake and Medinah.

Just a little reminder, we are able to continue our streetscape project, as well as make other improvements around the Village, while keeping up our level of services to the residents when you keep your tax dollars in the community. I've said it before – 49% or \$8.43 million of the Village's General Fund's total revenue comes from sales tax. Our other sources of revenue don't come close! Our businesses are the lifeblood of our community. **Please, please** support our local businesses whenever you can.

Speaking of local businesses, June also welcomes the opening of Alcentro Trattoria at Third Street and the piazza, as well as Wolfden Brewing Company at the corner of Lake and Third Street in Old Town. The restaurant will be a relaxed dining venue with a warm atmosphere for family and friends to come together to enjoy good food and drink. The brewery will offer a tasting room overlooking the Beer Manufacture Room and an outdoor beer garden for patrons to enjoy.

Heading into July the Village will once again celebrate our nation's birthday with a Fireworks Display to be held on July 3 at the Bloomingdale Golf Club. The golf course provides a wonderful backdrop for the event. The Village will be selling tickets for VIP seating in the dedicated viewing area on the clubhouse balcony for \$50 each with proceeds going towards the Bloomingdale Cares Grant Program (see details in the column to the right). The newly formed 501 (c) 3 organization was created to raise funds to help toward the sponsorship of community events and to assist various community organizations.

In addition to these events, be sure to check out some of the other fun family activities all summer long. From the free Tuesday evening Concerts in Old Town Park (with pre-concert activities for the youngsters), Oasis Pool, Park District Teen Music Fest in June, Library lunchtime Summer Concert Series, the Summer Reading Program, Community Story Times, monthly car shows at Stratford Square, National Night Out, a Heroes vs Half-Pints softball game, Ice Cream Social and much more, there is something for all ages!

Summer is a great time and I look forward to seeing you around town!!

Mayor Franco

Village Honored for Excellence in Financial Reporting

For the 29th consecutive year, the Village of Bloomingdale received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA). This award is the highest form of recognition in governmental accounting and financial reporting.

Congratulations to Finance Director Gary Szott and the Finance team for consistently earning this recognition.

Help Keep Local Tax Dollars Local

A proposal currently **being considered** in Springfield would have a lasting negative impact on the Village's budget, if enacted. Governor Rauner and State legislators are considering a proposal that would **reduce the amount of State-collected income taxes** targeted for municipalities to help fund the State's 2018-2019 budget deficit.

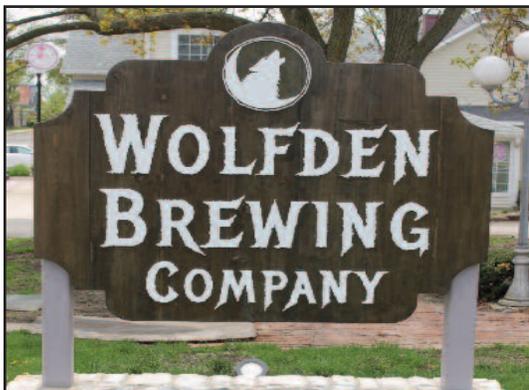

The proposal includes the continuation of a 10% reduction in revenues distributed to local municipalities through the Local Government Distributive Fund (LGDF). A continuation of the 10% reduction in LGDF distribution funding, will result in a loss of roughly \$125,000 to \$150,000 for vital Village services.

All Bloomingdale residents are encouraged to send a message to Governor Rauner and our State legislators that you support keeping local tax dollars in our community to pay for essential services like adequate police and fire protection, street repairs, snow removal, and many more services that you rely on the Village to provide every day.

Please visit Protect My Town Coalition at www.ProtectMyTown.us to send your message today.

Coming Soon!

