PLANTING ADDRESS: _____

E-MAIL ADDRESS: _____

PLEASE INDICATE QUANTITY DESIRED

(limit of one tree per residential parcel; two trees per business/school/commercial parcel)

_____ 2.5" American Yellowwood (*Cladrastis kentukea*)

The American Yellowwood is a graceful, deciduous tree that grows 30–50 feet tall and 40–55 feet wide. It's prized for its fragrant white spring flowers, smooth gray bark, and bright yellow fall foliage. Its broad, spreading canopy makes it stand out in landscapes.

American Yellowwood

_____ 2.5" Black Tupelo (*Nyssa sylvatica*)

The Black Tupelo is a tree that grows 30–50 feet tall and 20–30 feet wide. It's known for its vibrant fall colors, glossy green leaves, and wildlife-attracting fruits. Its rugged bark adds visual interest year-round.

Black Tupelo

_____ 2.5" Butterflies Magnolia (*Magnolia acuminata*)

The Butterflies Magnolia is a compact, ornamental tree that grows 10–20 feet tall and 8–15 feet wide. It's celebrated for its fragrant, yellow tulip-shaped flowers that bloom in early spring before the leaves emerge.

Butterflies Magnolia

_____ 6'-7' Douglas Fir (*Pseudotsuga menziesii*)

The Douglas Fir is a majestic evergreen that grows 40–80 feet tall and 12–20 feet wide in landscapes, though it can reach over 200 feet in the wild. It's known for its soft, fragrant needles, pyramidal shape, and distinctive cones.

Douglas Fir

_____ 2.5" Emerald City Tulip Tree (*Liriodendron tulipifera*)

The Emerald City Tulip Tree is a stately, fast-growing tree that reaches 55–60 feet tall and 20–25 feet wide. It features large, glossy green leaves, a narrow, upright form, and tulip-shaped yellow-green flowers in late spring.

Emerald City Tulip Tree

_____ 2.5" Green Mountain Sugar Maple (*Acer saccharum*)

The Green Mountain Sugar Maple is a hardy, upright tree that grows 40–60 feet tall and 35–45 feet wide. It's valued for its dense canopy, classic maple shape, and brilliant orange-red fall color. Its strong branching and drought tolerance make it a reliable choice for shade and seasonal beauty.

Green Mountain Sugar Maple

_____ 2.5" Northern Pin Oak (*Quercus ellipsoidali*)

The Northern Pin Oak is a fast-growing, deciduous tree that reaches 50–70 feet tall and 40–60 feet wide. It features deeply lobed leaves that turn brilliant red in fall and have a pyramidal to round shape. Its adaptability to dry, sandy soils make it a great choice for tough urban or suburban sites.

Northern Pin Oak

_____ 2.5" Spaeth's Alder (*Alnus spaethii*)

The Spaeth's Alder is a fast-growing hybrid tree that typically reaches 40–50 feet tall and 20–30 feet wide. It's known for its glossy, dark green leaves, which often stay on the tree into early winter, and its upright, oval shape.

Spaeth's Alder

Please note: New trees cannot be planted where a tree was previously removed.
