Get the Most from Your Health Plan

Welcome to Blue Cross and Blue Shield of Illinois (BCBSIL), a leader in health care benefits. We have been helping people like you get the most from their health care plans for many years.

Read this guide to learn about benefits your employer is offering. Think about how you and your family will use these benefits. Learn more about products, services and how to be a smart health care user at bcbsil.com.

Your ID Card

After you enroll, you will get a member ID card in the mail. Show this ID card when you see a doctor, visit the hospital or go to any other place for care. The back of the card has phone numbers you might need.

Blue Access for MembersSM

Go to bcbsil.com/member and sign up for the secure member website, Blue Access for Members. Find the "Log In" tab and click "Register Now." Use the information on your ID card to complete the process. On this site, you can check your claims, order more ID cards, get health information and much more.

Save Money – Stay In-Network

Using independently contracted network providers can help you save. Look at your ID card to find your network. Then go to bcbsil.com to look for doctors, hospitals and other places for care.

Call Customer Service for Help

Our team knows your health plan and can help you get the most from your benefits. Just call the toll-free number on the back of your ID card.

The PPO Plan

With the PPO plan, you can choose any doctor whenever you need care

The PPO plan offers a wide range of benefits and the flexibility to choose any doctor or hospital when you need care. The plan includes an annual deductible that you must satisfy before your benefits begin. Qualified medical expenses are applied toward your deductible.

PPO Network

Access to the large network of contracting providers is one of the many reasons to select the PPO plan. The network includes hospitals, physicians, therapists, behavioral health professionals and alternative care practitioners.

You and your covered dependents can receive care from any licensed doctor, hospital or other provider. However, when you use a contracting network provider, you will pay less out of pocket, you won't have to file any claims and you will receive the highest level of benefits. If you use a doctor outside the network, you'll still be covered, but your out-of-pocket costs may be significantly higher.

Medical Care

Your benefits may include coverage for*:

- physician office visits
- breast cancer screenings
- cervical cancer screenings
- inpatient hospital services
- muscle manipulation services
- outpatient hospital services
- physical, speech and occupational therapies
- outpatient surgery and diagnostic tests
- infertility treatment
- maternity care
- behavioral health and substance abuse
- hospital emergency medical and accident treatment

To find a contracting doctor or hospital, just go to [bcsil.com](https://www.bcsil.com) and click on the Find a Doctor or Hospital tab to use the Provider Finder® tool, or call BlueCard® Access at **800-810-BLUE (800-810-2583)** for help. Once you become a member, you can also call the toll-free Customer Service number on the back of your member ID card.

Confused About Where to Go for Care?

SmartER CareSM options may save you money.

If you aren't having an emergency, deciding where to go for medical care may save you time and money.

You have choices for where you get non-emergency care — what we call SmartER Care. Use this chart to help you figure out when to use each type of care.

When you use in-network providers for your family's health care, you usually pay less for care. Search for in-network providers in your area at bcbsil.com or by calling the Customer Service number on your member ID card.

Doctor's Office

- Office hours vary
- Generally the best place to go for non-emergency care
- Doctor-to-patient relationship established and therefore able to treat, based on knowledge of medical history
- Average wait time is 18 minutes¹

\$

Retail Health Clinic

- Based on retail store hours
- Usually lower out-of-pocket cost to you than urgent care
- Often located in stores and pharmacies to provide convenient, low-cost treatment for minor medical problems

\$

Urgent Care Center

- Generally includes evenings, weekends and holidays
- Often used when your doctor's office is closed, and you don't consider it an emergency
- Average wait time is 16-24 minutes²
- Many have online and/or telephone check-in

\$\$

Hospital ER

- Open 24 hours, seven days a week
- Average wait time is 35-49 minutes (variable)³
- If you receive emergency room (ER) care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- Multiple bills for services such as doctors and facility

\$\$\$

Freestanding ER

- Open 24 hours, seven days a week
- Could be transferred to a hospital-based ER depending on medical situation
- Services do not include trauma care
- Often freestanding ERs are out-of-network. If you receive care from an out-of-network provider, you may have to pay more. Providers outside the network may "balance bill" you, which means they may charge you more than your health plan's fee schedule.
- All freestanding ERs charge a facility fee that urgent care centers do not. You may receive other bills for each doctor you see.⁴

\$\$\$\$

If you need emergency care, call **911** or seek help from any doctor or hospital immediately.