This summer Old Town will celebrate the opening of two highly anticipated newcomers. Alcentro Trattoria at Third and Franklin Streets features authentic Italian Cuisine with a Sardinian Flair, where family and friends can gather to enjoy good food and drink in a warm, relaxing atmosphere. Wolfden Brewing Company at Lake and Third Streets is a craft beer brewery and tap room which offers a tasting room overlooking the Beer Manufacture Room, as well as an outdoor beer garden for patrons.

Hydrant Flushing Begins June 4

The Village Services - Utilities Division will be performing the annual Hydrant Flushing Program beginning June 4 through June 21. The program will be performed during the daytime hours of 8:00 a.m. - 3:00 p.m.

Please **DO NOT WASH LAUNDRY** during the flushing hours, as rust staining of the clothing may result. Residents with water softeners are encouraged to check the cycle time of their softeners so that the unit does not regenerate during this period.

The hydrant flushing schedule was published on p. 16 of the April 2018 Almanac, but you can check when your area will be affected through the search button on the upper left-hand corner of the Village's home page at www.villageofbloomingdale.org Type in "hydrant flushing" and the link to the schedule comes up.

Questions? Please contact the Water Distribution Division at 630-671-5830.

Planning a Garage Sale This Summer? Thieves Like to Go Shopping Too

Illinois Law Enforcement Torch Run Events

Sunday, June 10 marks the 2018 Illinois Law Enforcement Torch Run, the single largest year-round fundraising event benefiting Special Olympics Illinois. Watch for more information on the Bloomingtondale Police Department Facebook page.

For sale: The Bloomingtondale Police Department also has 2018 Torch Run items for sale: T-shirt, \$15; Baseball Cap, \$15; Torch Run Pin, \$5; all three for \$25.

For more information or to make a donation to Special Olympics, call Officers Jin Han, Damian Iwanicki or Phillip Jaffe 630-529-9868.

Warm weather is the perfect time of year for holding a garage sale to declutter and turn your "trash" into someone else's "treasure." Here are some safety tips to help keep your sale on the safe side.

- **Lock up the house** – Always keep your house locked and secure windows to minimize the risk of someone entering your home while you are preoccupied.
- **Never allow anyone to go inside your house** – A request to use the restroom (even for a child) may occur, but it is best to direct them to the nearest gas station, restaurant, or shopping area. A "NO RESTROOM AVAILABLE" sign may avoid such a request. Also, a full length mirror can be posted outside for those wanting to try on clothes.
- **Keep your yard and garage clear of hazards** – This includes tripping hazards, low tree branches, unstable tables, large objects on the edge of tables, etc.
- **Always have at least two adults present during your garage sale** – Three would be better, so one person could check on the posted signs or run errands (ex. lunch).
- **Greet everyone who walks up** – Make sure they know you have seen them.
- **Be visible** – resist the urge to go inside when there is no one around. You may miss some customers and some of your merchandise while you are inside.
- **Position yourself at the front of your garage in view of the street** – You don't want your garage sale to look deserted. It is safer for you than being at the back of your garage sale where you can't be seen from the street.
- **Have one person as the designated money-person** – Having only one person designated to handle the money prevents a shopper claiming that they paid for the item with someone else.
- **Keep just enough cash on hand to make change** – This will keep con artists from trying to tell you that they gave you a larger bill than they actually did.
- **Keep larger, higher priced items near the garage.**

Call Officer Dawn Odoi at (630) 529-9868 if you have any questions related to this information or other crime prevention material.

New Police Officers on Board

Pool Safety Facts for the Whole Family

As summer arrives, families are looking forward to spending time in the pool, whether it's in the backyard or the public pool. Recent news reports remind us how important it is to safeguard our children. Drowning is the third leading cause of accidental death of children. It can happen in seconds, in the time it takes to answer a phone.

Children under the age of six should wear a Coast Guard approved life vest anytime they are around water, even on the beach. The plastic blow up water wings that go around children's arms cannot be relied upon as a child safety device. Here are some other safety tips:

Never leave a young child alone or with a sibling. If you must step away from the pool area, take the child, or children, out of the pool and with you.

