X Not applicable.

[1] "Spouse" represents spouse of the householder. It does not reflect all spouses in a household. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

[2] A household that has at least one member of the household related to the householder by birth, marriage, or adoption is a "Family household." The householder is termed a "family householder." All persons living in family households are included in this total regardless of their relationship to the householder. Same-sex couples are included in the nonrelatives category.

[3] "Nonfamily households" consist of people living alone and households which do not have any members related to the householder. The householder is termed a "nonfamily householder."