Urgent Care Center or Freestanding ER – Knowing the Difference Can Save You Money

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs may be higher. A visit to a freestanding ER often results in significantly higher medical bills than the rate charged by urgent care centers for the same services.

Here are some ways to know if you are at a freestanding ER:

- Looks like urgent care centers, but have the word "Emergency" in their name or on the building.
- Is open 24 hours a day, seven days a week.
- Is not attached to and may not be affiliated with a hospital.
- Is subject to the same ER member share which may include a copay, coinsurance and applicable deductible.

Find urgent care centers¹ near you by texting² **URGENTIL** to **33633**.

[†]"Freestanding ED 101: What you need to know" July 2016, The Advisory Board Company.

¹ The closest urgent care center may not be in your network. Be sure to check Provider Finder[®] to make sure the center you go to is in-network.

The HMO Plans

HMOs offer valuable benefits with the security of predictable copayments.

The HMOs of Blue Cross and Blue Shield of Illinois (BCBSIL) provide the valuable benefits, member services and flexibility, along with the security of predictable copayments, so there are no financial surprises. Your employer may offer you the HMO Illinois[®] plan, the Blue Advantage HMOSM plan or a choice between the two.

When you join one of the HMOs of BCBSIL, you choose a contracting medical group within your network and then a family practitioner, internist or pediatrician from your chosen medical group to serve as your primary care physician (PCP). Your PCP provides or coordinates your health care, helps you make informed decisions and, when necessary, makes referrals to specialists who are usually within your medical group network. Each specialist referral is authorized for a specific number of visits or timeframe (up to one year).

In addition to their PCP, female members also have the option of choosing a woman's principal health care provider (WPHCP) to provide or coordinate their health care services. Your WPHCP and PCP must be affiliated with or employed by your participating medical group. Physicians in the same medical group do have a referral arrangement. You do not need a PCP referral to see your WPHCP.

HMO Networks

HMO Illinois offers access to one of the largest contracting health care provider networks in Illinois. In fact, your regular doctor may already be part of the network. If your doctor is not in the network and you are undergoing a course of evaluation or medical treatment or are in your third trimester of pregnancy when you join the plan, you may request transition of care benefits. Benefits for transitional services may be authorized for up to 90 days. After this period, all care must be transferred to a new PCP or medical group in the HMO network. Contact Customer Service at the number on your BCBSIL ID card for more information.

The Blue Advantage HMO contracting provider network is a subset of the HMO Illinois network. Although smaller, it offers a broad choice of contracting providers and is for members who are looking for a more affordable health care plan. Blue Advantage HMO members also have access to the same contracting Illinois hospitals as HMO Illinois members for specialty care, with an approved referral from the member's contracting medical group.

Medical Care

The range of benefits includes coverage for:

- Physician office visits
- Outpatient surgery and diagnostic tests
- Breast cancer screening
- Cervical cancer screening
- Prostate cancer screening
- Colon cancer screening
- Inpatient hospital services
- Maternity care
- Outpatient hospital services
- Mental health and substance use disorder – inpatient and outpatient treatment
- Rehabilitative therapy (such as physical, speech and occupational therapy)
- Inpatient and outpatient treatments

To find a medical group and PCP in the network, go to **bcbsil.com** and click on **Find a Doctor**. You also can refer to a printed directory. You can request a directory by calling Customer Service at the number on your BCBSIL ID card. Each covered family member can choose a different medical group or PCP from the network. It's also easy to change your PCP or medical group for any reason. To select a different PCP within your existing medical group, just call the medical group. To change your medical group, call Customer Service or use the Blue Access for MembersSM online service at **bcbsil.com**. See Your Health Care Benefit Program booklet or call Customer Service for more information.