Have a poolside phone so there is no need to leave the area and know the emergency number to call.

Teach your child to swim at a young age. Should they fall in, they might be able to help themselves by staying afloat.

If you have a pool, make sure it is protected on all four sides from neighborhood kids. The fun of having a swimming pool makes it an inviting hazard.

Place door latches on the pool entrance high off the ground so children can't open them. And make sure the door to the pool has a self-closure that will automatically close and latch.

Accidents happen. Attend a First Aid and CPR class. Know what to do before it occurs.

Senior Fair Success!

The April 20th annual Senior Day Fair was presented by the Bloomingdale Police Department and the Bloomingdale Senior Citizen Advisory Council. A total of 240 senior citizens attended. As the Baby Boomer population continues to age, this event remains a valuable asset enabling seniors to learn about the wide variety of resources, many right here in Bloomingdale, available to them. Thanks to the many vendors who participated.

5:30 – 7:00 p.m. Hot dogs, hamburgers, chips, cookies, etc. will be provided free of cost

5:30 – 7:00 p.m. St. Paul Evangelical Church provides free sundaes

6:30 - 7:00 p.m. K-9 Demo featuring Kane, Bloomingdale's Police Dog and his handler, Officer Levi McGhee.

Any questions, contact Officer Dawn Odoi at (630) 529-9868. This evening is a "Thanks" to the Neighborhood Watch Block Captains and participating residents. Please consider joining them for this free, fun, family event and help to "Take a Bite Out of Crime!"

2/20 Fitness – A Different Concept in Working Out

Tom Meredith, owner of recently opened 2/20 Fitness, is no stranger to fitness/exercise/healthy living. In 1983, before the mega fitness centers were everywhere, the 19-year old opened up Tom's Gym in Addison, which he ran successfully for 12 years. During that time he also published a widely-read newsletter called Fitness Edge.

Tom has been involved in other businesses since, but now at the age of 56, he has come back to fitness. The 2/20 Fitness program is his own concept. What separates 2/20 from other fitness plans is that the workouts are designed to take 20 minutes and you only work out twice a week, which gives the muscle time to recover and grow. Better results, less time!

Tom has calibrated all the machines so after each workout you learn how much total weight you lifted. You are also given the tools to a healthy eating plan that maximizes the reduction of body fat by enabling the body to use fat as its energy source. Tom followed the diet himself, as well as following his 2/20 concept, and lost 40 lbs of fat and gained muscle. So he knows his concept works! Tom says 100 percent of his clients thus far have gained strength since they started.

Contact Tom at 630-290-6915 or visit 2/20 Fitness on Facebook to learn more. Or drop by 117 E. Lake Street (in the mini mall by McDonald's) to see what it's all about!

Skate Room Comes to Stratford Square Mall

Stratford Square Mall is about to become home to the largest synthetic ice skating rink inside a mall in the United States. The Skate Room will be located on the second level of Stratford Square Mall, above the first floor carousel location.

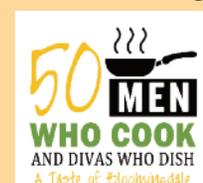

Conceived by owner Kevin Jotkus, the rink itself is constructed of a food-grade polyethylene with natural oils for lubrication of the ice skate blades. Skaters glide on synthetic ice panels using your regular ice skates or those available at the Skate Room. Because the skating rink is indoors and not made of real ice, skaters do not need to wear coats or gloves. The rink will be approximately 2,552 square feet and will be utilized for both public skate and private parties.

The business will operate 3 p.m. to 9 p.m., Monday through Thursday, and with hours to coincide with those of the mall on Friday, Saturday and Sunday. M Salon of Bloomington

Chris and Tony Macaluso owned Macaluso Salons since 1999 at the SW corner of Army Trail and Gary.