Preventive Care

Another HMO benefit is coverage for preventive health services for children and adults, such as routine physicals, screenings, tests and immunizations, including childhood immunizations. Also, BCBSIL sends reminders to members to schedule flu shots, mammograms and Pap tests, and to have early childhood immunizations completed.

Vision Care

The vision discount program is offered through a partnered company. You have access to one of the nation's largest networks of independent eye doctors and well-known retail providers – with many in-network providers offering extended weeknight and weekend hours. Call Customer Service at the number on the back of your ID card for more information.

BlueCard®

This program covers HMO members traveling outside of Illinois who need medical attention. To learn more about this benefit, please call the number on your ID card. To find a contracting provider in the area in which you are traveling, call the BlueCard program toll-free at **800-810-BLUE (800-810-2583)** or search the Blue Cross and Blue Shield Association's website at **bcbs.com**. You can then call the provider directly to make an appointment. You pay the applicable copayment at the time of service and don't need to submit claim forms.

Emergency Care

You receive health care coverage for hospital emergency room (ER) care, inpatient hospital care directly resulting from any medical emergency and ER follow-up care. Emergency care benefits cover members who have a medical emergency that may occur at any time. When a medical emergency occurs, first try to call your PCP. Someone from your medical group is available 24 hours a day, seven days a week. Your PCP or another doctor in your medical group may be able to treat you in the office. If you are unable to call your PCP, go directly to the nearest hospital emergency room and notify your PCP as soon as possible.

If you are admitted, someone must contact your PCP immediately upon admission. Your emergency room copayment will be waived, but you will have to pay your inpatient hospital copayment, if applicable. Emergency care benefits are limited to the initial emergency treatment. To receive additional benefits, your PCP must provide or coordinate follow-up care.

Reconstructive Surgery

Federal and State of Illinois legislation require that group health plans and health insurers provide coverage for reconstructive surgery following a mastectomy. These laws state that health plans covering mastectomies must also provide coverage in a manner determined in consultation with the attending physician and patient for reconstruction of the breast on which the mastectomy has been performed, surgery and reconstruction of the other breast to produce a symmetrical appearance, and prostheses and treatment for physical complications for all stages of mastectomy care, including lymphedemas.

The HMOs of BCBSIL cover these procedures and annual mammograms when ordered by a member's PCP or WPHCP, subject to the terms of the member's applicable health care benefit coverage. Visit us at bcbsil.com or call Customer Service for more information.

Utilization Management

The HMOs of BCBSIL support the belief that the best people to determine what medical care you need are you and your doctor. BCBSIL does not get involved in deciding your course of treatment. This sets it apart from most other HMOs. Your doctor is encouraged to listen to your concerns and discuss all treatment options with you to help you make informed decisions. Your network medical group may review certain referrals or procedures for appropriateness of care. Your HMO doesn't get involved unless you request an appeal from BCBSIL because you disagree with decisions made by your PCP or medical group.

Substance Use Disorder

Treatment for substance use disorder (also known as substance abuse) is covered in your benefit plan. Please contact your PCP for a referral to a specialist.

If you have a question, visit bcbsil.com or call Customer Service at 800-892-2803.

Medical Plan Frequently Asked Questions

Q. Are my medical records kept confidential?

A. Yes. Blue Cross and Blue Shield of Illinois (BCBSIL) is committed to keeping all specific member information confidential. Anyone who may have to review your records is required to keep your information confidential. Your medical records or claims data may have to be reviewed (for example, as part of an appeal that you request). If so, precautions are taken to keep your information confidential. In many cases, your identity will not be associated with this information.

Q. Who do I call with questions about my benefits?

A. Call the toll-free Customer Service number on the back of your member ID card.

Q. How do I find a contracting network doctor or hospital?

A. Go to [bcbsil.com](https://www.bcbsil.com) and use Provider Finder®, or call Customer Service at the toll-free number on the back of your member ID card.

Q. What do I do when I need emergency care?

A. Call 911 or seek help from any doctor or hospital. BCBSIL will coordinate your care with the emergency provider.

Some options for non-emergency care include:

- **Your doctor's office** for health exams, routine shots, colds, flu and other minor illnesses or injuries.
- **Walk-in retail health clinics** available in retail stores. Many have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies, colds and other minor health problems.
- **Urgent or immediate care clinics** for more serious health issues, such as when you need an X-ray or stitches.