When new owners re-configured the strip mall, the couple took the plunge and moved into a brand new unit on the Gary side of the mall in January 2018. M Salon of Bloomington was born! The new location includes eight individual private salon suites and an eight-chair Full Service salon in the front, plus two nail/ pedicure stations. Many stylists love the independent suite concept, but Chris has found many still like to work in an open salon environment.

With the changing needs of the economy, and to give the public choices, the Macaluso's decided to create a dual concept salon for the growing needs of our communities.

Chris noted "Moving our existing stylists over, adding a few new stylists and nail techs and getting settled, we are now ready jump into the next chapter of building the salon guest experience for our patrons. We are a Moroccan Oil loyalist salon, as well as offering Pureology, Matrix Biolage and the new Biolage RAW product lines. At M Salon Bloomington, we strive to give complete attention and a pleasant experience to our guests."

It's Not Only 'Being Green' It's 'Being Responsible'

Excessive amounts of rags, plastics, wipes and grease can cause damage to the Village's wastewater treatment facility and sewer lines. It's not just restaurants and light industries that contribute to the amount of these items in the sewer system – local residents can follow a few simple steps to help put Bloomingdale's sewer system on a "clean diet." Unwanted items that go down your drains or toilets often wash into the plumbing system through drains end up at the treatment facility. Over time, these items can build up and block pipes. Home garbage disposals do not keep grease out of the plumbing system, they only shred solid material into smaller pieces. The added materials that go down the drain; fats, rags, oils and grease (FROG) put excess stress on the sewer system and must then be removed from the Water Reclamation Facility. This causes costly preventative and emergency maintenance for the Village and your household.

What Not to Flush

- Vitamins, medicines or other pharmaceuticals
- Diapers (cloth, disposable, or "flushable")
- Facial tissue
- Baby wipes, disinfectant wipes, etc.
- Toilet bowl scrubs pads
- Napkins or paper towels
- Dental floss
- Fats, oils and greases
- Sanitary napkins, tampons, condoms or any NON-organic material
- Wash cloths, towels, rags or any cloth items
- Plastic wrappers or packaging
- Chemical or solvents
- Cigarette butts or cigar tips

The toilet is not a trash can.

Many items marketed as disposable and/or flushable do not degrade like toilet paper, and they wind up clogging pipes and tangling pumps. They can also cause messy sewer backups that can spill onto the street or even into businesses and homes.

Rx Medication Disposal

Please dispose of expired or unused medications into the Rx Box located in the lobby of the Bloomingdale Police Department, 201 S. Bloomingdale Road.

There is no charge and the dropbox is available 24 hours a day, 7 days a week.

Do I Need a Building Permit?

This is the time of year when many homeowners begin planning for improvements to their home and property. Often residents are surprised to learn that many common projects require a Village building permit.

Building permits ensure that the improvement will be designed and built in accordance with the prevailing building and zoning codes. The Village maintains a record of all permits issued to a particular property. It is not uncommon for the prospective purchaser of a residential property to contact the Village to inquire if proper building permits were obtained.

Village residents planning to build or install an accessory use or structure on their property, or make improvements to their home or property, need to contact the Building and Zoning Division prior to the start of the project. Our certified/trained personnel will provide guidance on the various codes, requirements and permits involved with the construction of your desired project.

Common projects that require a building permit include, but are not limited to:

Fences	Decks	Patios
Fireplaces	Driveways	Water Heaters
Sheds	Porches	Gazebos
Furnaces/Air Conditioning		Sidewalks
Roofing (repair & re-roof)		Siding, Soffit and Gutters
Room Additions		Basements (Finished)
Garages-attached/detached		Kitchen/Bathroom Remodels
Lawn Sprinkling System		Swimming Pool (Above and in-ground)
Plumbing/Sewer Work		Window/Door Replacements
Fire/Water Damage Repairs		Property Regrading/Retaining Walls
Electrical Work (including low voltage)		

Work done without a required permit is subject to increased fees and possible fines. Once a building permit has been issued it should be clearly posted in the front window or on the entrance door of the home.