Urgent Care or Freestanding Emergency Room?

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs are higher, just as if you went to the ER at a hospital. Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have EMERGENCY in the facility name.
- Are separate from a hospital but are equipped and work the same as an ER.
- Are staffed by board-certified ER physicians and are subject to the same ER copay.
- Find urgent care centers¹ near you by texting² **URGENTIL** to **33633** and then type in your ZIP code.

Q. What should I bring to my first appointment with a new doctor?

A. Your first appointment is an opportunity to share information about your health with your new doctor. Bring as much medical information as possible, including:

- **Medical records and insurance card** — If you are undergoing treatment at the time you change doctors, your medical records are important to your new doctor. Your insurance card provides information about copayments, billing and Customer Service phone numbers.
- **Medications** — Give your new doctor information about prescription and over-the-counter medications, including any herbal medications you take. Be sure to include the name of the medication, the dosage, how often you take it and why you take it.
- **Special needs** — Make a list of any equipment or devices you use including wheelchairs, oxygen, glucose monitors and the glucose strips. Be prepared to explain how you use them, not only to make sure you have the equipment you need, but also to make sure that there is no disruption in your care.

Q. What questions should I ask if I am selecting a new doctor?

A. In addition to preliminary questions you might ask a new doctor — such as “Are you accepting new patients?” — here are some questions to help you evaluate whether a doctor is right for you.

- What is the doctor’s experience in treating patients with the same health problems that I have?
- Where is the doctor’s office? Is there convenient and ample parking, or is it close to public transportation?
- What are the regular office hours? Does the office have drop-in hours if I have an urgent problem?
- How long should I expect to wait to see the doctor when I’m in the waiting room?
- Are routine lab tests and X-rays performed in the office, or will I have to go elsewhere?
- Which hospitals does the doctor use?
- If this is a group practice, will I always see my chosen doctor?
- How long does it usually take to get an appointment?
- How do I get in touch with the doctor after office hours?
- Can I get advice about routine medical problems over the phone or by email?
- Does the office send reminders for routine preventive tests like cholesterol checks?

Q. What if I’m already in treatment when I enroll and my provider isn’t in the network?

A. We’ll work with you to provide the most appropriate care for your medical situation, especially if you are pregnant or receiving treatment for a serious illness. You may still be able to see your out-of-network provider for a period of time. Call the toll-free Customer Service number on the back of your member ID card for more information.

¹The closest urgent care center may not be in your network. Be sure to check Provider Finder to make sure the center you go to is in-network.

Notes about amounts under "YOUR BENEFITS APPLIED" and "YOUR RESPONSIBILITY"

(1) The amount billed is greater than the amount allowed for this service. Based on our agreement with this provider, you will not be billed the difference.

(2) Your Health Care Plan does not provide benefits for surgical assistant services when billed by the same physician who performed the surgery or administered the anesthesia. No payment can be made. **P**

Your health care plan has a calendar year maximum for x-rays and laboratory services performed in the outpatient department of a hospital, a clinic or a doctor's office. Children's Wellness Guidelines

Laying the Groundwork for a Healthy Tomorrow

Children's Health

Put your child on the path to wellness. Schedule a yearly Well Child visit with your child's health care provider* following immunization guidelines. The health care provider will watch your child's growth and progress and should talk with you about eating and sleeping habits, safety and behavior issues.

According to the Bright Futures recommendations from the American Academy of Pediatrics, the provider should:

- Check your child's Body Mass Index percentile regularly beginning at age 2
- Check blood pressure yearly, beginning at age 3
- Screen hearing at birth, then yearly from ages 4 to 6, then at ages 8 and 10
- Test vision yearly from ages 3 to 6, then at ages 8, 10, 12, and 15

Help protect your child from sickness. Make sure they get the recommended vaccinations shown in the charts. If your child has missed vaccinations, ask your health care provider how to catch up.

Learn more. An additional source of health information is available at [healthychildren.org](https://www.healthychildren.org).