Please contact the Building, Zoning and Engineering Division at

(630) 671-5660 or @ buildingandzoning@vil.bloomington.il.us if you are not sure whether your project requires a permit, or if you have questions about the building or zoning code requirements, permit fees or the permit process in general.

Bloomingtondale Fire Protection District #1

Backyard grills & summertime campfires . . . Summer Fire Safety For Everyone!

The Bloomingtondale Fire Protection District and the United States Fire Administration believe summertime should be a time for fun and making happy memories.

Every year Americans look forward to summer vacations, camping, family reunions, picnics, and the Fourth of July. Summertime, however, also brings fires and injuries due to fireworks and outdoor grills. Annually nearly 10,000 Americans are injured by fireworks and almost 5,000 are injured by charcoal/wood-burning and propane grill fires. Families also enjoy camping in the summer. It is important to follow the park's rules for the use and extinguishing of campfires.

Knowing a few fire safety tips and following instructions will help everyone have a safe summer.

Barbecue Safety

- Before using a grill, check the connection between the propane tank and the fuel line. Make sure the venturi tubes - where the air and gas mix - are not blocked.
- Do not overfill the propane tank.
- Do not wear loose clothing while cooking at a barbecue.
- Be careful when using lighter fluid. Do not add fluid to an already lit fire because the flame can flashback up into the container and explode.
- Keep all matches and lighters away from children. Teach your children to report any loose matches or lighters to an adult immediately. Supervise children around outdoor grills.
- Dispose of hot coals properly - douse them with plenty of water, and stir them to ensure that the fire is out. Never place them in plastic, paper or wooden containers.
- Never grill/barbecue in enclosed areas - carbon monoxide could be produced.
- Make sure everyone knows to Stop, Drop and Roll in case a piece of clothing does catch fire. Call 911 or your local emergency number if a burn warrants serious medical attention.

Campfire Safety

- Build campfires where they will not spread, away from dry grass and leaves.
- Keep campfires small, and don't let them get out of hand.
- Keep plenty of water and a shovel around to douse the fire when you're done. Stir it and douse it again with water.
- Never leave campfires unattended.

For more information about summer fire safety or other safety concerns, contact Battalion Chief Richard Kurka at the Bloomingtondale Fire Protection District 630-894-9080.

Neighbors Take Heroic Action

At 3:40 a.m. on February 25, John Chlebicki awoke to the smell of smoke. He alerted his wife, who in turn woke neighbor Charles Gnoffo. Together, the men went outside to find smoke rushing from the eaves of a neighboring unit.

Knowing their neighbor lives alone, they gained entry to the house. As smoke poured from the opening, they found her lying on the floor. The two men removed the resident from the hazardous environment, moving her to a small patch of grass as arriving paramedics began treatment.

As a result of their swift actions, the neighbor was transported to Alexian Brothers Medical Center where she was treated, and through aggressive medical procedures, her condition improved.

Morton Arboretum Garden Calendar

JUNE

- Water trees and shrubs deeply if natural rainfall is less than one inch per week.
- Water the soil and not the foliage to reduce leaf spot diseases.
- Replenish mulch under trees and shrubs to conserve moisture, reduce weeds, and control temperature fluctuations in soil.
- Prune late spring flowering shrubs and hedges now.
- Avoid pruning oaks and elms between mid-April and October. Oak wilt and Dutch elm disease are spread by sap feeding insects carrying the disease from tree to tree.
- Monitor all plants regularly for insect and disease problems.
- Pull weeds before they go to seed.
- Plant summer flowering bulbs and annuals.
- Avoid deep cultivation around shallow rooted plants by hand pulling weeds when they are small.
- Monitor container plants daily, especially those in clay pots, for watering needs.
- Pinch garden mums and asters once a month for bushier growth. Stop pinching after July 15 so plants can set flower buds.
- Remove faded blossoms from flowering annuals, perennials, and roses to encourage more blooms.
